TANZANIA HEADS OF SECONDARY SCHOOL ASSOCIATION (TAHOSSA)

FORM FOUR - EVALUATION EXAMINATION, MARCH 2020

041 **BASIC MATHEMATICS**

Time: 3:00 Hours aM **Wednesday, 25th March, 2020.**

INSTRUCTIONS

1. This paper consists of section A and B with a total of fourteen (14) questions.
2. Answer **all** questions in section A and B. Each question in section A carries six (6) marks while each question in Section B carries ten (10) marks.
3. All necessary walking and answers for each question must be shown clearly.
4. Mathematical tables may be used.
5. Cellular phones, calculators are not allowed in the examination room.
6. Write your names on every page of answer sheets.

SECTION A (60 MARKS)

Answer **all** questions in this section.

1. a) Express 0.00450045
   i. Correct to 5 significant figures.
   ii. Correct to 5 decimal places. (03 marks)

   b) At the local running track, three athletes are doing track laps. Idd laps, once every 56 seconds Bakari laps once every 06 seconds and Juma lap's once 77 seconds. If they all start together how long will it before they are all together at the start line? (03 marks)

2. a) Find the value of the express $\frac{(3.35)^2 \times (0.09)^2}{\sqrt{29}}$ by using mathematical table. (03marks)

   b) Rationalize the denominator $\frac{2 + \sqrt{3}}{1 - \sqrt{3}}$ (03 marks)

3. a) In a certain school of 120 students , 40 learn English, 60 learn Kiswahili and 30 learn both Kiswahili and English. How many students learn?
   i. English only? ii. Neither English nor Kiswahili (03 marks)

   b) If $D = \{x: 80 \leq x \leq 100\}$. Find the numbers selected from D which are
   i) Divisible by 7 ii) A prime number iii) An odd number (03 marks)

4. a) The line passing through the point A(k, 4) and B(3, 2k) is parallel to the line L with equation $y + 3x - 4 = 0$ and L crosses y axis at point c(x, y)
   i. Find the value of k.
   ii. Calculate the distance of line segment AC. (03 marks)

   b) The ratio of the area of two similar polygons is 50:72. The length of a side of the smaller polygon is 12cm. Find the length the corresponding side of the other polygon. (03 marks)

5. a) Construct the triangle ABC with AB = 4.6 cm, AC = 8.2cm, and $< BAC = 60^\circ$. Measure the length of BC.

   b) Shamsa was given some money by her mother. She spent $^1/_3$ of it going out with a friend, and $^2/_5$ of the remaining for her father. She had 350/= left. How money was she given? (03marks)

6. a) An American tourist, Mrs. Kazimoto, changes $ 2,500 at a rate of 620 shillings per US dollar ($). She spends 1,350,000 shillings, then changes the rest back to dollars at a rate of 650 shillings per dollar. How much does she get back, to the nearest dollar? (03 marks)

   b) Charles' law states that for a given mass of a gas at a constant pressure, the volume is directly proportional to its thermodynamic temperature. A gas occupies a volume of 2.4 litres at temperature 600 k. Determine.
   i. The temperature when the volume is 3.2 litres.
   ii. The volume at temperature 540 K. (03 marks)

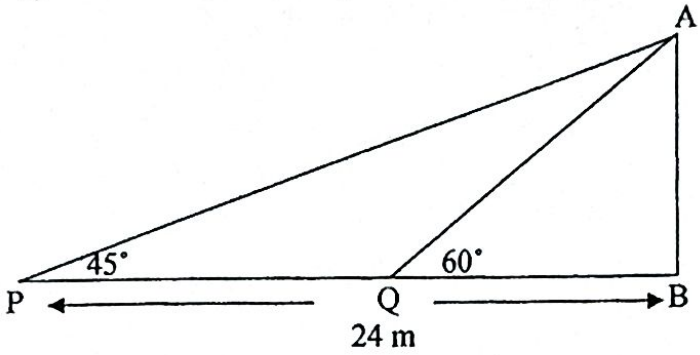

7. a) Simplify in the form 1:n the ratio $^2/_3 : {}^5/_9$ (03 marks)

   b) Record the following transactions in the cash book of Mr. Juma.
   February 1. Started business with capital in cash sh. 15,000
   February 2. Purchased goods for cash sh. 10,000
   February 5. Paid cash for transport sh. 2,000.
   February 10. Sold goods for cash sh. 12,000.
   February 18. Received cash for Mr.. Ijumaa sh. 8,000
   February 25. Cash purchases sh. 1,4000. (04 marks)

8. a) Kilwana paid Tsh. 900,000 for a desk top computer and sold it the following year for Tsh. 720,000. Find;
   i. The loss made ii. The percentage loss (03 marks)

b) The nth term of a series in $n^2 + 4$. Find the sum of the first four terms in the series. (03marks)

9. a) Find the distance PQ in the following figure id the lines AB and PB are perpendicular.

(04 Marks)

b) Given that tan Q = ¾ where Q is an acute angle find the value of $\frac{2 \sin Q - \sin Q}{3 \sin Q}$ (02 marks)

10. a) Solve the equation $3x - 5 = \frac{5x - 3}{x}$ by factorization. (03 marks)

b) Solve the equation $3x^2 - 7x - 6 = 0$ by completing the square method. (03 marks)

SECTION B (40 MARKS)

Answer all questions in this section.

11. The score of 45 pupils in a civics test were recorded as follows;

30 65 50 62 40 35 64 32 28 59 60 82 24 35 63 68 46 48 73 92 54 46 63
75 58 43 71 72 27 28 61 71 36 64 80 61 64 76 64 35 76 73 70 64 46

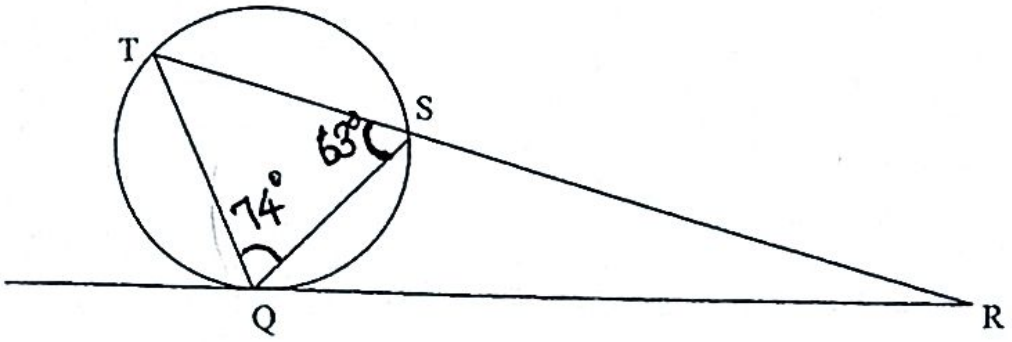

a) Construct a frequency distribution table of the given data, taking equal class intervals 21 – 40; 41 – 60; ..... (03 marks)

b) Calculate the mean score (03 marks)

c) Draw the cumulative frequency curve and use it to estimate the Median. (04 marks)

12. a) Find the distance in km and nm along a circle of latitude between (20°N, 30°E) and (20°N, 40°W) (Radius of the Earth R = 6370 km) (05 marks)

b) In the figure below PR is a tangent to the circle QST at point Q. If M(TQS) = 74° and M(TSQ) = 63° find M(SRQ)

13. a) Given $A = \begin{pmatrix} 1 & -2 \\ 3 & 2 \end{pmatrix}$ find $|A^2|$ (04 marks)

b) A linear transformation T maps $\begin{pmatrix} x \\ y \end{pmatrix}$ into its image $\begin{pmatrix} x' \\ y' \end{pmatrix}$ such that;

$$\begin{pmatrix} x' \\ y' \end{pmatrix} = \begin{pmatrix} -1 & 1 \\ 0 & 1 \end{pmatrix} \begin{pmatrix} x \\ y \end{pmatrix} + \begin{pmatrix} 2 \\ -1 \end{pmatrix}$$

Determine

i) The image of (4, 9) under T, (03 marks)

ii) The point $\begin{pmatrix} x \\ y \end{pmatrix}$ when $\begin{pmatrix} x' \\ y' \end{pmatrix} = \begin{pmatrix} 7 \\ -1 \end{pmatrix}$ (03 marks)

14. a) Calculate the values of f(-1), f(1) and f(3) if f is defined by

$$f(x) = \begin{cases} -3 & \text{if } x < 0 \\ x + 1 & \text{if } 0 \le x \le 2 \\ 4 & \text{if } x > 2 \end{cases}$$ (03 marks)

b) If $f(x) = 5x2 + 17x - 12$ evaluate

i. f(10) – (f5) ii. Determine domain and range of f(x). (02 marks)

c) By shading the unrequired region, show the region represented by the following set of inequalities. $x \ge 0; y \ge 0, 2x + 2y \ge 11, 2x + y \ge 8$ and $2x + 5y \ge, 18$ and maximize $x + y$.

(05 marks)

FORM FOUR - EVALUATION EXAMINATION, MARCH 2020

Code: 011

CIVICS

Time: 3:00 Hours

Monday 23rd March, 2020 P.M

INSTRUCTIONS.

1. This paper consists of sections A, B and C .
2. Answer all questions in sections A and B and THREE questions from section C.
3. Section A carries 15 marks, section B carries 40 marks and section carries 45 marks.
4. Write your Examination Number/Name o every page of your answer sheet(s)

SECTION A (15 MARKS)

Answer all questions in this section

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter besides the item number in the answer sheets provided.

(i) The ability of a person to analyse, evaluate and describe the quality of something, an action or decision is referred to as:

A: Creative thinking B: Problem solving C: Critical thinking
D: Decision making E: Life skills

(ii) The experiences of the past that are inherited by a society and they are unchangeable are known as:

A: Customs B: Traditions C: Norms
D: Culture E: Values

(iii) Masululi works in the Ministry of President's Office – RALG as a teacher at Maswaswa Secondary School for ten years now, so Masululi is a

A: Executive B: Employer C: Parliament Member
D: Civil Servant E: Leader

(iv) Which of the following private sector indicates the economic sector that follows a well defined strictly rules and ways laid down by the government to undertake a certain business or activity?

A: Unplanned sector B: Informal sector C: Individual sector
D: Non state sector E: Formal sector

(v) Which of the following set of socio – cultural practices is a major mode of transmission of HIV/AIDS and other STD's

A: FGM, wife sharing and widow inheritance
B: Wife beating, food taboos and widow cleansing
C: FGM, food taboos and wife beating
D: Food taboos, early marriage and wife beating
E: FGM, wife beating and child preference

(vi) The President John Pombe Magufuli offered a pardon to criminals convicted in the court during the New Year Festival of 2020. Such a power made by the president demonstrates

A: Forgiveness B: Prerogative of mercy C: An appeal
D: Prisoner's festivals E: Criminal freedom

(vii) Which indicator would not indicate you to determine poverty in the third world countries?

A: High illiteracy rate B: High material death and mortality rate
C: High per capital income D: Poor infrastructure
E: Low life expectancy

(viii) Bus accidents in Tanzania are caused by both human and external factors. The external factors include.

A: Excessive speed B: Overtaking errors C: Reckless driving
D: Poor road condition E: Driving for long hours

(ix) Inability to understand or perceive that there are roles that can be played by both males and females is

A: Gender stereotyping B: Gender equity C: Gender discrimination
D: Gender blind E: Gender analysis

(x) The chief advisor of the government in legal issues who is also a cabinet member is

A: Magistrate B: Prime Minister C: Vice President
D: Minister of Home Affairs E: Attorney General

2. Match the items in List A with the correct response in List B by writing the letter of the corresponding item beside the item number in the answer sheets provided.

LIST A

(i) Ability to allows other people's opinion, customs, beliefs and behavior in a society
(ii) Safe and permanent place for preserving work of art
(iii) Important objects made in an earlier periods
(iv) Moral principles that governs people's life.
(v) Aspects of culture value deals with intangible things such as feeling and values

LIST B

A: Crafts B: Ethics C: Folkways D: Cultural tolerance
E: Ideology F: Archives G: Antiquites H: Norms of conduct
I: Intellectual culture J: Museum

SECTION B (40 MARKS)

Answer all questions in this section

3. Read the following passage and then answer the questions that follow

Democracy is one of those pleasure giving words which every state system seek to be identified with. Often however the concept of democracy conceal that reality of power exercised by some groups of people who try to maintain themselves in power. In this regard democracy is not just the right to vote in a government or merely secure legal provisions in state constitution or the right to speech, freedom to associate etc. Democracy is about a whole set of concerns which affords the citizenry capacity to control their destiny.

Since the 18th C, Western Europe and early 20th C Africa and the current Eastern Europe democracy has been advanced by a combination of leaders of revolutions and popular movements. These institutions have fought for the right to be consulted in decision making, have demanded for a central place in the governance process.

The driving force for these movements is the voluntary coming together of men and women for common purpose to improve the society in which they live by demanding change from their rulers. In the countries of the North, that is Western Europe and North America, the vehicles for demanding change and participation in the government process have for a long time been interest groups that eventually aggregate into political parties which in turn contested for political power. Thus as time went by political parties have been one of the major instruments of the citizenry in their counties.

QUESTIONS:

(a) What is the passage about?
(b) What is the definition of democracy according to the passage?
(c) How does interest groups differ from political parties.
(d) Besides political parties, name other institutions for affecting democracy.
(e) In your view, how do political parties affect democracy in the societies.

4. (a) What is meant by responsible decision making?
(b) Outline four importance of responsible decision making.

5. (a) Define by – election
(b) Explain shortly, in which circumstances that may lead by – election to take place (Give fc circumstances)

6. If you are to deliver a speech to stakeholders during a conference, which five factors for econo development will you consider?

7. Identify five cultural practices which lead to spread of HIV/AIDS

8. Explore five effects of improper behaviours in any society.

9. Provide five points to differentiate between local governments and central government.

10. Briefly explain five special groups in developing countries like Tanzania.

SECTION C (45 MARKS)
Answer three (3) questions from this section

11. In five points, show the differences between direct democracy and indirect democracy

12. As an export in civics, argue on the quotation that before the arrival of Europeans in Africa. Afi had no culture and they were not civilized (Give six points)

13. Imagine you are the head of the school and you are planning to meet the current student government of your school, what qualities of a good leader you would like the new elected student leade have? (Give six points)

14. "Road accidents are man made phenomena", Discuss (Give six points

FORM FOUR - EVALUATION EXAMINATION, MARCH 2020

Code: 031/1

PHYSICS

Time 3:00Hours

Friday, 27th March, 2020 a.m

INSTRUCTIONS.

1. This paper consists of three sections A, B and C.
2. Answer ALL questions in sections A and B and any **TWO** questions in section C.
3. All procedures must be shown clearly on the answer sheets.
4. Write your index number on every page of your answer sheets.
5. Wherever necessary use the following constants:
   - Accceleration due to gravity, $g = 10m/s^2$
   - Density of water, $\rho = 1g/cm^3$ or $(1000\ kg/m^3)$
   - Density of air = $1.2\ kg/m^3$
   - Density of mercury = $13200\ kg/m^3$

SECTION A (15 MARKS)

1. For each of the item (i) – (x), choose the correct answer among the given alternative and write its letters besides the item number in the answer sheet provided.

(i) Which among of the following radiations can be absolved by a metal plate
A: Alpha particle B: Gamma rays B: Beta particle C: X – rays D: Cathode rays

(ii) What fraction of the atoms would have been disintegrate in 72 hours when the half – life of an element is 24 hours
A: $\frac{1}{8}$ B: $^1/_2$ C: $^3/_4$ D: $^7/_8$ E: $^1/_4$

(iii) A body is said to be in equilibrium if
A: The body moves with uniform speed
B: The net force acting on the body is zero
C: The upward forces on the body counter balance some of the downward forces
D: Its centre of gravity is low positioned
E: Its centre of gravity is high

(iv) Light waves differ from sound waves because
A: Light is an electromagnetic wave but sound is of mechanical wave
B: Sound waves do not travel in water but light waves do
C: The speed of light is independent of the medium it travels but the speed of sound depends on the medium
D: Interference is obtained with light waves but not with sound waves
E: The speed of sound waves is greater than that of light waves in the same medium

(v) Most atoms of heavy nuclear are radioactive because
A: They undergo nuclear fusion
B: They are unstable

C: They don't have neutrons
D: They posses few neutrons
E; They are stable

(vi) Potential and Kinetic energy are similar in
A: Both produce heat
B: Both measured in watts
C: One is substance of the other
D: Both are forms of mechanical energy
E: Both form rotational motion

(vii) The image formed by convex mirrors are
A: Always virtual
B: Always real
C: The same size as the object
D: Large than the object
E: Angular in magnification

(viii) Which of the following when connected in the circuit produce gain as used in electronic
A: Thermistor B: Inductor C: Diode
D: Amplifier E: Capacitor

(ix) The area under velocity time graph gives us
A: Average velocity B: Average speed C: Total speed
D: Total velocity E: Total distance

(x) When a metal plate is heated electrons are emitted from the surface of a metal, this effects is called
A: Thermionic emission
B: Spontaneous emission
C: Photo electric emission
D: Alpha emission
E: Beta emission due to radioactive radiation

2. Match the items in List A with response in List B by writing the letter of the correct response beside the item number

LIST A

(i) A large distinct consolidated fragment of the earth's crust and the upper mantle that moves about slowly
(ii) A series of progressive disturbance that are propagated through the earth transmitting the energy released from an earth quake
(iii) An opening in the earth's crust through which molten magma and gases force their way onto the earth's surface
(iv) The layer in which most materials burn while entering the earth's atmosphere
(v) If the outermost region of the atmosphere

LIST B

A: Electromagnetic wave B: Tectonic plate C: Troposphere
D: Seismic waves E: Exosphere F: Land Slides
G: Thermosphere H: Volcano

SECTION B (60 MARKS)

Answer all questions in this section

3. (a) State the following terms;

(i) Heliocentric theory
(ii) Geocentric theory

(b) What are the real names of the objects in that are commonly known by the following names;

(i) An evening star
(ii) A morning stat

(c) A certain satellite is orbiting round the earth and is 4×10^4km above the surface of the earth. If it takes 24 hours to complete one circle, Calculate the speed in km/h. ($Re = 6.4 \times 10^3$ km)
Re – radius of earth

4. (a) A piece of cork of volume $100cm^3$ is floating on water. If the density of cork is 0.35 g/cm^3. Calculate the volume of cork immersed in water.

(b) Explain briefly why ships float while a piece of iron sink in water.

(c) A barge 40M long and 8M broad whose side are vertical floats partially loaded in water. If 125000N of cargo is added, what height will it sink (Assume weight of 1kg = 10N)

5. (a) What is manometer

(b) A mercury barometer reads 760mmHg at a foot of mountain 440M high. What is the barometer reading at the top mountain.

6. (a) Define the term linear expansivity of material

(b) A telegraph wire has a length of 30M and is mode of metal of linear expansivity 0.00002/k. Calculate the change in length from a hot day temperature 30°C to a very cold day -5°C.

7. (a) Draw a diagram showing of magnification of upright image formed in concave mirror

(b) An object is placed 5cm in front of a concave mirror of radius of curvature 20cm. Calculate the position nature and magnification of the image in each case

8. (a) Define the term standard temperature and pressure (S.T.P)

(b) 250 cm^3 of a gas are collected at 25°C and 750mm of mercury. Calculate the volume of the gas at S.T.P

SECTION C (25 MARKS)

Answer any two questions in this section

9. (a) Two resistors of resistance 3Ω and 5Ω connected in the gaps of a metre bridge. At what point on the wire of the galvanometer will centre zero deflection

(b) (i) Draw a well labeled diagram of a cathode ray oscilloscope

(ii) Explain briefly the functions of the electron gun, deflecting system and fluorescent screen

10. (a) (i) Define the term background radiation

(ii) What is half life

(b) A radioactive element has a half life of 3 minutes. If the initial count – rate is 51°C counts per minutes.

(i) How long does it take to reach of count rate of 64 counts per minute

(ii) What fraction of the original atoms is left at that time

(iii) Give the value of the disintegrated fraction

11. (a) Explain briefly how the following are produced

(i) P – type semiconductor

(ii) n – type semiconductor

(b) Briefly explain the mode of action of P-N junction

(c) Write four difference between intrinsic and extrinsic semiconductor

OR - TAMISEMI

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

ILEMELA MUNICIPAL COUNCIL

TANZANIA HEADS OF SECONDARY SCHOOL ASSOCIATION (TAHOSSA)

FORM FOUR - EVALUATION EXAMINATION, MARCH 2020

022 ENGLISH LANGUAGE

Time: 3:00 Hours Thursday 25th March, 2020 a.m

INSTRUCTIONS

1. This paper consists of sections A, B and C.
2. Answer **all** questions in sections A and B and three (3) questions from sections C.
3. Cellular phones and any unauthorized materials are not allowed in the examination room.
4. Write your **Examination Number** on every page of your answer booklet(s).

SECTION A (15 Marks)

Answer all questions in this section.

1. For each of the items (i) – (x) choose the most correct answer from among the given alternatives and write its letter beside the item number in the answer booklet provided;

i) Which among the following sentences expresses a discontinued habit;
   A. Juma eats rice everyday
   B. Juma used to eat rice everyday
   C. Juma ate rice
   D. Juma is eating rice
   E. Juma has eaten rice

ii) The moon ..... At night, doesn't it?
   A. Shine B. Shinning C. Shone D. Shines E. Has shone

iii) Which sentence is grammatically correct among the following;
   A. The student have gone to school
   B. The student has went to school
   C. The student has go to school
   D. The student have going to school
   E. The student has gone to school

iv) Mr. Chapakazi speaks English nicely, when does he speak English.
   A. Every day C. Tomorrow E. He is doing now
   B. Yesterday D. He has just finished doing it

v) Hardly ..... down when the bell rang;
   A. He had laid B. Had he laid C. Had he lain D. He had lie E. Had he lie

vi) She lived in Songea three years ago, this means that;
   A. She is still living there
   B. She went to live there three years ago
   C. She won't live there again
   D. She used to live there
   E. She wants to leave there for three years

vii) "I am a soldier" he said. What did he say?
   A. He said that he were a soldier
   D. He said that he was a soldier

B. He said that I am a soldier
C. He said that he is a soldier
E. He said that he wants to be a soldier

viii) ..... Does Ibrahim go to Arusha per week?
A. How often? B. How many C. How long D. How much E. How

ix) Sabina has just, finished the story book. Which of the following explains well the time Sabina completed reading?
A. Today
B. Yesterday
C. A long time ago
D. The day he started reading
E. A few minutes or seconds ago

x) The villagers have been cultivating cotton since 1965. This means;
A. They have stopped cultivating
B. They are still cultivating
C. They cultivated in 1965
D. They have recently stopped cultivating
E. They want to continue cultivating

2. Match the description of places in LIST A with the correct group names in LIST B by writing its letter beside the corresponding item number in the answer booklet provided;

LIST A		LIST B
i)	A number of people looking at a football match	A. Anthology
ii)	A number of disorderly people	B. Library
iii)	A collection of Angels	C. Host
iv)	A number of ships	D. Spectators
v)	A collection of poems	E. Crowd
		F. Mob
		G. Fleet

SECTION B (40 Marks)

Answer all questions in this section

3. What do the following abbreviations and symbols stand for as they are used in the dictionaries?
a) Abbr b) EAfrE c) IDM d) Sth

4. Write an appropriate question tags for each of the following statements;
a) She cooks nicely.
b) I am sick.
c) He is not a good person.
d) They will not tell you the truth.

5. Read the situations and write questions from the words in the brackets.
Example;
- John tells you that his mother is in hospital.
You ask him (how/long/be/in/hospital?)

Answer: How long has your mother been in hospital?

i) You meet a woman who tells you that she teaches Chemistry.
- You ask (How/long/be/teach/Chemistry).

ii) Hassan always wears the same shirt. It is very old shirt.
- You ask him (How /long//have/be/that shirt?)

iii) A friend of yours is taking music lessons. You ask him or her.
- (How long/have/be/take/lesson)

iv) You meet a girl who tells you that she knows Khadija, she is a good friend of her.
- You ask her (how lond/have/know/Khadija?)

6. Future expressions can be presented in a number of ways. Construct one sentence under each of the following ways to illustrate their use.
   a) The use of verb "be" + about to"
   b) The use of "present continuous form".
   c) The use of "will" or "shall"
   d) The use of "be" + "going" + "to infinitive"

7. Below is an extract of the time table you used during last year's graduation ceremony. By using the time table, explain to a colleague who did not attend to the graduation ceremony how the events took place.

	TIME	EVENT
a)	3:00 pm	Everybody gets seated in the hall
b)	3:15 pm	Guest of honour enters the hall
c)	3:20 pm	The Headmaster gives a word of introduction and welcomes them.
d)	3:30 pm	Guest of honour presents certificates.

Being;

a) By 3:00 pm everybody .....
b) .....
c) .....
d) .....

8. Tread the passage below carefully then answer the questions that follow;

Women make up half of the World's population. On basis, one might expect that work and its rewards would be shared equally between men and women. Unfortunately, that is not the case. In fact, in most countries there is discrimination against women in terms of work, rewards for work, ownership of property, legal rights, social opportunities and political responsibilities.

In many societies today, especially where it is difficult to be financially independent, women are like unpaid servants in their own homes. It is women that take responsibility for raising the children, feeding and looking after their families' health. In Africa although women do 60% of the agricultural work, the product of their work is mostly owned by men. Women are also responsible for collecting firewood and fetching water. They make a great contribution to the development of their country through this unpaid labour.

QUESTIONS

a) Suggest the suitable title for the passage with about four to ten words.
b) Identify two areas in which women are discriminated.
c) Apart from land and factory activities, which other activities do women perform?
d) In your own opinion, what should be done in order to abolish gender discrimination in the society? (Give one point).

SECTION C (45 Marks)

Answer three questions from this section.

9. Imagine that you are one of the village medical doctors and you have been invited to educate the villagers who are dying of cholera. Write a speech of not more than 250 words that you will give reflect on its causes and ways to avoid the disease.
(Use six points, three causes and three preventive measures).

LIST OF READINGS

NOVELS AND SHORT STORIES

A Wreath For Fr. Mayer of Masasi	-	S.N. Ndunguru (1977) Mkuki na Nyota
Unanswered Cries	-	Osman Conteh, Macmillan
Passed Like A Shadow	-	B.M. Mapalala (2006)
Spared	-	S.N. Ndunguru (2004) Mkuki na Nyota
Weep Not Child	-	Ngugi wa Thiong'o (1987) Heinemann
The Interview	-	P. Ngugi (2002) Mackmillan

PLAYS

Three Suitors One Husband	-	O.Mbia (1994) Eyre Methuen
The Lion and The Jewel	-	W. Soyinka (1963) OUP
This Time Tomorrow	-	Ngugi wa Thiong'o (1972) Heinemann
The Black Hermit	-	Ngugi wa Thiong'o (1972) Heinemann

POETRY

Song of Lawino and Ocol	-	O,P Bitek (1979) EAPH
Growing Up With Poetry	-	D. Rubadiri (ed) (1989) Heinemann
Summons	-	R. Mabala (1989) TPH

10. Use the Poems "Building the Nations" by Henry Barlow and "Development" by Kundi Faraja to explain how these poems are relevant in our present societies.
Give three points from each poem.

11. Using two Novels that you have studied under this section. Discuss the difficulties that were forced by two main characters as they were trying to build their own future and their societies. Provide three points from each novel.

12. With reference to two plays you have read under this section, discuss the aspects of African customs and traditions you would like to be abolished.

HISTORY

Time: 3:00 Hours

Tuesday, 24th March, 2020 p.m

INSTRUCTIONS

1. This paper consists of sections A, B and C .
2. Answer ALL questions in section A and B and only three (3) questions from section C.
3. All drawing should be in pencil.
4. Write your Examination Number on every page of your answer sheet(s)

SECTION A (20 MARKS)

Answer All questions in this section

1. For each of the item (i) – (xv), choose the correct answer from among the given alternative and write its letter beside the item number

(i) The following statement are about Neolithic Revolution which one is incorrect?
A: Man learned to live in communities
B: Man learned to practice religion
C: Man did not struggle to master his nature
D: Man deliver food from hunting and gathering
E: Man developed the skills of pottery and weaving

(ii) The people whose work, study and explain remains which show man's physical development and the tools he made and used are called
A: Revolutionists
B: Archaeologists
C: Evolutionist
D: Industrialists
E: Archipelago

(iii) Which of the following was an immediate cause of the first world war (WW 1)
A: Millitary alliance
B: The rise of capitalism
C: The formation of dictactorship ideology
D: Nationalism in Europe
E: The assassination of Ferdinad Franz Archduke

(iv) The growth and Expansion of Ethiopia started from the 4th Century under reign of
A: King Solomon
B: King Haille Salassie
C: King Menelick II
D: King Ezana
E: King Theodore

(v) What took place in Europe between 1750s and 1850s?
A: Mercantile capitalism
B: Emergence of slave trade
C: Industrial revolution
D: Scramble for Africa

E: Monopoly capitalism

(vi) One of the effects regarding the coming of European to West Africa was
A: The introduction of iron technology
B: Establishment of heavy industries
C: The growth of Western
D: The distortion of trans Saharan trade
E: The decline of tribal wars

(vii) The Nama and Herero uprising of 1904 – 1907 in Namibia was under the following leaders
A: Maherero and Lobengula
B: Mkwa ti and Witboo
C: Samori Toure and Kalonga Mazura
D: Witbooi and Maherero
E: Kinjekitile and Malimadu Lamine

(viii) One of the main aims of today Non – Aligned movement (NAM) is to
A: Propagate Nuclear development in the world's poor countries
B: Accelerate liberation of colonial societies
C: To settle middle East crisis
D: Balance the influence of the two super power
E: To allow members of NAM to fight against non members

(ix) Asante was one of the forest states which resisted against the
A: Dutch
B: British
C: Germans
D: Belgians
E: French

(x) The Unilateral Declaration of Independence (UDI) is the term used to denote
A: Settlers rejection in Rhodesia to be given self rule by the British
B: Settlers in Rhodesia acquiring independence from Britain
C: The white settlers in Rhodesia declaring their independence
D: British refusing to give Independence to settler in Rhodesia
E: Independence given illigally by British to settlers in Rhodesia

(xi) In direct rule was pre-dominant in the following region
A: Cameroon, Kenya and Congo
B: Zimbabwe, Kenya and Congo
C: Uganda, Angola and Egypt
D: South Africa, Namibia and Malawi
E: Uganda, Nigeria and Tanganyika

(xii) The central route originated from Bagamoyo passed through Urambo then to Uganda was dominated by
A: The Baganda
B: Nyamwezi
C: Yao
D: The Kamba
E: The Sukuma

(xiii) The primitive communal societies were characterized by the following features except
A: Low production
B: Dependence on Nature
C: Hunting and Gathering
D: Low level of technology

E: Exploitation

(xiv) Why knowledge of iron working was kept secret in some society during pre – colonial period?
A: Iron had the immediate use value to some societies
B: They wanted to develop division of labour
C: They had plan of using it in making ornaments
D: It enabled man to play a middleman's role in salt and gold
E:They wanted to maintain monopoly of blacksmith

(xv) The core ideas of the French Revolution were
A: Fraternity, Liberity and equality
B: Slave trade, Colonialism and Neo – colonialism
C: Scramble partition and bogus treaty
D: Market, raw materials and cheap labour
E: Communalism, slavery and feudalism

2. Match the items in List A with the correct responses in List B by writing the letter of the correct response in the table provided.

LIST A	LIST B
(i) Pan Africanism	A: Walking using two limbs B: End of the majimaji uprising
(ii) Franco – Prussian war	C: Italian's were defeated by Ethiopian emperor Menelick II D: The opening of Suez Canal
(iii) Bi – pedalism	E: france lost two provinces after defeated by German 1871 F: Famous long distance trade
(iv) Liberia and Sierra – Leon	G: Anglo – German agreement H: Settlement of freed slaves
(v) 1939	I: The Ndebele war J: Walking by using four limbs K: Unifying movement between African black people origin in America and Caribbean

SECTION B (35 MARKS)
Answer all questions in this section

3. (i) Why the abolition of slave trade was inevitable during the 19th C.

(ii) Why the Portuguese colonies in Africa engaged in Armed struggle to liberate themselves during decolonization and Nationalism in Africa.

(iii) How would you differentiate from Direct to indirect rule?

(iv) How would you associate Adolf Hilter with the second world war (WW II).

(v) How would you think that the peasant agriculture did not existed accidently but it was a plan by the colonial state.

(vi) How colonial education differ from pre- colonial education.

4. Arrange the following historical events in chronological order by writing number 1 – 5 beside the item number in the answer booklet provided.

   (i) African nationalism in South Africa started with the formation of the South Africa Native National Congress (SANNC) in 1912.

   (ii) African National Congress (ANC) led by Nelson Mandela established its armed known as "Umkhanto We Sizwe" (Spear of Nation) which immediately embarked upon military operations within South Africa.

   (iii) In 1949 the youth league launched it programme of Action which aimed at attainment of freedom from white domination.

   (iv) The Imposition of capitalist relations of production in South Africa unlike other part of the continent is underlined by racism. This made nationalist struggle in South Africa to be more complicated and long

   (v) In 1964 Nelson Mandela was arrested and sent to jail.

   (vi) Later in 1990 he was released and the majority rule as obtained in 1994.

5. Draw a sketch map of Africa to show the chartered companies

   (a) Used by colonialist to administer colonies on behalf of their home government
      (i) The Royal Niger Company (RNC 1884) under George Turban Goldie
      (ii) The German East Africa campaign (GEACO 1884) under Karl Peters
      (iii) The British South Africa Company (BSAC 1889), under Cecil Rhodesi
      (iv) Societe Commerciale de L' Afrique Occidental
      (v) Imperial British East Africa Company (IBEACO 1886) under William Macknon

   (b) List down five factors for the fall of the chartered companies in Africa.

SECTION C (45 MARKS)

Answer three (3) questions from this section

6. Explain six (6) Advantages of the discovery of Iron to African societies.

7. Explain six (6) effects of the Dutch settlement at the Cape.

8. Discuss (6) factors that led to the colonial competition in Africa during the second half of 19th Century.

9. "Colonialism and Neo – Colonialism were both exploitative system being experienced in Africa" To what extent colonialism paved the way to Neo – Colonialism?

HALMASHAURI YA MANISPAA ILEMELA

TAHOSSA–MTIHANI WA TATHMINI WA KIDATO CHA NNE, MACHI 2020

021 KISWAHILI

Muda: Saa 3:00

Maelekezo

1. Karatasi hii ina sehemu A, B na C zenye jumla ya maswali kumi na mbili (12).
2. Jibu maswali yote katika sehemu A na B, maswali matatu (03) kutoka sehemu C.
3. Zingatia maagizo ya kila sehemu na ya kila swali.
4. Simu za mkononi na vitu vyote visivyoruhusiwa havitakiwi katika chumba cha mtihani.
5. Andika Namba /Majina yako katika kila ukurasa wa kijitabu chako cha kujibia.

SEHEMU A : (Alama 15)

Jibu maswali yote katika sehemu hii.

1. Chagua herufi ya jibu sahihi katika vipengele (i) – (x), kisha andika herufi ya jibu sahihi katika viboksi ulivyopewa;

   i) Vipera vya ushairi wa fasihi simulizi ni;
   a) Methali, semi, mashairi na tenzi
   b) Ngonjera, tenzi, nyimbo na mashairi
   c) Vigano, nyimbo, ngonjera, nahau na soga
   d) Taarabu, mashairi na majigambo
   e) Fani, maudhui, mtindo na muundo

   ii) Mpangilio sahihi wa vipashio vinavyounda kirai ni;
   a) Mofimu, kishazi, kirai, neno na sentensi
   b) Nomino moja, kiwakilishi, kirai, kielezi na kishazi
   c) Nomino moja, nomino na kivumishi, nomino mbili au zaidi na kiwakilishi
   d) Nomino mbili, nomino na kishazi tegemezi na kirai chenyewe
   e) Kishazi tegemezi, kishazi huru na nomino moja na kiwakilishi.

   iii) Ni sentensi ipi ambayo haionyeshi matumizi ya neno "KI"
   a) Hutumika kuunda kielezi
   b) Hutunika kuonyesha hali ya kuendelea kwa tendo
   c) Hutumika kuonyesha hali ya mazoea
   d) Hutumika kuonyesha kiambishi awali cha kujitendea
   e) Hutumika kama kitenzi kishirikishi

   iv) Ni jambo gani linalodhihirisha upekee wa kazi Fulani ya kifasihi?
   a) Muundo wa kazi husika
   b) Wahusika wa kazi husika
   c) Jina la kazi husika
   d) Jina la mtunzi wa kazi husika
   e) Mtindo wa kazi husika

   v) Amepigwa na baba. Neno "na" katika sentensi hii ni aina gani ya neno?
   a) Kielezi b) Kiunganishi c) Kihusishi d) Kivumishi e) Nomino

vi) "Vibaya anacheza John" kosa gani limejitokeza katika tungo hii kati ya haya yafuatayo;
   a) Kosa la kimaana
   b) Kosa la kimuundo
   c) Kosa la kimantiki
   d) Kosa la kimatamshi
   e) Kosa la kimaumbo

vii) Sentensi ifuatayo ni aina gani ya sentensi "Yule mtoto aliyekuja jana ataondoka leo asubuhi"
   a) Sentensi ambatano
   b) Sentensi changamano
   c) Sentensi sahili
   d) Sentensi shurutia
   e) Sentensi maelezo

viii) Chagua orodha yenye maneno ambayo ni vielezi
   a) Vibaya, vizuri, polepole, haraka
   b) Mrefu, mdogo, mfupi, mwepesi
   c) Choka, angusha, uliza, ajiri
   d) Kalamu, mkoba, nyota, gari
   e) Vizuri, mdogo, mwepesi, haraka

ix) Ni sadaka inayotolewa kwa Mungu kupitia kwa miungu wakati wa kusali muingu.
   a) Unyago b) Hekaya c) Tambiko d) Utani e) Ngonjera

x) Misimu inayoshika mizizi bila kufutika katika lugha husanifishwa na kuwa msamiati rasmi wa lugha. Ifuatayo ni seti ya misimu iliyosanifishwa, chagua seti sahihi iliyosanifishwa na kuingizwa katika lugha ya Kiswahili.
   a) Vuvuzela, wakereketwa, Buzi, dingi
   b) Fegi, antisosho, dingi, demu
   c) Wafurukutwa, wakereketwa, wapambe, changudoa
   d) Noma, mshikaji, jero, nina waya
   e) Ngunguri, disko, tapeli, utajiju

2. Oanisha maana za dhana za uandishi zilizo katika Orodha A kwa kuchagua herufi ya dhana husika katika Orodha B, kisha andika herufi katika sehemu ya kujibia.

ORODHA A		ORODHA B
i)	Huzungumzwa katika eneo dogo	A. Misimu
ii)	Ni sehemu katika sentensi ambayo hujaza nafasi ya mtenda au mtendewa katika sentensi	B. Kidahizo C. Lahaja
iii)	Ni lugha isiyo sanifu	D. Tarihi
iv)	Ni neno lililoorodheshwa katika kamusi ili kutolewa maana zake pamoja na taarifa nyinginezo	E. Kiima F. Kitomeo
v)	Hizi ni hadithi zinazotumia wahusika wa aina mbalimbali pamoja na miungu na binadamu.	G. Visasili

SEHEMU B: (Alama 40)

3. Kwa kutumia njia ya mnyambuliko, unda nomino mbili kwa kila kitenzi kifuatacho;
   i) Kimbia
   ii) Penda
   iii) Cheka
   iv) Kula
   v) Funga
4. Maneno yafuatayo yametoholewa kutoka katika lugha gani?
   i) Wakil
   ii) Bibo
   iii) Basin
   iv) Dukan
5. a) Eleza maana ya dhana zifuatazo kwa mifano;
   i. Kiarifu
   ii. Sarufi
   iii. Shamirisho
   iv. Sentensi changamano
   b) Taja hatua tano za uchanganuzi wa sentensi
6. A. Andika mizizi ya maneno yafuatayo;
   a) Uongozi
   b) Uhusiano
   c) Mageuzi
   d) Wamemkamatisha
   e) Tunapendana
   B. Tunga tungo moja kwa kila kipengele
   i. Kishazi tegemezi + kishazi huru
   ii. Kishazi huru
   iii. Kishazi tegemezi
   iv. Kishazi huru + kishazi huru

7. a) Eleza hatua nne zinazochukuliwa wakati wa usanifishaji
   b) Eleza kwa ufupi dhima nne za lahaja katika lugha.

8. Soma kifungu cha habari kifuatacho kisha andika ufupisho wa maneno 60 kuhusu habari hiyo.

Kwa miaka mingi baadhi ya mila na desturi zetu zimetufunga hadi kutufikisha mahali ambapo imekuwa ni vigumu kwetu kubaini ukweli kuhusu mambo muhimu yanayotuzunguka, yakiwa ni yale ambayo yanatuhusu sisi na miili yetu na yale yaliyo nje na miili yetu.

Kwa mfano hadi leo kuna watoto wa umri mkubwa kufikia miaka saba ambapo hawajui majina ya baba au mama zao. Lakini pia kuna vijana ambao hawajui ni kwa vipi mtoto anapatikana hata baada ya kubalehe kwao. Kuna watu wazima ambao hadi leo mjadala kuhusu kifo ukiingizwa kwenye mazungumzo huwa hawako tayari kusikiliza wakiamini kuwa huo ni mwiko na uchuro mkubwa. Hali hii kwa sehemu kubwa hutokana na desturi na mila zetu ambazo zimepogoka na zinahitaji kutazamwa upya

kama zina faida kwa jamii. Baadhi ya mambo ambayo yamekuwa yakichukuliwa kama mwiko mkubwa kuyajadili hadharani au hata kati ya watu zaidi ya mmoja ni yale yanayohusu mbegu za kiume, yai la mwanamke na upatikanaji wa mimba.

Siyo jambo la siri kwamba mada zenye kuhusu mambo haya ni nadra sana kujadiliwa katika jamii zetu na wengi ni maamuma kabisa kuhusiana na masuala haya. Inawezekana ikawashangaza wengi pale mtu atakaposema kuwa mwanaume anaweza kumpa mimba mwanamke bila mwanaume huyo kukutana kimwili na mwanamke anayehusika.

SEHEMU C: (Alama 45)

Jibu maswali matatu (03) kutoka katika sehemu hii.

9. Simu ya maandishi ni ujumbe wa haraka hasa kunapokuwa na jambo la dharura. Mwandikie telegramu kaka yako anayeitwa Chepeko wa S.L.P 113 Kigoma, mtaarifu kuwa baba yenu ni mgonjwa sana na amelazwa hospitalini aje haraka. Jina lako ni Kagao.

10. Kwa kutumia tamthiliya mbili ulizosoma, chagua mhusika mmoja kutoka kila tamthiliya, kisha uonyeshe jinsi gani mhusika huyo anapaswa kulaumiwa na jamii.

11. Fasihi ya Kiswahili imemweka mwanamke katika hadhi tofauti tofauti. Thibitisha usemi huu kwa kutumia hoja tatu kwa kila riwaya kutoka riwaya mbili ulizosoma.

12. Washairi hutumia mashairi yao kuelimisha jamii kuhusu mambo yanayoikabili. Thibitisha ukweli huu kwa kutumia hoja tatu kutoka katika kila diwani kati ya diwani mbili ulizosoma.

ORODHA YA VITABU KWA SWALI 10 - 12

USHAIRI

Wasakatonge	–	M.S Khatibu (DUP)
Malenga Wapya	–	Takiluki (DUP)
Mashairi ya Chekacheka	–	T.A Mvungi (EP & D.LTD)

RIWAYA

Takadini	–	Ben Hanson (MBS)
Watoto wa Mama Ntilie	–	E. Mbogo (H.P)
Joka la Mdimu	–	A. J. Safari (H.P)

TAMTHILIYA

Orodha	–	Steve Raynolds (MA)
Ngoswe Penzi Kitovu cha Uzembe	–	E. Semzaba (E.S.C)
Kilio Chetu	–	Medical Aid Foundation (THP)

FORM FOUR - EVALUATION EXAMINATION, MARCH 2020

013

GEOGRAPHY

Time: 3:00 Hours **Wednesday 25th March, 2020 P.M**

INSTRUCTIONS

1. This paper consists of three sections A, B and C.
2. Answer all questions in section A and B and two (02) questions from section C.
3. All writing must be in blue or black ink.
4. Cellular phones, calculators and any unauthorized materials are not allowed in examination room.
5. Write your **Examination Number** on every page of your answer sheets or answer booklet(s).

SECTION A (15 MARKS)

1. For each of the items (i) – (x), choose the correct answer among the given alternatives and write its letter besides the item number in the answer sheet provided.

(i) ..... Occurs when three heavenly bodies are in one line and one of them being the source of light.
A. Equinox B. Eclipse C. Solstice D. Solar system E. Parallax

(ii) Salinity of ocean water increases with .....
A. Distance from the equatorial region
B. Depth of the sea level
C. Altitude
D. Increased rate of evaporation of ocean water
E. Increased rainfall

(iii) A vertical section of the soil showing its horizons is called;
A. Soil catena B. Soil porosity C. Soil profile D. Soil colour E. Soil texture

(iv) Which of the following statement is true about equatorial region?
A. It has a small annual range of temperature
B. It has four rainfall maxima
C. It experiences temperature above 32°
D. It has high annual range of temperature
E. It is found between 10° and 35° North and South of the equator.

(v) Autumn, summer, winter and spring are the results of;
A. Rotation B. Eclipse C. Revolution D. Spheroid E. Ocean currents

(vi) Mary is a tourism ambassador; she addressed the world from New York (75°W, 42°N) at 7:30 pm Tuesday. At what time and day will the people in Dar-es-Salaam (45°E, 06°S) hear the same speech?
A. 3:30 am Wednesday C. 11:30 pm Wednesday E. 8:30 pm Tuesday
B. 12:30 pm Tuesday D. 3:30 pm Wednesday

(vii) A drainage system which is in no way related to the structure of the region where it occurs is called.
A. Radial drainage system
B. A trellis drainage system
C. A superimposed drainage pattern
D. A dendritic drainage pattern
E. Annual drainage system

(viii) The summit of Mount Kilimanjaro which is about 5,895 metres above sea level is permanently covered with ice due to the fact that the temperature decreases with an increase in altitude at the rate of;
A. 0.06° C for every 100m
B. 0.06° C for every 1000 m
C. 1° C for every 166.6 m
D. 6°C for every 100 m
E. 6 ° C for every 1000 km

(ix) Plants with long roots, thorny stems, needle shaped leaves, wax or hair are found in;
A. The Mediterranean region
B. Tropical grasslands
C. The monsoon region
D. Hot desert
E. The equatorial region

(x) The part of the Earth that forms continental blocks is called;
A. Sima B. Core C. Mantle D. Sial E. Hydrosphere

2. Match the descriptions of mass wasting in Column A with the corresponding feature in Column B by writing the letter of the correct answer beside the item number in the answer booklet provided;

COLUMN A	COLUMN B
(i) Down movement of soil mixed with gravel saturated with water down a slope.	A. Land slide
(ii) Sudden movement of a wide variety of material down slope associated with snow	B. Avalanches
(iii)Steady movement involving soil and other materials along very gentle slope.	C. Rock fall
(iv)A very slow movement of angular loose rock of all size down a slope.	D. Rock slide
(v) Falling movement of individual rock blocks with boulders along a steep slope.	E. Solifluction
	F. Soil creep
	G. Earth flow
	H. Mud flow
	I. Talus creep

SECTION B (55 MARKS)

Answer all questions in this section.

3. Study the map extract of Kasamwa (sheet 32/4) and then answer the following questions.
   a) Mention the two ways used to represent scale on the given map.
   b) Comment on the settlement patterns of the mapped area.
   c) Calculate the area of the whole map in km^2.
   d) Give the compass direction of Nyabubele Hill (GR. 382834) from Nyakahongola (GR. 425863)
   e) With evidence, describe three main economic activities taking place in the mapped area.

4. Form Four students conducted a research about the contribution of Agricultural sector to the Gross Domestic product (GDP) in East Africa, and presented their findings by statistical table as;

Year	TANZANIA	KENYA	UGANDA
1954	64%	47%	67%
1958	59%	42%	64%
1960	61%	40%	61%
1965	54%	38%	59%

a) Use the data given above to draw a group bar graph.
b) Give a brief comment on the contribution of agriculture to Gross Domestic products (GDP) in East Africa.

5. The chairman of Mbuyuni village advised his village mates to use simple chain survey in order to get the right measurements of their farms.

a) Explain important things a surveyor has to prepare before deciding to conduct a chain survey.
b) Identify two merits and demerits of using chain survey.

6. Due to high rate of loss of biodiversity caused by environmental degradation in Serengeti National Park you as form four student requested by the NEMC collaborating with TANAPA to help conducting a research on the stated problem.

a) Outline stages of conducting your research.
b) Shortly describe the following concepts as used in research
   i) Probability sampling
   ii) Participatory observation.

7. Carefully study the following photography and answer the questions that follow;

a) What are the people doing on the photograph?
b) Mention the cash crop shown on the photograph?
c) Under what scale is the type of farming practiced?
d) Suggest three possible regions in Tanzania where such crop is grown.
e) Mention any two uses of the crop shown on the photograph.

SECTION C (30 MARKS)

Answer only two questions from this section.

8. The rapid growth of tourism can be influenced by greater contribution of the people. What measures are to be taken in Tanzania to increase contribution of tourism industry to the economy of the country?
9. Suggest solution to the problems facing small scale agriculture in most developing countries?
10. By giving six points, discuss factors influencing population distribution and density.

FORM FOUR - EVALUATION EXAMINATION, MARCH 2020

Code: 032/1 **CHEMISTRY 1**

Time 3:00Hours Thursday, 26th March, 2020 a.m

INSTRUCTIONS.

1. This paper consists of sections A, B and C.
2. Answer ALL questions in sections A and B and **only ONE** questions from section C.
3. Non – programmable calculators are allowed but cellular phones are not allowed in the examination room..
4. Write your name/examination number on every page of your answer sheets provided.
5. The following constants may be used
   Atomic masses : H = 1, C = 12, N = 14, O = 16, Na = 23, *Cl* = 35.5, Cu = 64.
   Avogadro's number = 6.02×10^{23}
   G.M.V at s.t.p = 22.4 dm^3
   1F = 96500 coulombs
   1 litre = $1dm^3 = 1000\ cm^3$

SECTION A (15 MARKS)

1. For each of the following items (i) – (x) choose the correct answer from the given alternatives and write its letter beside the item number.

   (i) The discharge of cations during electrolysis
   A: Electrocoating B: Oxidation C: Sacrificial
   D: Reduction E: Catalytic reaction

   (ii) Soluble salts like zinc sulphate generally can be obtained in the laboratory by
   A: Crystallization B: Decompostion C: Descripitation
   D: Precipitation E: Hydrogenation

   (iii) An element X is found in period 4 and group II of the period table. If element X undergoes the reaction $X \rightarrow X2^{+} + 2e^{-}$, the electronic configuration of X^{2+} ion is
   A: 2:8:6 B: 2:8:8 C: 2:8:2 D: 2:8 E: ":8:8:2

   (iv) Zinc, aluminium and lead oxides are
   A: Basic B: Amphoteric C: Mixed oxides
   D: Acidic E: Neutral

   (v) Which of the following statements is not true about hydrogen gas
   A: Is a reducing agent
   B: Is a neutral gas, almost insoluble in water
   C: Burns in air to form steam
   D: Is an oxidizing agent
   E: Reacts with other elements at high temperature

(vi) The action of heat decomposes metal compounds in different ways. Which of the following pairs give oxides when heated

A: $Pb(NO_2)_2$ and $AgNO_3$ B: $Ca(NO_3)^2$ and $Pb(NO_3)_2$
C: $Cu(NO_3)_2$ and Na_2CO_3 D: $Zn(NO_3)_2$ and K_2CO_3
E: $Cu(NO_3)^2$ and KNO_3

(vii) The reaction between hydrogen and iodine can be represented by the following chemical equation:

$$H_{2(g)} + I_{2(g)} \longrightarrow 2HI_{(g)} + \Delta H$$

The equation represents the form of reaction that is

A: Endothermic B; Double decomposition C: Exothermic
D: Decomposition E: Redox reaction

(viii) Which of the following salts is soluble in water?

A: Silver chloride B: Lead (II) nitrate C: ~Calcium carbonate
D: Lead (II) sulphate E: Barium sulphate

(ix) 10 cm^3 of 0.4M sodium hydroxide are added to 40cm^3 of 0.2M hydrochloric acid. The resulting mixture will be

A: Alkaline B: Dilute C: Neutral
D: Acidic E: Amphoteric

(x) The ionic equation when aqueous ammonium chloride reacts with sodium hydroxide solution is represented by

A: $H^+_{(aq)} + OH\text{-}_{(aq)} \longrightarrow H_2O(l)$
B: $Na^+_{(aq)} + Cl^-_{(aq)} \longrightarrow NaCl_{(s)}$
C: $2\,NH_4^+{}_{(aq)} + 2Cl^-_{(aq)} \longrightarrow 2NH_{3(g)} + 2HCl_{(g)}$
D: $NH_{4(aq)}^+ + OH^-_{(aq)} \longrightarrow NH_{3(g)} + H_2O_{(l)}$
E: $2NH_{4(aq)} + 2Cl^-_{(aq)} \longrightarrow 2NH_{3(g)} + Cl_{2(g)} + H_{2(g)}$

2. Match the items in List A with the response in List B by writing the letter of the correct response beside the item number

LIST A	LIST B
(i) The most electronegative element	A: Neon
(ii) An element with atomic mass of 40	B: Potassium
(iii) An element in which its oxide can be prepared by the action of nitric acid and heat	C: Chlorine
(iv) An element which is used in making jewelers	D: Calcium
(v) An element which reacts with water to produce hydroxide and hydrogen gas	E: Diamond
	F: Nitrogen
	G: Fluorine
	H: Mercury

SECTION B (70 MARKS)

Answer ALL questions

3. (a) How many moles of ammonia are present in 4.03×10^{12} molecules of ammonia?

(b) Calculate the number of atoms in 0.4 moles of sulphur

4. (a) With the aid of example distinguish between

(i) A base and acid
(ii) A strong acid and strong base

(b) Give three uses of salts in daily life

5. (a) Define the term hardness of water
   (b) Mention two types of hardness of water
   (c) With the Aid of chemical equation explain how to remove the two types of hardness of water you have mentioned in part (b) above

6. (a) A metal B has an atomic mass of 56 and valencies of 2 and 3. Write the formulae of its
   (i) Oxides
   (ii) Hydroxides

   (b) A certain amount of oxygen was found to contain two isotopes of oxygen as Follows

   $^{16}_{8}0 = 90\%$ and $^{18}_{8}0 = 10\%$

   Calculate the relative atomic mass of oxygen

7. (a) Define the term extraction of metals
   (b) List four stages of extraction of metals
   (c) Name the raw materials for the extraction of iron

8. (a) Name the process that can be used to separate the following substance
   (i) Iodine and sand
   (ii) Kerosene and water
   (iii) A mixture of petrol and diesel
   (iv) Oil from groundnuts

   (b) The non – luminous flame is used in different areas. Give three such areas and explain why the flame is preferred for those uses

9. (a) Explain four factors that determine the choice of good fuel

   (b) Provide IUPAC name for the following chemical formula

   (i) N_2O_4 (ii) PCl_3 (iii) $FeCl_3$

10. (a) Define the following terms:-
   (i) Titration
   (ii) End point
   (iii) Volumetric analysis
   (iv) Standard solution

   (b) Sir. Mathias wants to prepare a solution whose concentration is 0.4M from $100cm^3$ of 2M hydrochloric acid. To what volume should be dilute the solution?

11. (a) What is an equation
   (b) Mention the two most common types of equation
   (c) Explain the following types of reactions
   (i) Combination
   (ii) Decomposition
   (iii) Displacement
   (iv) Precipitation

12. (a) Define the following terms:
   (i) Soil fertility
   (ii) Soil productivity

   (b) Briefly explain how soil fertility can be maintained by adopting good farming methods

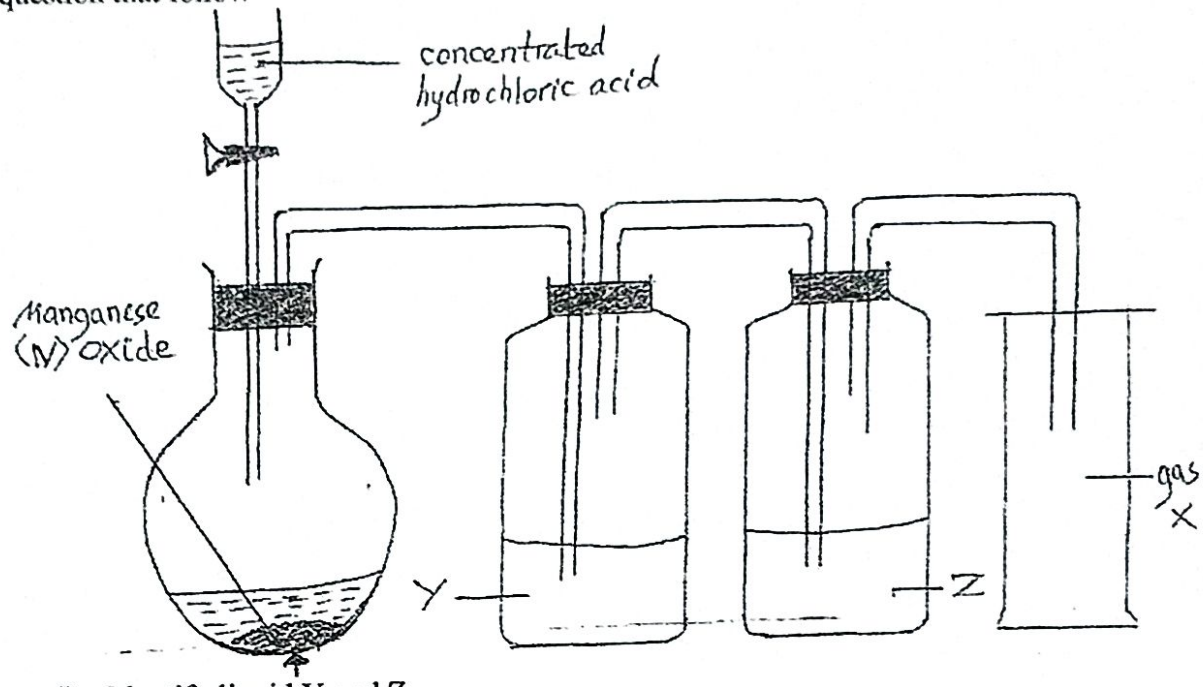

SECTION C (15 MARKS)

Answer only one question in this section

13. (a) (i) Differentiate between metals and non-metals (3 differences)

(ii) Define the term "Bleaching agent"

(b) Study the following diagram for preparation of gas X and then answer the question that follow

(i) Identify liquid Y and Z
(ii) State functions of Y and Z respectively in the experiment
(iii) Write the balanced chemical equation between concentrated hydrochloric acid and manganese (IV) oxide
(iv) Name the gas X

(c) Describe what would be observed in each of the following experiments and write balanced chemical equations

(i) Copper (II) nitrate crystals are heated strongly
(ii) Chlorine water is exposed to sun light

14. (a) What do you understand by the following terms as used in organic chemistry

(i) Organic compound
(ii) Catenation
(iii) Hydrocarbon

(b) What are the differences between the following?

(i) Saturated hydrocarbon and unsaturated hydrocarbon (3 differences)
(ii) Empirical formula and molecular formula (1difference)

(c) An hydrocarbon Q constitutes of 85.71% by carbon. Since its vapour density is 14.

Calculate its

(i) Empirical formula
(ii) Molecular formula

(d) By showing balanced chemical equation and stating necessary conditions, show how Q can be converted into a second member of saturated hydrocarbon

FORM FOUR - EVALUATION EXAMINATION, MARCH 2020

033 BIOLOGY

Time: 3:00 Hours Tuesday 24th March, 2020 a.m

INSTRUCTIONS

1. This paper consists of three sections **A, B** and **C.**
2. Answer **all** questions in section A and B and **two** (02) questions from section C.
3. Except for diagrams that must be drawn in pencil, all writings should be in blue or black ink.
4. Calculators and cellular phones are not allowed in the examination room.
5. Write your **Examination Number** on every page of your answer sheets or answer booklet(s).

SECTION A (15 MARKS)

Answer ALL questions in this section.

1. The following are ten (10) multiple choice items. For each item (i) – (x) choose the most correct alternative and write its letter against item number in answer sheet/booklet provided;

(i) A food sample Y turned blue – black when treated with iodine solution. The detected food type in sample Y has the following function in the body.

A. Buidds up the body
B. Prevents body from diseases
C. Provides energy to the body
C. Gives body enough water
D. Initiates digestion

(ii) Corona virus has spread rapidly word wide. Its spread is great in some places in China. These areas has been quarantine. The importances of quarantine are:-

A. The virus is killed easily and do not spread.
B. Patients are kept on one location of treatment and minimizes the spread of virus.
C. People are restricted from entering or leaving the area while patients are treated, this avoids spread of virus.
D. The killing of infected people becomes easy and virus does not spread any more.
E. Spread of virus is minimized and services flow to one location of infection.

(iii) A patient has been diagnosed with low level of blood sugar. Which hormone would you recommend to regulate the victims sugar level?

A. Ant diuretic B. Glucagon C. Insulin D. Testosteron E. Aldosteron

(iv) Most of the iron supplied in the body through food consumed by human is used for the;

A. Formation of nerves
B. Manufacture of insulin
C. Formation of hemoglobin
D. Growth of hard bones and teeth
E. Development of respiratory enzymes

(v) Pulmonary vein carries
A. Deoxygenated blood from lungs to the rest of the body
B. Oxygenated blood from lungs to the heart
C. Deoxygenated blood to the lungs from the heart
D. Oxygenated blood from the heart to the rest of the body
E. Deoxygenated blood to the lungs from the heart

(vi) Water from the roots of flowering plants in transported up to the plant by different forces. Which of the following forces raise water to the maximum height?
A. Capillarity
B. Root pressure
C. Transpirational pull
D. Cohesion forces
E. Adhesion forces

(vii) Viruses are considered to be non-living because they;
A. Are active only when in a living cell
B. They are prokanyotic
C. Are single celled
D. Are multicellular prokaryotes
E. Have a cover made of protein

(viii) In agriculture especially farming, insects plays a great role in crops production. This role is;
A. Production of honey
B. Speeding of diseases to animals
C. Performs pollination as they visit flowers for nector
D. Destroys crops by eating leaves as they do locusts
E. Provides nitrates, as they converts atmospheric nitrogen, to plants

(ix) The organ in mammals that is responsible for storage of glycogen
A. Spleen B. Liver C. Stomach D. Muscles E. Brain

(x) At the end of cell division, the chromosome number is mentioned as in parent cell.
A. Meiosis
B. Mitosis
C. Both meiosis and mitosis
D. Prophase stage
E. Interphase stage

2. The following are five matching item. Choose the most correct phrase from LIST B that match best with that of LIST A and write its letter against item number from List A, in answer sheet/booklet provided

LIST A	LIST B
(i) Axial compound of the skeleton which protects the spinal cord.	A. Vertebral column
(ii) Axial component of the skeleton that protects delicate internal organs such as lungs and heart.	B. Cervical
(iii) Appendicular component of the skeleton which provide large surface area for muscle attachment and a base for articulation with upper arm bones.	C. Pelvic girdle
(iv) Axial component which protects the brain and provide area for attachment of the neck.	D. Clavicle
(v) Appendicular component which provide large surface area for muscle attachment and a base for articulation with hind limbs	E. Skull
	F. Rib cage
	G. Lumbar
	H. Pectoral girdle
	I. Pivot

SECTION B (60 MARKS)

Answer all questions in this section.

3. (a) (i) What is gaseous exchange?

(ii) Arrange the following in the correct order; Bronchi, pharynx, bronchioles, nasal passages, alveoli and trachea.

(b) Name the structures concerned with gaseous exchange in the following organisms.

i) A mammal

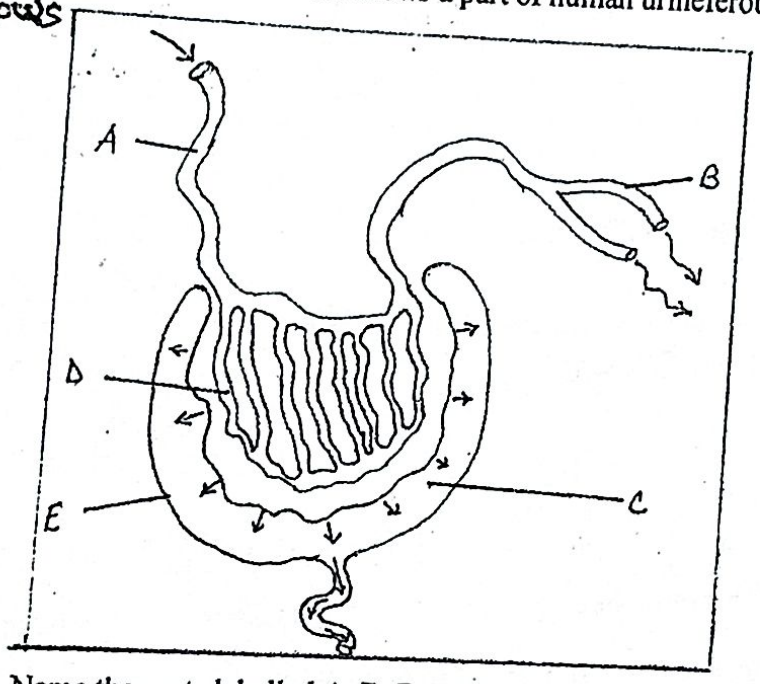

ii) A tadpole

iii) An insect

iv) An earthworm

v) A spider

4. Study the diagram below which shows a part of human urineferous tubule,, then answer the questions that follows

(a) (i) Name the parts lebelled A, B, D and E.

(ii) What is the name given to the fluid labeled C?

(iii) Name two (2) components of blood that normally do not diffuse into the part labeled E.

(iv) Name a nitrogenous waste which is present in urine but absent in part labeled B.

(b) Why process of urine formation is important? Give three points.

5. (a) Define the following terms as used in Biology;

i. Food chain

ii. Food web

(b) (i) List down the components of a food web.

(ii) Write any three importances of food web.

6. Reptiles are organisms whose body temperature is affected by environmental temperature. Briefly explain three ways that help reptile to survive in different temperature conditions.

7. (a) (i) Explain advantages of placental development for a developing foetus. (any3 points)
   (ii) Explain why meiosis is needed in the life cycle of sexually repro ducing organisms.
   (b) Give any two differences between identical and fraternal twins.

8. (a) Differentiate the following terms as used in growth
   i. Diffuse growth and localized growth
   ii. Germination and seed dormancy
   (b) With the aid of diagram, explain the formation of two daughter cells in telophase of mitosis.

9. (a) Provide the meaning of the following;
   i. A trait
   ii. Allele
   iii. Phenotype
   iv. Chromosomes
   (b) State any two differences between DNA and RNA

10. (a) Distinguish between nastic movement and tropic movement;
   (b) What is the importance of the following?
   i. Phototropism
   ii. Hydrotropism
   iii. Chemotropism

11. (a) What is laboratory?
   (b) What are unique things that make biology laboratory different from other laboratory at school?

12. With one example in each case, mention four ways of food preservation.

SECTION C (25 MARKS)

Answer two questions from this section. Question 13 is COMPULSORY and carries 15 marks.

13. Majority of people believes that all fungi are harmful organisms. As a biology student, explain how fungi are beneficial to man using four points and that can help to raise economic condition of the society.

14. Write an essay on family planning under the following points.
   i. Meaning of family planning
   ii. Four methods of family planning
   iii. Four importances of family planning

15. Write an essay on the economic importance of insects.

BIBLE KNOWLEDGE

Time: 3:00 Hours

Wednesday 01st April, 2020 P.M

INSTRUCTIONS

1. This paper consist of sections A, B and C with total of thirteen (13) questions.
2. Answer all questions in section A, five (5) question from section B and two (2) question from section C.
3. Section A carries twenty five (25) marks, section B forty (40) marks and section C thirty (30) marks.
4. All communication devices, Bible and any unauthorized material are not allowed in the examination room.
5. Write your examination number on every page of your answer booklet(s).

SECTION A: (25 Marks)

Answer all questions in this section.

1. For each of the following items (i)-(xx), choose the correct answer from among the given alternatives and write its letter in the box provided.

(i) What was the cause of the quarrel between the Greek-speaking Jews and native Jews? Acts 6:1

A. Both of them wanted to become leaders
B. Greek speaking Jews wanted to be more superior that native Jews.
C. The native Jews claimed to be priests.
D. The Greek speaking Jews claimed their windows were being neglected in the daily distribution of funds.

(ii) Which of the following is not a principle of good Christian living?

A. Respect for oneself and others
B. Being just to all people
C. Not being open to others and God
D. Being forgiving

(iii) In Acts 15: 36-41; Paul and Barnabas separated, what was the significance of their separation?

A. Led to a wide spread of the gospel
B. Led Paul to go back to Damascus
C. Led to the building of many churches
D. Led Barnabas and Paul to perform many miracles.

(iv) Gideon was a judge of Israel nation and did a lot to liberate the Israelites from the midianites. However during his late days he disobeyed God, how did he disobeyed God? Judges 8: 21-25.

A. He made an Idol to be worshipped by the Israel.
B. He killed many Innocent people and took away their properties.
C. He made a god out of silver and placed him in the temple.

D. He killed all his 69 brothers.

(v) God commanded Joshua to circumcise males at Gilgal. Joshua 5: 1 – 12, what was the reason behind?

A. God had made a covenant with Abraham, the Physical sign of the covenant was circumcision.

B. During the period of 40 years the people spent crossing the desert, none of the baby boys had been circumcised.

C. All males were not circumcised due to lack of doctors.

D. It was a sign of purity and being holy.

(vi) Which of the following was not a resolution of Jerusalem council? Acts 15: 22 – 29.

A. Not to eat food that has been offered to the idols.

B. Not to eat animals blood.

C. Not to wash their faces

D. Not to eat any animal that has been strangled.

(vii) In Exodus 15:22-27; the Israelites complained to Moses, what was the reason behind?

A. The was with Amalek at Rephidim

B. Lack of food and water

C. Moses had delayed to come back from mount Sinai.

D. The Israelites found bitter water.

(viii) Joseph was sold and taken to Egypt. Genesis 37:12-36; what do you think was the reason?

A. God aimed to save Jacob's family from starving

B. The brothers loved money so much

C. Joseph was son of Jacob's beloved wife Rachel

D. God wanted to make Joseph a Governor of Egypt.

(ix) Paul is considered as an apostle of Jesus. Why do you think Paul deserves to be called an Apostle of Jesus and yet he was not there during the time of Jesus?

A. He was chosen by Jesus Himself.

B. He performed many miracles on behalf of God.

C. He was a persecutor of the belivers and later he became an Apostle.

D. He was hated by people like any other Apostles.

(x) During the time of Noah, the Lord God brought flood on earth Genesis 7:1 what was the reason?

A. People had disobeyed God's commandment

B. People were not living according to God's will

C. People were taking a lot of wine and beer

D. People were killing innocent babies

(xi) The Lord's servant Joshua son of Nun died at the age of 110 years, where was he buried?

A. At machpelah care

B. At mount Gaash

C. At Timnath – Serah

D. At Timnah in the hill country of Manasseh

(xii) He was a prophet at Antioch and referred to as black. Act 13:1-3

A. Barnabas

B. Simeon

C. Manaen
D. Lucius

(xiii) The main sin during the time of judges.
A. Commiting a dutery
B. Worshiping God and images
C. Worshiping other gods
D. Obeying all God's commandment

(xiv) In Acts 5:1-11; what sin did Ananias and Sapphirah commit and what was the outcome of their sin?
A. They lied to the Holy spirit and both of them died
B. They hid all the money they sold out of their land and Paul cursed them.
C. They lied to Peter and both of them became blind.
D. They never listened to Apostles and both of them died.

(xv) The people of Babylon built the tower due to unity and having a common language with reference to Tanzania, what do you think is the significance of having Kiswahili language as a national language?
A. Promotes nationalism and hatred for corruption
B. Promotes self-reliance and facilitate easy communication.
C. Source of employment and foreign currency
D. Facilitate easily communication and promotes brotherhood.

(xvi) Abram experienced many changes after his call. They included the following.
A. Change of the name, place, Religion and political ideology.
B. Change of social life, place, religion and climamatical change.
C. Change of culture, Religion, place and name
D. Change of tradition, culture, morals and Religion.

(xvii) All inhabitants of Lydda and Joppa turned to the Lord due to? Acts 9:32-43
A. Saul's conversation
B. Miracles performed by Peter
C. Resurrection of Jesus
D. Persecution of belivers

(xviii) Which of the following was circumstance under which Moses was born? Exodus 2:1-10.
A. When David was king of Jerusalem
B. In Egypt by Egyptian parents
C. He was son of Amran and was born when his parents was old.
D. He was born when the king of Egypt had issued the massacres of all Hebrews baby boys.

(xix) Bible knowledge as a subject is important to young people. As a bible students, how does Bible help you to live as a good citizen?
A. It promotes good moral, helps one on how to preserve the environment and builds good relationship with God.
B. Helps to promote moral decay among youth.
C. Helps to promote good relationship between God and Satan.
D. Helps young people to know more about God and the sins God wants people to commit.

(xx) He was killed by king Herod by the Sword.
A. James
B. Peter
C. Simon
D. Thomas

2. Match the number of the years in List A with the corresponding names of people in List B.

LIST A		LIST B
(i)	He died at the age of 950	A. Ehud
(ii)	He ruled Israel for 80 years	B. Jacob
(iii)	He was 30 year, when he entered into the service of the king of Egypt.	C. Moses D. Joseph
(iv)	He died at the age of 147 year	E. Gideon
(v)	He was 83 years when he talked to the king of Egypt.	F. Noah G. Aaron H. Abraham

SECTION B (45 MARKS)

Answer five (5) questions from this section. Question three (3) and four (4) are compulsory.

3. In Genesis 1:1-31, 2:1-2 God created the universe in six days and on the seventh days and on the seventh day God rested because he had finished the work of creation.
   (a) In three points, discuss the importance of work to the youth to day.
   (b) The government of Tanzania is encouraging the youth to engage themselves in practical agricultural but the youth have a negative attitude towards it. Give three advises you can give to such youth.
   (c) One of the duties that God gave to mankind was to preserve the environment in three points explain briefly human activities that have destroyed the environment.

4. In Acts 5:17-41, the Apostles were parse culed and put in jail.
   (a) Explain how the apostles were delivered from the prison.
   (b) With the use of relevant examples give three ways how the church leaders being persecuted today.
   (c) Give three reasons people today can learn from Gamaliel'sadvise to the fellow council members.

5. In Mathew 4:1-11, Jesus was tempted by the devil.
   (a) Outline three temptation Jesus encountered and state how he overcome each temptation.
   (b) By giving three point, show how the youth today can overcome temptation in their daily life.
   (c) Explain the significance of Jesus' temptation to Christians today.

6. In the Gospel of Mathew, Jesus used parables when preaching and teaching the people.
   (a) Give three reasons why Jesus used parables.
   (b) Describe briefly the parable of fine pear.
   (c) Give a lesson people today can learn from the parable of fine pearl.

7. In Mathew 19:1-12, Jesus teaches about divorce
   (a) Give three causes of divorce in a modern society.
   (b) Discuss three disadvantages of divorce
   (c) "Is not good for man to live alone I will make a suitable companion to help him"Gen 2:18-19 from this quotation. God blessed marriage; give three importance of marriage.

8. (a) Describe the parable of the widow and the Judge according to Luka 18:1-8.
   (b)Why do you think Jesus used the parable above.
   (c)With relevant examples, show three injustice cases done to widows and orphans in your community.

9. (a) What do you understand by the term "Temple"
   (b) Explain three significance of the temple to Jewish society.
   (c)Give three similarities between the Jewish temple and the churches today.

10. "Teacher we know that you pay no attention to any one's status. Tell us is it against our law for to pay taxes to Roman empire or not Luka 20:21.
   (a) What was Jesus response toward the above question?
   (b) To day many people have a negative attitude towards paying Government taxes. As a good citizen, give three importance of paying tax.
   (c) How can you help the government of Tanzania to increase its tax base (Revenus from taxes). Give three points.

SECTION C (30 MARKS)

Answer two (2) questions from this section.

11. (a) In Genesis 41:1-36, Joseph interpreted the king's dream. Narrate the dreams the king of Egypt had and give interpretation Joseph gave him.

   (b) Explain three lesson you can learn from the life of Joseph.

12. Narrate the story of the conversion of Saul according to Acts 9:1-19 and give three leason from Saul's conversion.

13. In the book of Judges Women played a big role in liberating Israel from enemies.
   (a) With use of relevant examples. Give three names of women in the book of Judges and show how they helped Israel from enemies.
   (b) Discuss the role played by women socially, economically and politically in your country. Give five points.
