PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

ARUSHA REGION

FORM FOUR MOCK EXAMINATION

GEOGRAPHY- MARKING GUIDE

MAY 2024

SECTION A: (16 MARKS)

1.

i	ii	iii	iv	v	vi	vii	viii	ix	x
E	D	B	B	E	A	A	C	A	C

2.

i	ii	iii	iv	v	vi
B	D	F	G	H	A

SECTION B: (54 MARKS)

3. i) Change the map scale into verbal

Given: map scale: 1:50,000

1km = 100,000cm

x = 50,000cm

$$x = \frac{1km \times 50000cm}{100000cm}$$

$$x = \frac{05km}{10} = \frac{1}{2} km$$ 0½ mark

One centimetre on the map represent half a kilometre on the actual ground

ii Area = Full square + $\frac{\text{half square}}{2}$

= 72sq + $\frac{12sq}{2}$

01

$= 72sq + 6sq$

$= \underline{78sq}$ (1 mark)

From map scale : (1:50,000)

$1km = 100,000cm$

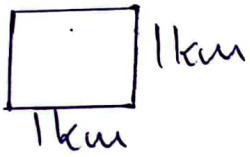

$x = 50,000cm$

$x = \frac{1km \times 50,000cm}{100,000cm}$

$x = \frac{5km}{10} = \frac{1}{2}km$ (0½ mark)

$\therefore \underline{1cm = \frac{1}{2}km}$

then $2cm = 1km$

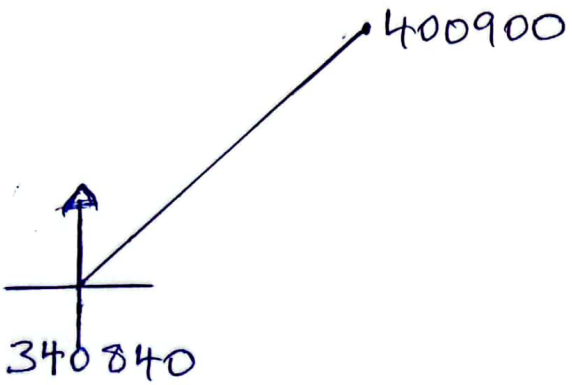

$1sq = 1km$

$78sq = x$

$x = \frac{78sq \times 1km^2}{1sq}$

$\underline{78km^2}$ (01 mark)

(iii)

Bearing 45° NE (01 mark)

02

iv) The area is located in Southern hemisphere b/cz it is found in latitude 2° 50's (02 marks)

x) a) Supportive contents
- Scale
- Key
- Title
- Margin
- Sheet number
(1 mark @ ½)

b) Factors affecting the content of the map
- Scale
- Experience of the cartographer
- Purpose of the map
- Nature of the land presented (1 mark @ ½)
- Date of publication ie 1994

4: a) Sampling (01½ marks)

b) i) Probability sampling
ii) Non-probability sampling (@ 01 mark)

c) - It saves time
- It reduce bias
- It saves costs
- It simplify data collection process
(@ 0½ mark)

d) - It help the researcher to get maximum information
- It help the researcher to avoid conflict
- It increases moral and social values to both responds and researcher
- It increases comfort ability of the respondent
- It increases the accountability of the researcher
(04 marks @ 01 mark)

out of 25

5. a) i) Obstacles: Are objects/features that prevent taking direct measurements. ie Ponds, River, Hill, etc

ii) Methods applied to overcome (2 marks)
- Right-angle method
- Congest method/Similar triangle method
- Rectangular method
- Pythagoras theorem (03 marks @ 01 mark)

b) Principles of conducting accurate survey
i) Use few and short lines as possible
ii) Avoid steep slopes and major obstacles like hills mountains, valley, etc
iii) Checking and repairing instruments
iv) Calling out measurements to booker clearly
v) Maintaining all triangles between 30° and 120°
vi) Making accurate measurements. (04 marks @ 01 mark)

6. a) The nature of the statistical data is individual data/ Ungrouped data

b) i) Mean $= \frac{\Sigma x}{N}$

$$= \frac{70+82+80+70+65+70+70+80+65+85}{10}$$

$$= \frac{737}{10}$$

$$= 73.7 \simeq 74 \quad (01 \text{ mark})$$

ii) Median
Number at the middle after arranging values in ascending or descending order
$= 70$ (01 mark)

04

iii) Mode

The most occuring value

= 70 (01 mark)

iv) Range = Max value - Min value

= 85 - 65

= 20 (01 mark)

v) Standard deviation

$$= \sqrt{\frac{\Sigma(x-\bar{x})^2}{\Sigma f(N)}}$$

fx	$\bar{x}$	$x - \bar{x}$	$(x-\bar{x})^2$
70	73.7	-3.7 (-4)	13.69 (16)
82	≈ 74	8.5 (8)	72.25 (64)
80		6.3 (6)	39.69 (36)
70		-3.7 (-4)	13.69 (16)
65		-8.7 (-9)	75.69 (81)
70		-3.7 (-4)	13.69 (16)
70		-3.7 (-4)	13.69 (16)
80		6.3 (6)	39.69 (36)
65		-8.7 (-9)	75.69 (81)
85		11.3 (11)	127.69 (121)

$\Sigma(x-\bar{x})^2 = 535.46$

$SD = \sqrt{\frac{535.46}{10}}$

$= \sqrt{53.546}$

$= 7.32$

Or

$= \sqrt{\frac{483}{10}}$

$= \sqrt{48.3}$

$= 6.9 \simeq 7$

(01 mark)

c) - It helps in summarizing the large set of data
- It help in storing information in form of number, graph, table, etc
- Help in planning
- Help in predicting the future trend
- Help in decision making
- Helps in evaluation purpose

(@ 0.5 = 01 mark)

05

d)- Simple line graph
- Simple bar graph
- Divergent line graph
- Divergent bar graph
- Pie charts. (2 points @ 0.5 = 1 mark)

7. i) The type of photograph is Oblique photograph (1 mark)

Reasons
- It displays more than one side of the nature
- The horizon is seen
- It covers a large area (@ 0.5 = 1 mark)

ii) - Water bodies
- Beach
- Shore
- Vegetation (@ 0.5 = 01 mark)

iii) The scale of the photograph is decreasing from the foreground to the background as the features tend to decrease in their size from the foreground to the background (01 mark)

iv) - Fishing
- Navigation (@ 0.5 = 01 mark)
- Tourism
- Quarrying/Mining

v) Dar es salaam
- Mwanza
- Zanzibar
- Kigoma
- Iringa
- Mtwara
- Kagera
- Rukwa
- Ruvuma (@ 01 mark = 3 marks)

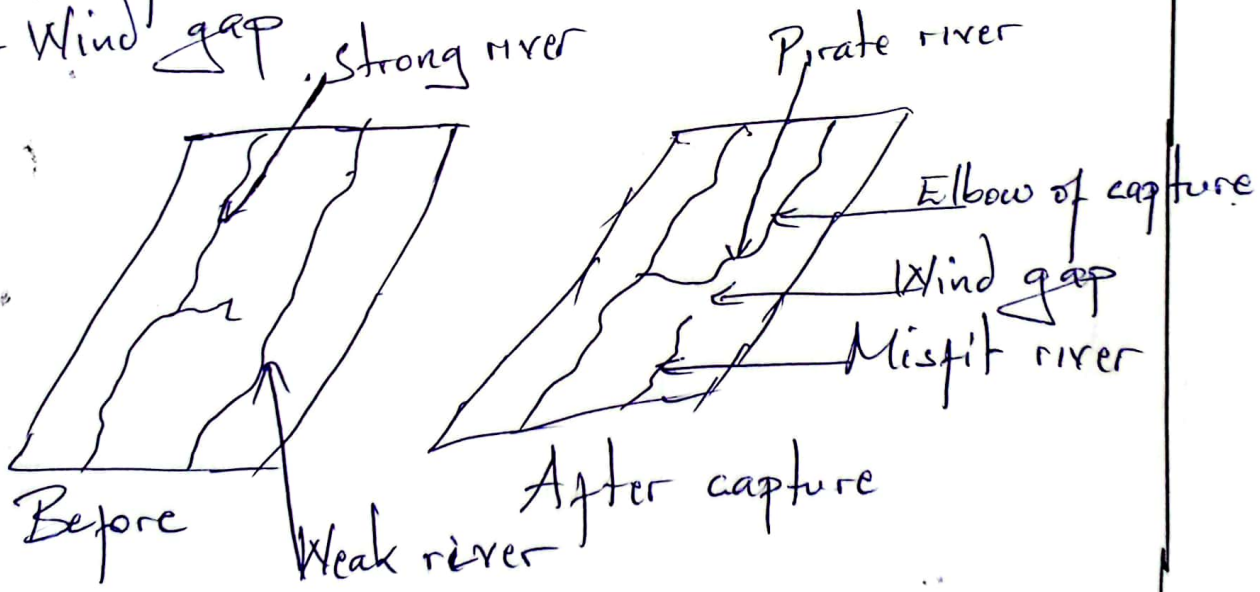

06

8. (i) River capture / River piracy

(ii) Condition necessary for the river capture to occur
- The capturing river should be stronger / must have greater energy for vertical erosion
- The capturing river must be lying at the lower level and usually with steeper gradient
- The capturing river must be flowing relatively softer rock
- Two rivers must fall in the same catchment area
- The captured river must be weak (@ 01 mark = 03 marks)

(iii) Features resulting from river capture
- Pirate stream
- Elbow of capture
- Misfit river / stream
- Wind gap

(@ 1 mark = 04 marks)

SECTION C (30 MARKS)

9. Introduction

Population distribution; is the way in which people are spread across the earth's surface (02 marks

Main body

Factors for population distribution

07

i) Climate
ii) Relief / Topography
iii) Soil
iv) Vegetation
v) Pests and diseases
vi) Political stability (@ 02 marks)
vii) Historical factor
viii) Availability of social services
ix) Availability of economic opportunities

Conclusion
Any relevant (01 mark)

10. Introduction
Environment is anything surrounding us. The environment is where people live and engage in different activities. (02 marks)

Main body
Activity done to conserve environment
i) Afforestation
ii) Re afforestation
iii) Agro-forestry
iv) Addition of soil fertility
v) Land reclamation

Activities done to destroy environment
i) Bush fire
ii) Agricultural activities (@ 2 mark)
iii) Deforestation
iv) Mining
v) Tourism

Conclusion
Any relevant (01 mark) 08

11. Introduction

Industry; is a place where they processing and changing of raw materials into finished or semi-finished by using different tools and machines takes place. (2 marks)

Main body

i) Inadequate supply of raw materials
ii) Inadequate power supply
iii) Inadequate labou supply
iv) Poor transport and communication networks
v) Lack of enough market
vi) Inadequate capital
vii) Poor government policy
viii) Inadequate water supply

@ 2 marks

Conclusion

Any relevant (01 mark

09
