THE UNITED REPUBLIC OF TANZANIA

PRESIDENT'S OFFICE,
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

011 **CIVICS**

TIME: 3:00 Hours
Tuesday, 8th September 2020 p.m.

INSTRUCTIONS

1. This paper consists of section A, B and C.
2. Answer all questions in section A and B, and three (3) questions from section C.
3. Section A carries 15 marks, Section B carries 40 marks and section C carries 45 marks.
4. Cellular phones and any unauthorized materials are not allowed in the examination room.
5. Write your examination number on every page of your answer booklet.

SECTION A (15 MARKS)

1. For each of the items (i)-(x).choose the correct answer among the given alternatives and write its letter besides the item number in the answer booklet(s) provided.

i. Which set comprises of the loan – giving institutions in Tanzania
A. TANESCO, NBC, and TIB
B. NMB, NHC and NHICO
C. TWICO, NHC and NHICO
D. FINCA, PRIDE AND SACCOS
E. NMB, NBC and CRDB

ii. Two types of corruption include
A. Black mail and Fraud B. Fraud and Left C. Patronage and grafting
D. Swindling and blackmail E. Coalition and cohabitation

iii. The current president of Democratic Republic of Congo is
A. Paul Kagame B. Joseph Kabila C. Bruno Tshibala
D. Martin Fayulu E. Felix Tshisekedi

iv. The way that a person or group deals with difficulties in the society are called:
A. Problems solving techniques
B. Problem solving
C. Social problem solving techniques
D. Decision making
E. Promotion of life skills

v. A feeling of loyalty and love for one's country is.....
A. Responsible B. Patriotism C. Citizenship
D. Natural citizen E. National Hood

vi. In .....Tanganyika became Republic
A. 1961 B. 1964 C. 1962 D. 1977 E. 1992

vii. .....refers to a situation whereby one sex is treated either better or worse.
A. Gender quality B. Gender mainstreaming C. Gender blind
D. Gender discrimination E. Gender imbalance

viii. "Traffic" means.....
A. A person who directs vehicles on roads
B. A police officer in white uniform
C. Movement of the people and vehicles on the roads
D. A lot of people in one place
E. Sign posts draw to give information to all road users.

ix. The word Democracy is derived from two Greek words:
A. Demo and Power B. Cracy and Kratos C. Demo and Kratos
D. Democracy and Greeks E. For the people and by the people

x. One of the following is not true about culture
A. Adaptive B. Static C. Learned D. Dynamic E. Symbolic

2. Match the items in List A with the correct response in List B by writing the letter of the corresponding respond besides the item number in the answer booklet(s).

LIST A	LIST B
i. Gift given to the bribe in consideration for marriage	A. Courtship
ii. According to the constitution of the United republic of Tanzania marriage below 18 years is considered as:	B. Stable Family
iii. Shows evidence of maturity	C. Dowry
iv. Consists of father, mother, children and other relatives	D. Nuclear family
v. Peace respect, love and good behavior are maintained	E. Pre – mature marriage
	F. Foolish age
	G. Divorce
	H. Extended Family

SECTION B (40MARKS)

3. Read the following passage and then answer the question that follows:

Mixed economy is an economic system in which both the state and private sectors direct the economy, reflecting the characteristics of both capitalism and socialism by having a variety of private and public enterprises. The mechanism of mixed economy is that, some of the tasks are given to the private sector while some are left with the government itself. Both are carried parallel with each other. So this give the economy great boost everybody is doing its best, the government is playing its role and private sector contribution is shared to economy. Many of the countries are experiencing the mixed economy because it gives the better economic results.

These are advantages of the mixed economy, it helps the nation to avoid the disadvantages of capitalism and socialism, it helps to reduce exploitation by private or public sectors, helps to improve the quality of production of variety of goods and services in the private sectors, helps to create more job opportunities, it reduces the work load of the government in production and distribution of goods and services. There are several criticism raised against free market economy. Wage dispute where there is low wages, government interference where there are no well-defined activities between public and government activity.

In mixed economy, two sectors are not rivals. The two sectors Are partners in the process of development, because for the efficient of of working of this system the co-operation between the two sectors is necessary. The private sectors in mixed economy operates under certain controls and regulations of the government

QUESTIONS

a. Write the most suitable tittle of this passage
b. Write two advantages of mixed economy.
c. According to the passage, what is the relationship between the two sectors involved in the mixed economy?

d. What do critics say about mixed economy?
e. In your own words outline reasons which made Tanzania to adopt mixed economy

4. In five points, identify cultural practices which undermine women in Tanzania.
5. As the best student in discipline issues identify five effects of COVID – 19 holidays.
6. Explain five factors which distinguish a good leader from bad leader.
7. Briefly explain five importance of work for self – development.
8. What are the five precaution measurers against Corona Virus?
9. Briefly explain five consequences of improper behavior to students.
10. Explore five negative effects of globalization on developing countries like Tanzania

SECTION C (45 MARKS)

11. Discuss five major challenges facing the provision of social services in countries like Tanzania.
12. The magnitude of road accident in Tanzania is increasing day to day due to several factors. Explain five ways which can be used to prevent road accidents.
13. Explain five social cultural practices hinder the equal participation of men and women in the society.
14. By using five points explain how public servant abuse power in various sectors in Tanzania.

THE UNITED REPUBLIC OF TANZANIA

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

022 ENGLISH LANGUAGE

TIME: 3:00 Hours
Thursday, 10th September 2020 a.m.

INSTRUCTIONS

1. This paper consists of section A, B and C with Total 13 questions.
2. Answer all questions in section A, B and three questions from section C.
3. Cellular phones and any unauthorized material are not allowed in the examination room.
4. Write the examination number on every page of answer sheet.

SECTION A (15 Marks)

1. For each of items (i) – (x) choose the most correct answer among the given alternatives and write its letter besides the number.

(i) If I were you I ..... the examination
A. Won't fail B. Don't fail C. I am not going to fail D. Wouldn't fail

(ii) You won't succeed ..... you try harder
A. If B. Unless C. Because D. So

(iii) His performance is ..... than it was a year ago.
A. Gooder B. Best C. More good D. Better

(iv) He has waited ..... three hours now.
A. For B. Since C. In D. Within

(v) My heart is breathing fast " what does the underlined part of word indicate in this sentence.
A. The past continuous tense B. Ongoing activity
C. Daily routine D. The simple present tense

(vi) A girl ..... bag was stolen is my sister
A. Who B. Which C. Whose D. Whom

(vii) Which among the sentences below can be used instead of the following sentences?" I shall visit Dodoma"
A. I am visiting Dodoma B. I shall be visiting Dodoma
C. I have visited Dodoma D. I am going to visit Dodoma

(viii) She has given her books. The sentence is in .....
A. Present perfect tense B. Past perfect tense
C. Simple past D. Present perfect continuous tense

(ix) "There is a man sitting outside. The man has been waiting for you since morning" Why is article "the" used with the word "man" in the sentence?
A. The man is a particular person B. The man is mentioned for the second time
C. The word man is unique thing D. Because the word man is not the same one

(x) Does money ..... more money?
A. Attract B. Attracts C. Attracted D. Attracting

2. Choose the name of young animal from list B and match it with the appropriate animal in the list A

List A	List B
i. A young lion is called	A. Kitten
ii. A young sheep is called	B. Calf
iii. A young pig is called	C. Piglet
iv. A young dog is called	D. Cub
v. A young elephant is called.....	E. Lamb
	F. Kids
	G. Foals

SECTION B (40 Marks)

Answer all questions in this section

3. Write an appropriate question tag for each of the following statements
   (a) You don't expect father to believe that.
   (b) He is counting books in the shelf.
   (c) You are doing an English language examination
   (d) Madam Laura has not been kind.

4. (a) Dictionaries use symbols and abbreviations to save space. What do the following abbreviations and symbols mean.
   (i) [*U*]
   (ii) [*Conj*]

(b) Define the following concept applied in dictionary
   (i) Head word (ii) Dictionary

5. In each of the following sentence, one word is wrong, identify the wrong word and replace it by writing the correct word.
   (a) Student should live in piece and harmony
   (b) Our principles told us to behave as intellectuals
   (c) His leg was heart when kicked the ball
   (d) There was a red mark on her left chick

6. Re-write the following sentence according to the instructions given.
   (i) What is your occupation? he asked
   Begin: The policeman asked me .....
   (ii) Neither Mariam nor her sister are popular
   (Re-write using ..... as.....)
   (iii) He was such a cruel that many people hate him.
   Begin (Because of .....)
   (iv) Maimuna plays football. Elizabeth plays football too.
   (Join using: Both .....)

7. Suppose you are going to the police station to report a theft scenario, explain how would communicate the scenario in the form of dialogue. Eight (8) sentences

8. Read the following passage carefully and then answer the questions that follow

A young woman from Mhekela discovered that it was a man's world when she went looking for a job recently. So she cut her hair short, dressed up in men's clothes and even got herself an identity card under the name of kadenge Sindukumosu.

It worked! She got a job as a labourer for OVANS construction Company Ltd. and according to an official did very well and looked exactly like a man but one small slip and was undone Sindukumosu fell off some scaffolding. He therefore was rushed off to Mbuyula Hospital.

The doctor demanded "him" to take off "his" clothes. At first "he" protested but had to comply when the doctor threatened to make a report to her boss. So the nacked truth was out.

The company investigated the case through labour officer and discovered that Kadenge Sindukumosu had got an identity card posing like a man.

Now she is in her former self again, Miss Solana Kasufuria is presenting the company with the problem whether to lose a good worker by handing her over to the Police for giving false information or whether to trick a blow for the women's movement and employ the female labourer in the company.

Asked why she deceived the firm? Solana Kasufuria said, "" I couldn't find any other way for getting a job.

QUESTIONS

(a) Write the letter of the best answer

(i) The story is about a person known whose real name is .....

a) Kadenge Sindukumosu
b) Sindukumosu Kandege
c) Solana Kasufuria

(ii) "Mr. Kadege Sindukumosu" protested to take off his clothes because .....

a) He was injured
b) He wanted his boss to come
c) He was afraiding of being discovered to be a women
d) He was ashamed

(iii) The doctor threatened to report Mr. Kadenge to his boss because .....

a) He was disturbing people in the hospital
b) He was mad
c) He refused to take off clothes for proper examination
d) The doctor discovered that Mr. Kadenge was not a man

(iv) Miss Solana Kasufuria secrecy was revealed after .....

a) Falling off some scaffolding
b) Looking exactly like a man
c) Getting the identity card

d) Refusing to take off clothes

(v) Miss Solona Kasufuria deceived the OVANS construction company L.t.d. by.....

a) Going to the hospital

b) Dressing in the men's clothes by cutting hair

c) Posing like a man

d) Discovering the man's world

(b) Write T for a true statement and F for a false statement according to the passage.

i. Miss Solana Kasufuria was working as a secretary in the OVANS construction company l.t.d.....

ii. Miss Solana Kasufuria was treated at Mbuyula Hospital .....

iii. Miss Solana Kasufuria had a brother known as Kadege Sindukumosu .....

iv. The company employed Miss Solana Kasufuria because it didn't known that he was a woman .....

v. Miss Solana Kasufuria deceived the company because she couldn't find any other of getting ajob .....

SECTION C (45 Marks)

Answer three questions from this section

9. Mbinga town has been losing a lot of people in a road accidents ('Yebo yebo accidents') Give five reasons which cause such accidents and suggest measures to be taken to prevent such accidents.

LIST OF READING

NOVELS AND SHORT STORIES

A wreath for Fr. Mayer	- S.N. Ndunguru (1997), Mkuki wa Nyota
Un answered Cries	- Osman Conteh, Macmilian
Passed like a shadow	- B.M. Ndunguru (2006), Dup
Spare	- S.N. Ndunguru (2004), Mkuki na Nyota
Weep not Child	- Ngugi wa Thiong'o (1987), Heinemann
The interview	- P.Ngugi (2002), Macmillan

PLAYS

Three Suitors One Husband	- O.Mbia (1994), Eyre Methuen
The lion and the Jewel	- W.Sonyika (1963) OUP
This Time Tomorrow	- Ngugi wa Thiong'o (1972), Heinemann
The black Hermit	- Ngugi wa Thiong'o (1968) Heinamann

POETRY

Songs of Lawino and Ocol	- O.P'Bitek (1979) EAPH
Growth up with poetry	- D.Rubadiri (ed) (1989)
Summons	- R.Mbala (1980)

10. Read the following poem and then answer the questions that follow

To you dada!
It's the days that matter,
For use are unable to chat,
In the language we had.

When I look at you,
And see my pay - slip
In your eyes,
I feel empty
And sapped

Your glance, sister,
Is to me the measure
Of the heat of the dough
In my pocket

Never are passions cool,
To you lam now a tool,
And all my wage the fare
A ride in your throbbing kisses

It is you a accuse
Because your love is lost
And you only touch me,
With the tenderness that ask,
Where my wallet is.

It is to you dada,
That my pen tears the pad,
For I only see your love,
Focused on my purse,
With your passions,
Chasing my bank account.

Questions

(i) What is the poem about?
(ii) What type of the poem is this?
(iii) How many stanzas are in the poem?
(iv) How many verses does the poem have?
(v) What are the possible themes in this poem?
(vi) What do we learn from this poem?
(vii) Is the poem relevant to your society? Given reasons for your answers

(viii) What is the mood of the person?
(ix) Comment on the figures of speech used in this poem.
(x) What does the word "Pocket" Symbolize?

11. "Poets like other literary artists have messages they want to covey to their readers through poems". Discuss the statement referring to two poems you have read and appreciated. Give four messages from each poem.

12. Analyze the source of conflict in the two plays that you have studied in this section giving four points from each reading.

13. Take two female characters each from one novel you have done and show how they resemble and differ from each other in various aspects.

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

012 **HISTORY**

TIME: 3:00 Hours
Wednesday, 9th September 2020 p.m.

INSTRUCTIONS

1. This paper consist of section A,B and C
2. Answer ALL questions in section A and B and three (3) questions in section C.
3. Write your examination number on every page of your answer sheets.
4. All writings should be in blue or black ink
5. All drawings should be in pencil
6. Cellular phones are not allowed in the examination room

SECTION A (20 Marks)

1. For each of the item number (i) – (ii) choose the answer from the given alternatives and write its letter beside the item number

i) Which of the following are included in the museums?
A. Cultural, Social and economic items from the earliest time to the present
B. Remains which show man's past made and used tools
C. Cultural practices such as art, music, region and riddles
D. Colonial records and early travellers records
E. Special names of generations, clan trees and tribal chronology

ii) The coastal city states between which grew from the trade contact between East Africa and Asia were
A. Mwanza, Tanga and Dar – es Salaam
B. Malindi, Kilwa and Mombasa
C. Nairobi, Kampala and Dar - es Salaam
D. Lamu, Bagamoyo and Mbeya
E. Mombasa, Zanzibar and Kigoma

iii) The type of colonial agriculture which predominated in Kenya was
A. Plantation B. Peasant C. Co – operative D. Settler E. Pastoralism

iv) The primitive command societies were characterized by the following features except
A. Hunting and gathering
B. Low production
C. Exploitation of man by man
D. Low level of technology
E. Dependence in nature

v) Which of the following did not result from contacts between East Africans and the people from the middle and far East?
A. Construction of fort Jesus
B. Introduction of Islam
C. Emergence of slave trade
D. Intermarriage
E. Growth of coastal towns

vi) Which one among the following factors contributed to the rise of state in Africa?
A. Low level of productive forces
B. Presence of chartered companies
C. Hunting and gathering activities
D. Absence of class among the people
E. Availability of iron technology

vii) Who commanded the respect of all and acted as a unifying force among the Maasai?
A. Kabaka B. Omukama C. Morani D. Warriors E. Laibon

viii) The organization comprising of less developed countries in the world is called
A. Non – Aligned movement
B. Organization of Africa unit
C. East African Community
D. United Nations Organization
E. New partnership for Africa Development

ix) Which one of the following best explains the reason which made Mozambique to use force during the struggle for independence
A. It was a mandated territory
B. It was a trusteeship territory
C. It adopted the open door policy
D. It was a settler colony
E. It was under indirect rule policy

x) The following was one of the characteristics of colonial education except

A. It based on rudimentary curriculum
B. It segregated the Africans
C. It focused on literacy and numeracy
D. It reflected the interests of the Africans
E. It was provided to people

xi) Why is Charles Darwin famous in History?
A. He discovered pebbles and chopping tools
B. He discovered the fossils of man's ancestors
C. He introduced the theory of reaction.
D. He discovered the remains of old people.
E. He introduced the theory of evolution.

xii) What took place in European between 1750's and 1850's?
A. Industrial revolution
B. Scramble for Africa
C. Mercantile capitation
D. Emergence of slave trade
E. Monopoly capitalism

xiii) What was the most common method of farming in pre - colonial Africa?
A. Mixed farming
B. Plantation Agriculture
C. Shifting cultivation
D. Slash and burn Cultivation
E. Permanent crops cultivation

xiv) What are the major types of oral tradition?
A. Museums and archives
B. Poem and proverbs
C. Historical sites and narration events
D. Archeology and museum
E. Cultural practices and narration events

xv) Is an occupied geographical area with the power to exercise some political authority over its people and resources
A. Age set organization
B. Ntemiship organization
C. A state
D. Ngoni Migration
E. Family

2. Match the items in List A with correct responses in List B by writing of the corresponding responses beside the item number in the answer sheet provided.

LIST A	LIST B
i. The famous long distance traders in southern and central Africa	A. Industrial revolution
ii. Centralized state in East Africa	B. Nyamwezi
iii. A treaty that illegalized slave trade in Africa in 1873	C. Indirect rule
iv. The revolution whose impact led to abolition of slave trade	D. Frere treaty
v. The revolution that was led by Gamal Abdel Nasser in 1952	E. Communalism
	F. Sangu
	G. Russian revolution
	H. Egypt revolution

SECTION B (35 Marks)

Answer all questions briefly.

3. i)Why the German colonial agent would not forget the Hehe resistance?
ii)Why communalism was the first mode of production?
iii) Indirect rule was the colonial system of administration that involved appointment

of traditional rulers to administer sector of the colony at local level. This system was used by?

iv) How would you prove that colonial education was the Agent of division racism in colonial Africa?

v) Mzee Jumbe is an illiterate man with 89 years of age. He narrates past Historical events to his grand child who is 18 years old. Why such method used by Mzee Jumbe is considered as unreliable source of historical information?

vi) Why Adolf Hitler is blamed for occurrence of the Second World War?

4. a) Arrange the following statements in chronological order by writing number 1 up to 6 beside the item number

i. The scramble for colonies reached serious proportions by 1884
ii. The conference was held in Berlin from 1884 to 1885
iii. In order to avert war, the German chancellor called an international conference
iv. There was a signs that if this scramble was not regulated war would erupt among the European powers
v. The conference was attended by Belgium, Britain, France, Portuguese, Spain, Italy, Germany, Denmark and the united states of America
vi. Influx of Capitalism Investments accelerated in Africa

5. a) Draw a sketch map of Africa and locate by using roman number

i. The country which moved from apartheid to black majority rule in 1994
ii. The country which attained political independence in 1957
iii. A East Africa country in which peasant cash crop production predominated
iv. The country in which genocide occurred in 1990's
v. The country where the organization of African unity was formed

b) Mention five advantages of museums

SECTION C (45 Marks)
Answer three questions from this section

6. Explain the six (6) characteristics of first non – exploitative mode of production
7. Analyze six (6) problems facing African countries that originated from their colonial heritage
8. Colonial social services consolidated colonialism in Africa "Justify this statement by giving six (6) points
9. With examples explain six (6) reasons for African resistances to colonial rule

THE UNITED REPUBLIC OF TANZANIA

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

032/1 CHEMISTRY

TIME: 3:00 Hours
Wednesday, 9th September 2020 a.m.

INSTRUCTIONS

1. This paper consist of sections A, B and C
2. Answer all questions in this paper
3. Electronic Calculators ,and cellular phones are not allowed in examination room
4. Write your examination number on every page of your answer sheet (s) provided
5. The following constants may be used;
   C = 12, H = 1, O = 16, K = 39, Zn= 65 Cl = 35.5
   Avogadro's constant = 6.02×10^{23}
   GMV at S.T.P = $22.4dm^3$
   1litre = $1000cm^3 = 1dm^3$

SECTION A (15 marks)
(Answer all questions from this section)

1. For each of the following items (i) – (x) choose the correct answer from the given alternatives and write its letter besides the item number in the answer sheet(s) provided.

i) Which of the following apparatus is used to measure fixed volumes of liquids?
A. Burette B. Beaker C. Pipette D. Measuring cylinder E. Test tube

ii) If you melt a piece of iron it undergoes_____
A. Sublimation B. Physical change C. Chemical change
D. Decomposition E.Evaporation

iii) Which of the following set of elements is arranged in order of increasing electro negativity;
A. Carbon, , nitrogen, oxygen, fluorine
B. Chlorine , fluorine, nitrogen, oxygen, Carbon
C. Fluorine, chlorine, oxygen, nitrogen, carbon
D. Nitrogen, oxygen, carbon, fluorine, chlorine
E. Oxygen, nitrogen, carbon, fluorine, chlorine

iv) What kind of reaction is shown by the following equation?
$Cl_{2(g)} + 2KI_{(aq)} \longrightarrow 2KCl_{(aq)} + I2_{(g)}$
A. Decomposition reaction B. Double decomposition reaction
C. Displacement reaction D. Neutralization reaction
E. Combination reaction

v) The reason why white anhydrous copper (II) sulphate turn blue exposed in atmosphere is that;
A. It reacts with carbon-dioxide B. Reacts with oxygen
C. Absorb water vapor D. Becomes dry E. Decomposes

vi) An aqueous solution extracted from a soil sample was found to have a PH = 6. The soil sample may be said to be;
A. Acidic B. Neutral C. Amphoteric D. Alkaline E. None of the above

vii) The basicity of sulphuric acid when ionized is ;
A. Monobasic B. Dibasic C. Tribasic D. Diprotic E. Monoprotic

viii) How many structural formulae can be obtained from a hydrocarbon of molecular formulae C_5H_{12}?
A. 5 B. 4 C. 3 D. 2 E. 1

ix) Rubber which is soft and sticky is made hard and strong by heating it with sulphur. This process is called;
A. Galvanization of rubber B. Oxidation of rubber C. Vulcanization of rubber
D. Reduction of rubber E. Catenation

x) One of the following is an example of solid lubricant
A. Animal charcoal B. Graphite C. Amorphous carbon
D. Coal E. Diamond

2. Match the items in LIST A with the responding in LIST B by writing the letter of correct response besides the items number in your answer sheet provided

LIST A	LIST B
i)Flame ii) Bunsen burner iii) Has four burning zones iv) Useful in laboratory for heating purposes v) Jet and collar	A. Composition of gas stoves B. Luminous flame C. Non luminous flame D. Composition of Bunsen burner E. Heat source in the laboratory F. Zone of burning gas G. Chemical reaction that involve burning

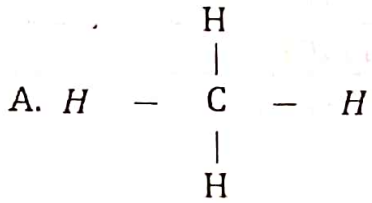

SECTION B: (54 Marks)
Answer all questions in this section

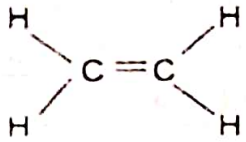

3. a) Define the following terms
   i) Soil
   ii) Leaching
   iii) Manures
   b) State four(04) ways in which soil may lose its nutrients

4. a) i) Define the term electrochemical equivalent
   ii) What are the factors affecting the selective discharge of ions at the electrodes during electrolysis
   b) i) state faraday's laws of electrolysis
   ii) A 2.5g of spoon was to be electroplated using zinc metal, 3.45g of zinc was used when a current of 1.5A passed through solution of zinc nitrate ,cathode was found to weigh 4.55g.
      a)Which substance is cathode or anode?
      b)Determine the % purity of zinc
      c)Calculate the time required for electroplating of spoon.

5. a) Mention one example of the method which can be used to separate the mixtures
   i. Solvent extraction
   ii. Layer separation
   iii. Fractional distillation
   iv. Sublimation
   b) Calculate the oxidation number of the underlined elements in the following compounds
   i) $Na_2\underline{S}O_4$ ii) $\underline{O}_2$ iii) $\underline{P}O_4^{3-}$ iv) $\underline{Na}+$

6. a) Study the following structural formulae carefully then state the homologous series to which each of compound A, B and C belongs

A. 

B. 

C. CH_3CH_2COOH

b) Write structures of the following organic compounds

i. 2,4- dimethlyl hexane
ii. But – 2- ene
iii. Pent – 2 – yne
iv. 2- methyl butan – 2 - ol

7. a) Complete and balance the following equations and state the type of chemical reactions involved;

i) $Mg_{(s)} + HCl_{(aq)} \longrightarrow$

ii) $Ba(NO_3)_{2(aq)} + MgSO_{4(aq)} \longrightarrow$

iii) $H_{2\,(g)} + O_{2\,(g)} \longrightarrow$

b) With the aid of chemical equation briefly explain how water hardness is formed.

8. a) Give the IUPAC names of the following compounds

i) Fe_2O_3 ii) N_2O_4 iii) Cu_2O iv) H_2SO_4

b) An organic compound contains 26.7% carbon, 2.2% hydrogen and the rest is oxygen. If its vapor density 45. Determine its molecular formula

9. a) i) What is irreversible chemical reaction?

ii) List down the four features of the equilibrium reaction

b) Ammonia is prepared in the habber process given by the reaction below;

$$N_{2(g)} + 3H_{2(g)} \underset{}{\overset{\text{Catalyst}}{\rightleftharpoons}} 2NH_{3(g)} \quad \Delta H = -46KJ/mol$$

From the equation what will happen to the position of equilibrium if;

i) The temperature is decreased
ii) Pressure is pumped into the system
iii) The ammonia gas formed is removed from the system
iv) What is the use of the catalyst in the above reaction?

10. a) i) State Avogadro's law

ii) Given the following reaction

$$2KClO_{3(s)} \xrightarrow{\text{heat}} 2KCl_{(s)} + 3O_{2(g)}$$

From the equation above calculate the volume of oxygen gas produced at s.t.p

when 12.25g of potassium chlorate are decomposed completely by heating

b) i) Name the process used in the extraction of charcoal and coke
ii) Write down four factors that determine the choice of a good fuel

11.a) Give an account for the following observation
i) Concentrated sulphuric acid is not used as a drying agent for ammonia
ii) Yellow flowers introduced into a gas jar containing chlorine gas
iii) Chlorine gas reacted with hot sodium hydroxide
iv) Graphite used as electrodes
b)with aid of chemical equation describe the stages in manufacture of nitric acid

12. a) i) Why is air a mixture and not a compound? give four reasons
ii) Why is rusting of iron is a chemical change?
b) state four modern Daltons atomic theory

SECTION C (15marks)
Answer only one question(01) questions in this section

13a) i) Define the term pollution
ii) List down three main types of pollution

b) i) What is the importance of ozone layer in the earth's atmosphere?
ii) Explain the effect of ozone layer depletion.
iii) Which greenhouse gases must not be produced in order to prevent the ozone layer depletion?
c) What are the effects of global warming?(06 points)

14.The extraction of sodium is done in down's cell from its ore;-
a) Draw the Down's cell
b) What is the major ore used in the down cell?
c) What is the use of calcium chloride in the extraction of sodium ?
d) write the electrodes reaction

THE UNITED REPUBLIC OF TANZANIA

PRESIDENT'S OFFICE,
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

031/1 **PHYSICS 1**

TIME: 3:00 Hours
Friday , 11st September 2020 a.m.

INSTRUCTIONS

1. This papers consists of three (3)section A, B and C
2. Answer question in section A and B and two (2} question from section C
3. 3Cellular phones and any unauthorized materials are not allowed in the examination room
4. Non programmable calculators may be used
5. Write your examination number on every page of your answer booklet(s)
6. Where necessary the following constants (s) may be used
   a. Acceleration due to Gravity Of $G=10m/S^2$ or 10N/Kg
   b. Density of water $=1000Kg/M^3$ or $1g/Cm^3$
   c. Pie , $\pi= 3.14$
   d. Density of gold$=19.3g/cm^3$ and density of silver$=10.5g/cm^3$
   e. Coefficient of linear expansivity of the brick$=1.2x10^{-5}K^{-1}$

SECTION A (15 marks)

1. For each of the item(i)-(x) choose the correct answer from among the given alternatives and write the letter beside the item number in the answer sheets provided.

i. The efficiency of a machine can be calculated from the formula
A. Load over effort B. velocity ratio over load
C. Work input over work output D. distance moved by effort over that of load
E. mechanical advantage over velocity ratio multiplied by 100%

ii. Electromagnetic waves with every short wave length are called
A. x-rays B. gamma rays C. cathode rays
D. blue light E. infrared rays

iii. The heat that can be detected by thermometer is called
A. Sensible heat B. Latent heat C. Temperature
D. Latent heat of fusion E. Heat capacity of water

iv. The sun emits energy by the process called
A. Nuclear fission B. Nuclear changes C. Nuclear fusion
D. Chemical reaction E. Radio active decay

v. Lenz's law can be used to predict the
A. Magnitude of back e.m.f in a circuit
B. Magnetic of induced current ina circuit
C. Direction of the applied e.m.f across the circuit
D. Direction of the induced e.m.f or back e.m.f
E. Magnitude of induced e.m.f or applied e.m.f

vi. Protons and neutrons collectively are termed as
A. Mass number B. Nucleons C. Nuclides
D. Atomic number E. Nucleus

vii. Which of the following is an example of action at a distance force
A. Friction force B. Magnetic force C. Torsional force
D. Viscous force E. Stretching force

viii. A card appears to be blue when it is seen in white light. In yellow light, it will appear to be
A. Black B. Blue C. Dark blue D. Green E. Yellow

ix.A group of dipoles is referred as
A. Dipoles B. Magnetism C. Magnetic dipoles
D. Magnetic field E. Magnetic domain

x. A layer of colorless water floating on a blue copper(II) sulphate solution becomes blue after sometimes. Which physical process supports the observation made ?

A Diffusion B.Cohesive C.Surface tension D.Adhesive E.Osmosis

2. Match the item in list A with responses in list B by writing the letter of the correct response beside the item number in the answer sheet provided.

List A	List B
i. The bright haze seen in the sky just after sunset and just before sunrise	A. Meteors
ii. Is the closest planet to the earth	B. Comet
iii. Asteroid which manage to reach the earth surface	C. Dwarf planet
iv. Are bright flashes of light seen in the sky	D. Jovian planet
v. It is also called a morning star	E. Earth
	F. Jupiter
	G. Meteorites
	H. Zodiacal light
	I. Mercury
	J. Venus
	K. Mars
	L. Ceres
	M. Saturn
	N. Asteroids
	O. Meteoroids

SECTION B (60 marks)

Answer all questions in this section

3.(a) State the law of flotation and give two its application (4marks)

(b) A cup made of an alloy of gold and silver of total volume 60cm3 has a total mas of 1050g.Calculate the mass of gold contained in the cup.(6marks)

4. a) Briefly explain mode of action of a sonometer (5marks)

(b) A note of frequency 512 Hz is obtained from a plucked wire of length 40cm What length of the same wire produced a frequency of 320 Hz? (5marks)

5. (a) Explain why motor vehicles have their engines places directly over the drives wheels (5marks)

(b) A mass of 3kg hangs at the end of a string. Find the horizontal force needed to pull the mass side way untill the string is at 30^0 to the vertical (5marks).

6. a) State two reasons why mercury is normally used as liquid in thermometers (4marks)

b) A brick at 20^0C has a dimension of 30 cm, 18 cm, and 10 cm for length,width,and height respectively. If a brick is heated to a new temperature of 150^0C ,calculate the new dimensions (6marks)

7. a) What fraction of the atoms would have been disintegrated in 72 hours when the half life of an atom is 24 hours?(6marks)
   b) Write down four (4) health effects of nuclear radiation.(4marks)

8. (a) Briefly explain why fusses in light circuit are made of very thin wires but in heating element are made of thick wires (5 marks)
   (b) Find the cost of running five 60 watts lamps and four 100watts lamps for 8hours if electric energy costs Tshs 500 per unit (1kwh) (5marks)

SECTION C (25marks)
Answer two (2) questions from this section

9. (a) With the aid of diagram describe two types of transformer (5 marks)
   (b). A transformer with primary coil of 400turns and secondary coil of 200turns is connected to 240v a.c main .If the currect in primary coil is 8A calculate Efficiency of a transformer given its secondary current is 12A (7.5marks)

10 a) With the aid of diagrams briefly explain how N-type and P-type semiconductors are dopped (6marks)
   b)Explain the effect of temperature on insulators ,conductors and semiconductors (6.5marks)

11 a)How total internal reflection of light occurs ?(5marks)
   b)Give an explanation of formation of a mirage .Support your answer with a sketch diagram (7.5marks)

THE UNITED REPUBLIC OF TANZANIA

PRESIDENT'S OFFICE,
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

033/1 BIOLOGY 1

TIME: 3:00 Hours
Thursday, 10th September 2020 p.m.

INSTRUCTIONS

1. This paper consists of sections A, B and C
2. Answer all questions in section A and B and one (01) in section C
3. All diagrams must be drawn by using pencil
4. Cellular phones are not allowed in examination room

SECTION A (20 marks)
(Answer all questions in this section)

1. For each of the following items (i) – (x) choose the correct answer among the given alternatives and write its letter besides the item number.

i) A part that anchor the mushroom and also enable it to absorb nutrients
A. Gills B. Stalk C. Pileus D. Hyphae E. Fruiting body

ii) Specialized plant cell that transport water and minerals from the roots to the leaves....
A. Xylem vessel B. Cell membrane C. Phloem vessel
D. Palisade cells E. Guard cells

iii) Enzymes that hydrolyse starch to maltose.....
A. Lipase B. Sucrose C. Peptidase D. Rennin E. Amylase

iv) A joint which allows movement in one direction is called
A. Hinge joint B. Ligament C. Pivot joint
D. Ball and socket joint E. Glidding joint

v) Which of the following is the risk behavior
A. Eating meat daily B. Alcoholism C. Being patient
D. Truancy E. Shearing toilets with HIV affected person

vi) Phylum chordate includes all animals that have.....
A. Mammary gland B. Back bone C. Scale
D. Post anal tail E. Nerve line

vii) In a certain stage of mitosis the centromere splits the sister chromatids separate from each other and start to move towards the opposite poles of the cell. Choose the correct stage of mitosis which account for that
A. Metaphase B. Anaphase C. Telophase
D. Prophase E. Mesophase

viii) The taxonomic category of organisms belonging to the same class but not to the same family is.....
A. Species B. Genus C. Order D. Phylum E. Kingdom

ix) The byproducts of photosynthesis process are;-
A. Oxygen and water vapour B. Oxygen and carbon dioxide
C. Carbohydrate and oxygen D. Carbohydrate and carbon dioxide
E. Carbon monoxide and oxygen

x) A term which best describes a condition of plant that has lost too much water is.....
A. Turgidity B. Osmosis C. Crenation D. Plasmolysis E. Haemolysis

2.Match the response in List B with the phrase in List A by writing the letter of correct response besides the items number of List A in your answer sheet

LIST A	LIST B
i. Waste is stored here ready to leave the body	A. Duodenum
ii. First part of small intestine	B. Ileum
iii. Wave like muscular constructions that push food along the oesophagus	C. Mouth
iv. A muscular ring like valve which regulate the passage of food from stomach into the small intestine	D. Rectum
v. The first site in digestive system where digestion of starch starts	E. Pyloric sphincter
	F. Cardiac sphincter
	G. Peristalysis
	H. Stomach waves

SECTION B (60 marks)

Answer all questions in this section

All questions carry 8 marks except question number six (6) and eight (8) carry six mark each

3. a) Define the following terms
   i)Growth
   ii) Mitosis
   iii) Meiosis
   b) State three (3) factor that affecting growth in plants

4. a) Distinguish the following terms
   i) inhalation and exhalation
   ii) respiration and breathing
   b) Briefly explain four characteristics of respiratory surface of respiratory organ

5. a) what do you understand by the following terms
   i) Evolution
   ii) Vestigial organs with example
   b) State any three theories which explain the origin of life

6. a) Write three importance of movement in plants and animals
   b) Outline any three functions of human skeleton

7. a) List down two secondary sexual behaviors in a;
   i) Female human being
   ii) Male human being
   b) Name four parts of a female reproductive system in a human being and state their function .

8. a) State four precautions for proper use of a microscope
   b) State four unique features of biology laboratory
9. a)Define the following terms
   i) Allele
   ii) Gene
   iii) Heredity
   iv) Chromosome

b) Distinguish continuous variation and discontinuous variation

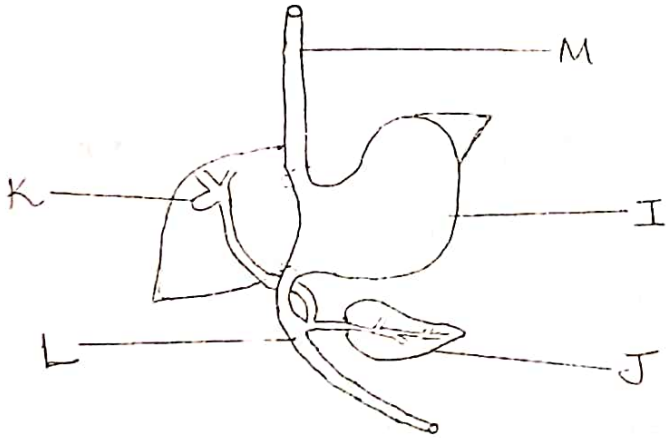

10. a) i) List the five kingdoms into which organisms are placed
ii) Mention two distinctive features of members of the kingdom to which a grasshopper belongs
b) i) Identify by using common name two types of flat worm found in the alimentary canal of a living organism.
ii) To which kingdom does organism in (b) (i) belong?

11.(a) How abiotic components differ from biotic component.
(b) Given the food chain below

Grass ⟶ Grasshopper ⟶ Snake ⟶ Hawk

i. List down the number of trophic levels
ii. Name the organism which is the producer.
iii. If you are asked to complete the food chain above ,What will be the last trophic levels.
iv. What is the significance of grass in the above food chain

12 .The diagram in the figure below is the digestive tract of human being .Study the diagram then answer the questions that follow.

a)Name the parts labeled I,J,K,L and M.
b)Name the digestive enzymes present in the juice produced by gland J
c)List down the function of juice stored in part K.
d)Mention two disorders which can happen in the organ I due to poor eating habits.

SECTION C (20 marks)
Answer only (1) question from this section

13. Explain how genetics is useful in daily life situation
14. Explain any four effects of irresponsible sexual behavior and suggest three ways of eradicating that behavior in the community
15. Describe the symptoms and signs of a person who is affected by vibrio cholera and suggest five prevention measures and treatment for cholera out break

THE UNITED REPUBLIC OF TANZANIA

PRESIDENT'S OFFICE,
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

041 BASIC MATHEMATICS

TIME: 3:00 Hours
Tuesday, 08th September 2020 a.m.

INSTRUCTIONS

1. This paper consists of sections A and B with total of **14** questions.
2. Answer **all** questions in both sections A and B. Each question in section A carries **six(6)** marks while each question in section B carries **ten(10)** marks
3. All necessary working and answers for each question done must be shown clearly.
4. Mathematical tables may be used.
5. Cellular phones, calculators and any unauthorized materials are not allowed in examination room.
6. Write your examination number on every page of your answer(s) booklet(s).

SECTION A (60 MARKS)
Answer all questions in this section

1. (a) Approximate 29.6587 correct to
   (i) One decimal place
   (ii) Tenths

   (b) A room with length 270cm and width 150cm is to be covered with square tiles. If no space of the room is to be left uncovered. What is the largest size of the tiles to be used?

2. (a) Solve for x in the following Log x – Log (x-1) = 1.

   (b) Show that $\frac{2^a \times 8^{a-3}}{16^{a-2}} = \frac{1}{2}$

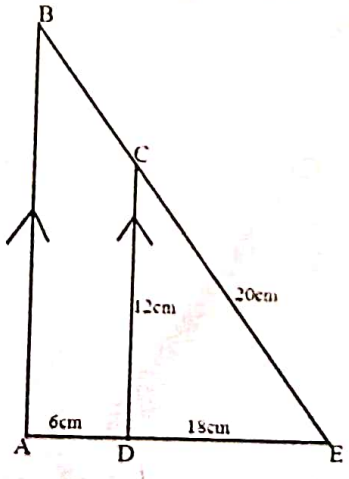

3. (a) In a class of 20 pupils, there are 12 pupils who study English but not History, 4 who study History but not English and 1 who study neither English nor History. How Many pupils in the class study History?

   (b) Two fair coins were spun. Find the probability of
   (i) No heads appeared
   (ii) Exactly one head appeared

4. (a) Let m = 2$\boldsymbol{i}$ + 5j and n = $\boldsymbol{i}$ – j. Find
   (i) 2m – 3n
   (ii) $|n|$

   (b) If the line L_1 is from the points (-4, y) to (x, -3) is bisected at (1, -1). Find the value of y, and x. Hence show that the intersections of line L_1 and line L_2: -5x + 2y – 6 =0 form 90^0.

5. (a) In the figure below, calculate the length BC

(b) The areas of the two similar polygons are 27 and 48 square meters.If the length of one side of the smaller polygon is 4.5cm. Find the length of the corresponding side of the larger polygon.

6. (a) A telephone wire 10.6m is cut into equal pieces each of 0.53cm. How many pieces will be obtained?

(b) The universal gas law state that "The volume (V) of a given mass of an ideal gas varies directly with its absolute temperature (T) and inversely with its pressure (P). If a certain mass of a gas at an absolute temperature 275K and pressure 10^5 N/m^2 has volume 0.0225m^3.

(i) Find the formula that connects p, V and T.

(ii) Find the pressure of the gas when its absolute temperature is 374K and its volume is 0.018m^3.

7. (a) An amount of Tshs 12000 is to be shared among John, Amina and Issa,in the ratio 2:3:5 respectively. How much will each get?

(b) Mwanne commenced business on 1st April 2015 with capital in cash 200,000/=

April
2: Bought goods for cash 100,000/=
3: Bought goods for cash 300,000/=
4: Purchased shelves for cash 230,000/=
5: Sold goods for cash 400,000/=
9: Paid wages for cash 50,000/=
12: Purchased goods for cash 70,000/=
13: Sold goods for cash 600,000/=
16: Paid rent for cash 100,000/=
20: Bought goods for cash 60,000/=
25: Sold goods for cash 300,000/=
27: Paid salary for cash 400,000/=

Prepare the following: (i) cash account (ii) Trial balance

8. (a) The sum of the first two terms of a geometric series is 18. And the sum of the second and third terms is 54. Find

(i) The common ratio

(ii)The fourth term of the sequence

(b)) If an arithmetic progression has A_1 as the first term and d as the common difference.

(i) Write the second, third, fourth and fifth terms.

(ii) Establish the formula for the sum of the first five terms of the arithmetic progression by using the results in part (b) (i).

9. (a) Given the right angled triangle ABC, where B is right angle. If $\sin A = \frac{3}{4}$, find the value of $\frac{2\tan A}{\cos A + 1}$

(b) A ladder reaches atop of the wall 18m high when the other end on the ground is 8m from the wall. Find the length of the ladder.

10. (a) solve for x if $\frac{6}{x-4} = 1 + \frac{4}{x}$

(b) Factorize completely $2x^2 + x - 10$ by splitting the middle term.

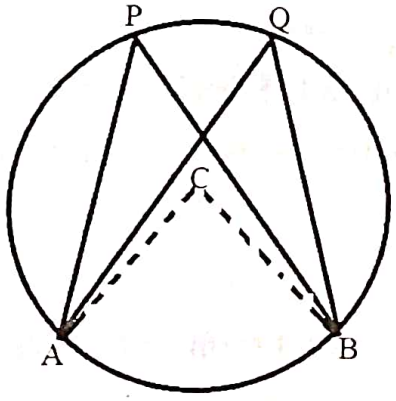

SECTION B (40 MARKS)

Answer **all** questions in this section

11. Study the distribution table for the scores of 68 student in (%) given below:-

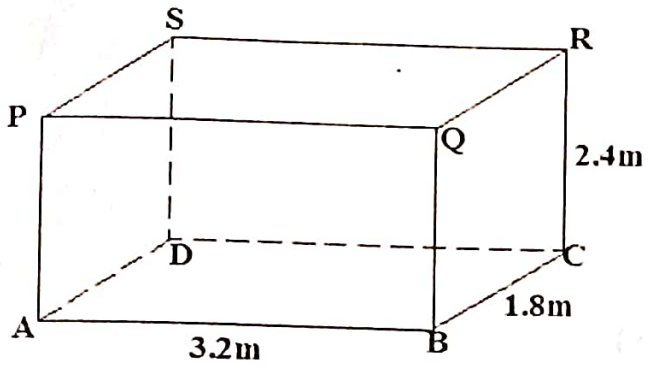

Scores (%)	30-39	40-49	50-59	60-69	70-79	80-89	90-99
Frequency	6	12	14	16	8	6	6

(a) Determine the modal score
(b) Calculate mean score using assumed mean method (A = 64.5)
(c) Draw cumulative frequency curve and use it to estimate median Score.
(d) Use the figure below to prove that "The angle in the same segment of a circle are congruent"

12 (a) A ship sails from A (0^0, 20^0W) to B (10^0N, 20^0W) at 16 knots. If it leaves A at 8:00 a.m on Tuesday. When it reaches B?

(b) A box has a rectangular base ABCD and P,Q,R,S are vertically above A,B,C,D respectively as shown in figure below; $AB = 3.2m$, $BC = 1.8m$ and $CR = 2.4m$

Find (i) The length of diagonal $\overline{AR}$

(ii)The angle between the diagonal $\overline{AR}$ and the base ABCD

(iii) The angle between the plane ADRQ and the base ABCD

13. (a) A transformation is given by the formula.

$x' = 4y$

$y' = 2x - 3y$

(i) Find the matrix which performs transformation above.

(ii) Find image of a point (-2, 7) under this transformation.

(b) Given matrix $A = \begin{pmatrix} 1 & 3 \\ 2 & 4 \end{pmatrix}$ Find

(i) A^{-1}

(ii) $(A^2)^{-1}$

(iii) x and y if

$$A^{-1} + (A^2)^{-1} = \begin{pmatrix} \frac{x}{2} & \frac{5}{y} \\ 10 & \frac{y}{4} \end{pmatrix}$$

14. (a) Two tailors A and B spend Tsh 15000 and Tshs 20000 per day to make a shirt and a gown respectively. If tailor A can stitch 6 shirt and 4 gown per day while B can stitch 10 shirts and 4 gown per day. How many days shall each work if it is desired to stitch at least 60 shirt and 32 gown at a minimum cost?

(b) Sketch the graph of

$$f(x) = \begin{cases} 1-x \text{ if } x<0 \\ 2 \text{ if } 0 \leq x < 3 \\ 4 \text{ if } x \geq 3 \end{cases}$$

Hence state domain and range of f(x)

THE UNITED REPUBLIC OF TANZANIA

PRESIDENT'S OFFICE,
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

RUVUMA REGION
FORM FOUR MOCK EXAMINATION

013 GEOGRAPHY

TIME: 3:00 Hours
Monday, 7th September 2020 p.m.

INSTRUCTIONS

1. This paper consists of section A, B and C with a total of ten (10) questions
2. Answer all questions in sections A and B and two (2) questions from section C
3. Map extract of UYOLE (Sheet 245/3) is provided
4. Any unauthorized materials are not allowed in the examination room
5. Write your examination number on top of every written page of your answer sheets

SECTION A (15 MARKS)

1. For each of the items (i – x) choose the correct answer from among the given alternatives and write its letter beside the item number in the answer sheet (booklet) provided

i. The fold mountains are formed by compressional forces. Which of the following mountains were formed by compressional forces.

A. Himalaya, Rocky, Atlas and Alps
B. Rocky, Rungwe, Atlas and Alps
C. Alps, Andes, Rocky and Himalaya
D. Alps, Andes, Kilimanjaro and Rocky
E. Rungwe, Kilimanjaro, Himalaya and Andes

ii. Always the Earth rotates from West to East to make one complete rotation every twenty four hours. In Geography what does it mean by the term rotation

A. The movement of the sun
B. The movement of one body around another
C. The spinning of a body on its axis
D. The rise of the moon in the East
E. The movement of the moon anticlockwise

iii. What is the temperature of Iringa 1400m above sea level when its 28^0C at Dar es Salaam above sea level?

A. 21.6^0C B. 3.6^0C C. 19.6^0C D. 24.4^0C E. 36.6^0C

iv. Agriculture is a back borne of Tanzanian economy, yet is not well developed. What do you think is not the most influencing factor for its underdevelopment among the following?

A. Presence of pests and diseases
B. Shortage of capital
C. Poor transport networks
D. Shortage of land
E. Poor technology

v. The Earth's crust is never at rest due to vertical and horizontal movements. When two lateral forces act away from each other, they are known as:

A. Lateral forces B. Vertical forces C. Compressional forces
D. Horizontal forces E. Tensional forces

vi. The manufacturing industries can be classified as heavy industries or light industries. What is the main difference between heavy and light industries

A. Raw materials B. Bulkiness of products C. Size of capital
D. Number of labour E. Location of an industry

vii. Tiny ice crystals deposited on objects on the ground when temperature falls below freezing point is known as:

A. Mist B. Frost C. Dew D. Hail E. snow

viii. After learning different types of soil texture students were asked to identify the best type of soil which can be mixed with cement for building a house, what type of soil will be picked by the students who understood the lesson?

A. Sandy B. Silt C. Alkaline soil D.Loam E. Clay

ix. Man is a main causative of environmental pollution on the Earth. What methods can be used to reduce air pollution?

A. Alternative sources of energy
B. Deforestation
C. Over cultivation
D. Use of old technology
E. More industrial smoking

x. Geography is classified into several branches, which branch is concerned with studies of climate?

A. Human Geography B. Economic Geography C. Practical Geography
D. Physical Geography E. Engineering Geography

2. Match the definitions of vulcanicity features in list A with their corresponding terms in list B by writing the letter of the corresponding response beside the items number in the answer sheet (s) provided.

LIST A	LIST B
i. A mass of magma which has emerged on the earth surface	A. Laccoliths
ii. A wall like features formed when magma cuts across a bedding plane	B. Caldera
iii. A sheet of magma which lies along a bedding plane	C. Sills
iv. A very large mass of magma which often forms the root of a mountain	D. Volcano
v. A dome shaped feature formed when magma push up the overlaying layers	E. Lava
	F. Crater
	G. Dyke
	H. Cone let
	I. Batholiths
	J.Lava cones

SECTION B (55 Marks)

Answer ALL questions in this section

3. Carefully study the map extract of UYOLE sheet 245/3 provided and then answer the following questions.

a. State the map scale provided as statement scale.
b. By using square method calculate the area of an area covered by the forest below grid 090 in square kilometres.
c. Given the direction of Uyole at grid reference 604155 from Igawilo at grid reference 635137.
d. With evidence from the map state four possible economic activities which might take place in the mapped area.

4. The table below shows the approximate population of four districts in Ruvuma region in Tanzania in year 2012. Use it to answer the questions that follow it.

District	population
Namtumbo	380000
Songea	500000
Mbinga	420000
Nyasa	220000

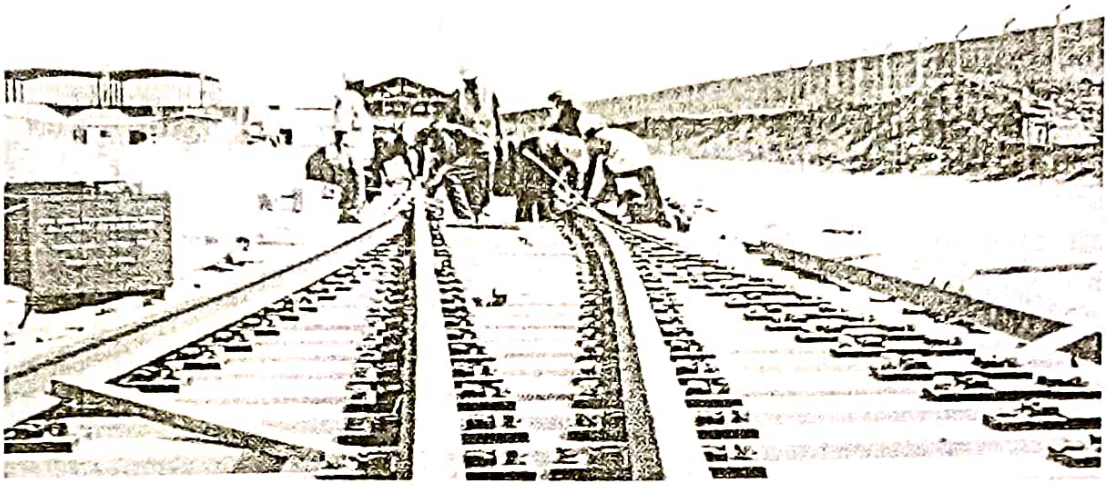

a. Draw a simple bar graph to represent the data. Use the scale of 1cm represents 50,000 presons.
b. State four advantages of using simple bar graphs to represent statistical data.

5. The chairperson of Tukuzi village in Mbinga district advised his village mates to use simple chain surveying in order to get the right measurements of their farms.

   Show three merits and five demerits of the method suggested by the chairperson of Tukuzi village.

6. There are a number of researches conducted from different areas across the world. Suggest five advantages of research finding to Tanzania as a developing country.

7. Carefully study the following photograph and answer the questions that follow.

   (a) Give three importance of the activity shown above to the economy of the country.
   (b) What is the main activity taking place on the photograph?
   (c) With (2) reasons name the type of photograph.
   (d) Suggest any three negative effects of this activity to the environment.
   (e) Determine the time when the photograph was taken.

SECTION C (30 Marks)
Answer any two questions from this section.

8. The Sub-Saharan Africa is blessed with many rivers like Zambezi, Rufiji and Congo, yet are not efficiently utilized for transportation purposes. Analyze six factors which hinder efficient utilization of rivers in Africa.

9. Tanzania is experiencing rapid urban growth in different parts of the country. Examine six problems associated by urbanization.

10. Explain six factors that influence the exploitation of mineral resources.

MAELEKEZO

1. Karatasi hii ina sehemu A,B na C
2. Jibu maswali yote kutoka sehemu A na B C na maswali matatu (3) kutoka sehemu C.
3. Zingatia maagizo ya kila sehemu na ya kila swali
4. Andika namba yako ya mtihani kwa kila ukurasa wa karatasi ya majibu.

SEHEMU A (ALAMA 10)
Jibu maswali yote katika sehemu hii.

1. Soma kwa makini habari ifuatayo kisha jibu maswali yanayofuata;

Mimi Nemganga nilizaliwa katika kijiji cha Mandela kilicho katika bonde kubwa la mto Msongazi, Mto huu ndio kiini cha ustawi wa watu waishio katika bonde hili, aidha kwa mto kufurika kingo zake, wakazi wa Mandela waliweza kupanda Mahindi, Maharage na mboga katika ardhi, vilevile walipata samaki watamu waliopatikana katika mto huo. Mwaka wa kuzaliwa kwangu haujulikani kwani nyakati za kuzaliwa wazee wangu hawakujua kusoma wala kuandika kama tufanyavyo leo inasemekana kuwa ilipita mipando minne kabla ya njaa kuu ya nzige na mipando minne kabla ya tumutu. Hii inaonyesha kwamba iwapo si mwaka 1928 huenda ilikuwa mwaka 1929 wakati nilipozaliwa. Hata hivyo hili si jambo la maana. Ukweli ni kwamba nilizaliwa katika sehemu ile na wazazi wakulima.

Wazazi waliendesha maisha kwa kulima bondeni na kufuga ng'ombe na mbuzi wa maziwa wakifuata tabia na desturi walizorithi kutoka kwa baba na babu zao ingawa wazee hawa waliishi maisha mema ya kupendana na kuheshimiana, ulipopita muda mrefu baada ya kuoana, Bila ya kupata mtoto jambo hili lilitia doa katika furaha yao hata majirani zao waliwatizama kwa macho ya dharau wagumba wale wasitazamie tena kuzaa, kwani mwanamke Yule ni tasa, Mambo haya yaliendelea kwa muda mrefu hata mama akaona heri asingezaliwa kuliko kuishi katika adha na kashifa ya binadamu wenzake. Walimsema alipokwenda mtoni na waliguna alipokuwa akipita. Jina la mama lilikuwa utani wa kijiji hata watoto walipolia waliambiwa Nemganga mchawi huyo anakuja kukuchukua "ati kuto zaa ni dalili za uchawi". Kama wahenga wasemavyo, hakuna marefu yasiyo na ncha.,Mama alipunguziwa mashutumu na lawama za binadamu kwa kuchukuliwa kwangu mimba kwa ajabu ambako na kuhadithia hapo kwa furaha na kicheko nikatambua kwamba miungu na mizimu hawakutayarisha tu kuzaliwa kwangu bali walitabiri yale yote yaliyotokea baadae na ambayo niko tayari kueleza ulimwengu katika kisa hiki kwa msisimko na dhati ambayo ninaimani italipisha moyo wa kila msomaji wa habari hii.

Kama ilivyo kawaida ya wakati ule mtu yeyote aliyepatwa na maafa au dhiki aliweza kutambika mizimu na nasaba zake mizimu hao waliweza kuwafunulia wao chanzo cha maafa au shida iliyokuwepo. Pia waliweza kushauri kafara za kutoa ili kuwatuliza mizimu wengine waliokuwa wakinung'unika na kukirihisha na ndugu zao hao walio katika hali ya kimwili. Hivyo ndivyo ilivyokuwa hali ya kuzaliwa kwangu. Baba na mama walioteswa katika jamii walikubali kafara kwa mizimu ingawa mtoto alizaliwa kwa madawa.

Ndipo alipoonekana Mzee Mwaluko yeye akimpa dawa za kuchemsha na kuku aliyenona na kuahidi atazaliwa mtoto wa kiume. Mganga huyu pia alitabiri kuwa ingawa mtoto atastawi kama mgomba taabu na huzuni zingemwandama daima alipozaliwa hakuweza kubaini ila kuguna tu akisema "hivi ndivyo utabiri wa wahenga waganga walivyosema na ndivyo ilivyotokea,kwamba haukupita mwaka nikazaliwa mimi. Tumaini la kuizaliwa kwangu lilitokana na utabiri wa mganga hivyo nikapewa jina la Nemganga kwa kumbukumbu.

MASWALI

i) Maisha ya wazazi wa Nemganga yaliingia karaha kutokana na:-
   a) Umaskini wao
   b) Uvivu wao
