SECTION B, (40 Marks)

Answer **all** questions in this section.

3. Read the following passage carefully and answer question (a) – (e) that follow

Scanned with CamScanner

Communication is currently being used in reporting women affairs that cover socia economic, and political and environmental aspects. Some of the reports are negative and athers are positive. Both of these categories have impacts in the community as far as women are concerned.

Negative reporting has involved expressing negative aspects of women like indulging in prostitution, drug trafficking, loitering without any job or permanent residence. Women are reported as the great victims of HIV/AIDs and hence active in spreading AIDs because of failure to take precautionary measures. They are also regarded as sources of labour as well as inferior members of the society who cannot give viable or productive ideas in the society. Also, women are reported to be used by men as instruments of sexual gratification in different places like casinos etc. This negative reporting lowers down the status of women in the society and makes women feel inferior before men. Hence, where women have been reported negatively low value is according to them. The women in these areas can even be denied their rights.

Positive reporting of women affairs like their contribution to the development of the country. For example some women in different parts of the Tanzania who help in conserving the environment by planting trees, have provided a good example in the society. Therefore, all reports on such members of the society are positive. Positive reporting therefore has promoted the status of women in the society. Women are now regarded as potential key players in the whole development process. The society provides them opportunities for further studies in the leadership circle in giving their own ideas especially in the fight against AIDs etc.

This has a great contribution in the reduction of poverty among women and minimizing inequality that has been existing between men and women in the societies. Communication has played a great role on unveiling the information of Albino killings in Tanzania in the years 2008 and 2009 many cases of killing had been reported through.

Questions

A. Suggest a suitable title for the passage
B. Identify four aspects women affairs can cover in communication
C. According to the passage, why women feel inferior before men
D. In which areas women contribute to development of the country
E. According to the passage, communication has been divided in to two sides/impacts. List them.

4. Use five points to signify the effects of poverty in any society.

5. Elaborate five functions of local governments

6. Outline five composition of the coat of arms of Tanzania
7. If you are to deliver a talk on the forces driving globalization to your community, which five driving forces will you consider?

Scanned with CamScanner

021 KISWAHILI

(Kwa watahiniwa Walioko na Wasiokuwa Shuleni)

MUDA: SAA 3 **Alhamisi, 6 Agosti 2020 mchana**

Maelekezo

1. Karatasi hii ina sehemu **A, B** na **C** zenye jumla ya maswali **kumi na mbili (12).**
2. Jibu maswali yote kutoka sehemu **A, B** na chagua maswali **matatu (03)** kutoka sehemu **C.**
3. Zingatia maagizo ya **kila sehemu** na **kila swali.**
4. Andika kwa kutumia kalamu ya wino wa bluu au nyeusi
5. Simu za mkononi na vitu vyote visivyoruhusiwa **haziruhusiwi** katika chumba cha mtihani.
6. Andika **namba yako ya mtihani** katika kila karatasi yako ya kujibia.

Scanned with CamScanner

SEHEMU A, (Alama 15)
Jibu maswali yote katika sehemu hii.

1. Chagua herufi ya jibu sahihi katika vipengele (i) hadi (x), kisha andika herufi ya jibu hilo katika karatasi yako ya kujibia.

(i) Ni kanuni, sheria na taratibu zipi zinazozingatiwa na wazungumzaji wa lugha fulani?
- A Mofimu, Neno, Kirai, Kishazi na Sentensi
- B Herufi, Sauti, Mofimu,Silabi na neno.
- C Sarufi Maana, Sarufi Miundo, Sarufi Maumbo na Sarufi Matamshi.
- D Sarufi maana, Mofimu, Neno na Kirai
- E Silabi, Neno, Kirai na Sentensi.

(ii) ..... Ni sauti zinazotamkwa mara moja na kwa pamoja kama fungu moja la sauti.
- A Sauti
- B Herufi
- C irabu
- D Silabi
- E Konsonanti

(iii) Zipi ni nyenzo za lugha yoyote duniani?
- A Sarufi na Fasihi
- B Irabu na Konsonanti
- C Sarufi, Irabu na Konsonanti
- D Fasihi, Irabu na Konsonanti
- E Sarufi, Fasihi, Irabu na Konsonanti

(iv) Mpangilio sahihi wa ngeli za kisintaksia ni upi?
- A YU/A-WA, I-ZI, LI-YA, U-I, KI-VI, U-ZI, U-YA, KU, PA-MU-KU
- B U-ZI, I-ZI, LI-YA, U-I, KU, YU/A-WA, U-YA, KI-VI, PA-MU-KU
- C YU/A-WA, I-ZI, LI-YA, U-YA, KI-VI, U-ZI, U-I, KU, PA-MU-KU
- D YU/A-WA, I-ZI, LI-YA, U-I, KI-VI, U-ZI, U-YA, PA-MU-KU, KU
- E YU/A-WA, I-ZI, LI-YA, U-I, KI-VI, U-ZI, U-YA, KU, PA-MU-KU

(v) Ni upi mpangilio sahihi wa mjengo wa Tungo?
- A Kirai, Neno, Sentensi na Kishazi
- B Neno, Kirai, Kishazi na Sentensi
- C Kishazi, Kirai, Sentensi na Neno
- E Sentensi, Neno. Kishazi na Kirai

(vi) Ni lugha mseto ya muda inayozuka pindi makundi mawili yenye lugha mbili tofauti yakutanapo.
- A Lugha ya vizalia
- B Pijini
- C Kibantu
- D Kiswahili
- E Kiunguja

(vii) Mambo muhimu yanayopatikana katika maana ya lugha ni kama yafuatayo, isipokuwa;
- A Ni sauti za nasibu
- B Ni mfumo
- C Lugha hufurahisha na kufundisha
- D Lugha inamuhusu binadamu
- E Lugha ni chombo cha mawasiliano

(viii) Ni sentensi ipi sio sentensi huru?
- A Juma anacheza mpira
- B Anaimba vizuri
- C Mtoto aliyepotea jana amepatikana.
- D Asha ni mtoto mzuri
- E Yule alikuwa anataka kucheza mpira.

Scanned with CamScanner

(ix) ..... Ni kipashio kidogo kabisa cha lugha chenye maana. Maana hiyo yaweza kuwa ya kisarufi au kileksika.
A Isimu B Silabi
C Mzizi D Kimbo
E Mofimu

(x) Ni seti ipi inawakilisha kikamilifu vabusha wa fasihi simulizi?
A Vitu, mahali, wanyama, binadamu, fanani na maleba
B Hadhira, wanyama, maleba, binadamu na fanani
C Fanani, vitu, mahali, binadamu, maleba na wanyama
D Wanyama, manju, binadamu, vitu, mahali, na maleba
E Hadhira, binadamu, wanyama, vitu, mahali na fanani

2. Oanisha maelezo yaliyo katika orodha "A" ambayo ni aina ya tungo na orodha "B" ambazo ni aina za maneno yanayounda tungo hizo kwa kuandika herufi ya jibu sahihi katika karatasi yako ya kujibia.

ORODHA "A"	ORODHA "B"
	A. N + t + N + V
i. Wale waliamini maneno yangu	B. H + w + T + N
ii. Salama alikuwa mwanafunzi wangu	C. W + T + N + V
iii. Walikuwa wanataka kwenda kulima	D. Ta + T + E + E
iv. Alikuwa anajisomea darasani polepole	E. Ta + Ta + Ta + T
v. Loo! Yule anapenda ugomvi	F. N + V + t + E
	G. N + U + N + T

SEHEMU B (Alama 40)
Jibu maswali yote katika sehemu hii

3. Tunga sentensi moja kwa kila alama kuonesha mahamizi ya alama zifuatazo.

i. Mkato

ii. Mabano

iii. Alama za majo

iv. Nukta pacha

4. Andika maana ya methali zifuatazo:
i. Kikulacho ki nguoni mwako.
ii. Mtaka cha uvunguni sharti ainame.
iii. Mchumia juani hulia kivulini.

Scanned with CamScanner

5. (a) Tenga kiima na kiarifu katika sentensi zifuatazo. Tumia alama ya mkwaju (/) na herufi "K" juu ya kiima na herufi "A" juu ya kiarifu.

i. Mdogo wangu anaongea sana

ii. Yule kijana aliyekuja hapa juzi amefariki dunia

iii. Frank ni kijana mpole sana

iv. Mama amelala sakafuni

(b) Changanua sentensi zifuatazo kwa njia ya matawi kwa kutumia mkabala wa kimapokeo

i. Fisi mkubwa ameuawa kichakani jana alfajiri.

ii. Mtoto aliyekuwa anacheza uwanjani amevunjika mguu.

6.(a) Kwa kutumia mifano miwili kwa kila kipengele, fafanua kwa ufupi jinsi vipengele vifuatavyo vinavyoonesha kuwa vitenzi vya Kiswahili na lugha za kibantu vina asili moja.

i. Mpangilio wa viambishi katika vitenzi

ii. Kiambishi tamati katika vitenzi

b) Eleza kwa ufupi juu ya nadharia zifuatazo kwa jinsi zinavyoelezea asili ya Kiswahili

a) Kiswahili ni pijini au krioli

b) Kiswahili ni kiarabu

7. Kwa kutumia mifano, fafanua dhana zifuatazo kama zinavyotumika katika fasihi

a) Tashibiha
b) Takriri
c) Sitiari
d) Tashihisi
e) Mubaalagha

8. Soma kifungu cha habari kifuatacho, kisha jibu maswali yanayofuata;

Wanangu, toka zamani bara letu la Afrika lilikuwa na mambo yaliyohitilafiana na haya tunayoyaona sasa. Hadithi, vitimbi, na visa vilivyotokea zamani katika bara letu vinatofautiana sana na mabara yoyote mengine. Vyetu ni vitamu na bora kuliko vyote vile vilivyotokea katika mabara hayo.

Miujiza ya mambo yaliyotokea ina mizizi ambayo viini vyake hubenua waziwazi mila na desturi za asili tangu zamani, hivyo, hadithi hizo zina tija ya makumbusho ya daima milele. Kwa hiyo, katika hali yoyote yatupasa kuhifadhi hazina za mila zetu. Mila zetu zidumishwe; kwa mfano watu kuzunguka moto huku kizee kikongwe au ajuza akisimulia hadithi za mambo ya kale liwe ni jambo la kawaida kabisa. Katika dunia ya leo simulizi hizo za ujasiri na uzalendo zimeenea kutoka vizazi hadi vizazi. Mambo mengi yamebadilika kutoka mitindo aina aina, hivyo mabadiliko hayo yasitufanye sisi kusahau simulizi zetu katika mitindo yetu. Ni wajibu utupasao kuendeleza tabia hizi ili tubenue mbinu za masimulizi hata kwa vitabu.

Maswali

a. Pendekeza kichwa cha habari hii kisichozidi maneno matatu.
b. Bara la Afrika lina mambo gani mawili mazuri.
c. Mwandishi anatuhimiza tudumishe mila ipi?
d. Fupisha habari uliyosoma kwa maneno yasiyopungua 50 na yasiyozidi 60.

Scanned with CamScanner

SEHEMU C (Alama 45)

Jibu maswali **matatu(3)** kutoka katika sehemu hii.

9. Wewe kama afisa Manunuzi wa kiwanda cha mbao cha Mshikamao S. L. P 100 Chamwino, andika barua kwa mfanyabiashara yeyote mashuhuri wilayani kwenu kuhusu agizo la vifaa vifuatavyo; Misumeno 5, gundi ya mbao lita 20, misumari ya nchi sita Kg 25, na kofia ngumu 40. Jina lako liwe Shukrani Kazamoyo.

10. Kwa kutumia diwani mbili ulizosoma, eleza jinsi taswira tatu kutoka kila diwani zilivyotumiwa na msanii kuwasilisha ujumbe kwa jamii.

11. "Kazi ya fasihi ina radha kwa sababu inamzungumzia pia mwanamke kwa namna tofautitofauti" Thibitisha kauli hii kwa kutoa hoja tatu kwa kila kitabu katika riwaya mbili ulizosoma.

12. Chagua wahusika wawili katika tamthiliya teule mbili ulizosoma na uoneshe ujumbe unaowasilishwa na waandishi kupitia matendo yao.

Instructions

1. This paper consists of sections A, B and C, with total of **ten (10)** questions
2. Answer **ALL** questions in section A and B and **two (2)** questions from section C
3. Map extract of (265/2) Ilonga Sheet is provided
4. Credit will be given for the use of recreant diagrams
5. Write your **examination number** on each answer sheet you have used.

Scanned with CamScanner

SECTION A (15 Marks)

Answer **all** questions in this section

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter besides the item number in the answer booklet provided.

(i) What is a proper name for the study of the description of the earth?
A solar system B Astronomy C Geography
D Environment E Metrology

(ii) You have been visited the coastal area of Bagamoyo and you find the forests with deep roots and roots project above the mud and water to absorb oxygen, what kind of forest is that?
A Tropical forest B Mangrove forest C Coniferous forest
D Deciduous forest E Temperate forest

(iii) If the time at town X is 15^0E is 12:00 noon what could be the longitude town Y if it is 8:00 am?
A 15^0E B 30^0W C 30^0E
D 45^0W E 45^0E

(iv) Mrs Kilua was wondering how fragments are worn out during collision against each other at Kondoa river during rainy season, her daughter tells her that process is known as .....
A Hydraulic action B Attrition C Abrasion
D Corrosion E Hydrolysis

(v) The Maasai around Oldonyo Lengai mountain were wondering the way mountain vomiting fire and smoke, they believe that the mountain was possessed by bad evils, tell them is not evils but is .....
A Volcanic eruptions B Tectonic movements C Mass wasting
D Fire from God E Faulting

(vi) Suppose you want to carry out a field study on the atmospheric conditions suitable for growth of maize on a farm village. What are the best weather components to be considered...?
A Rainfall and wind B Rainfall and could cover
C Moisture and sunshine D Rainfall and temperature
E Pressure and humidity

(vii) Last year people of Bukoba District experience shaking of crustal rocks which lead to destruction of properties and death of people. Where this shaking does originated inside the earth's crust?
A At the focus B At the epicentre
C At the fault D At the Lake Victoria

(viii) The process of peeling off and falling of rock mass is called

Scanned with CamScanner

A Disintegration B Weathering C Mass wasting
D Erosion E Exfoliation

(ix) Workers who were working at Government offices in Dar es salaam are now moving to Dodoma as their new offices. Identify the type of that movement
A Migrants B Emigrants C Emigration
D Immigration E Immigrants

(x) Recently in Rwanda the land with their vegetation was sliding down a slope and people were busy in taking photos and wondering to that situation, tell them what type of geological process was taking place
A Erosion and deposition B Denudation and transportation
C Land slide and erosion D Mass wasting and transportation
E Landslide and deposition

2. Match the letter of the correct response beside the item number in the answer sheet provided.

	LIST A	LIST B
i	Fineness and coarseness of soil particles	A. Soil type B. Soil profile C. loam soil D. soil texture E. Soil structure F. Soil fertility G. Soil organic matters H. Soil chemistry I. Soil erosion J. Soil water K. Soil air
ii	Removal of materials from surface of land	
iii	Vertical section of the soil to the underlying rocks	
iv	Status of soil with respect to amount of elements necessary for plants growth	
v	Residues that have decomposed and mixed with soil mass	

SECTION B (55 Marks)

Answer all questions from this section

3 Study the map extract of Ilonga (sheet 265/2) and answer the following questions.

a. Measure the distance covered by the river in kilometre from grid reference 630000 to 600979
b. Use the square methods to calculate the area covered by Namihondo pond.
c. With evidence, mention three (3) economic activities which may be conducted on a mapped area
d. Describe the nature of relief of the area
e. With one reason, suggest the type of climate
f. Identify any three (3) factors which have influenced the population distribution of Ilonga town.

4. Carefully study the data below which shows the exports of tea from Kilimanjaro in tones.

YEAR	TEA PRODUCTION (In Tonnes)
1981	7,000
1982	3,000
1983	10,000
1984	5,000
1985	2,000
1986	12,000
1987	16,000
1988	6,000
1989	15,000
1990	3,500

a) Name the two simplest methods of presenting the data
b) Outline two values of presenting the data by simple methods mentioned in (a) above
c) Present the given statistical data by using divergent bar graph.

5 (a) Mary is a good cartographer; she intends to produce a contoured map of Morogoro. What type of survey method would you advise her to apply?

(b) Apart from producing contour maps, what is the other significance of the survey you have mentioned in (a) above

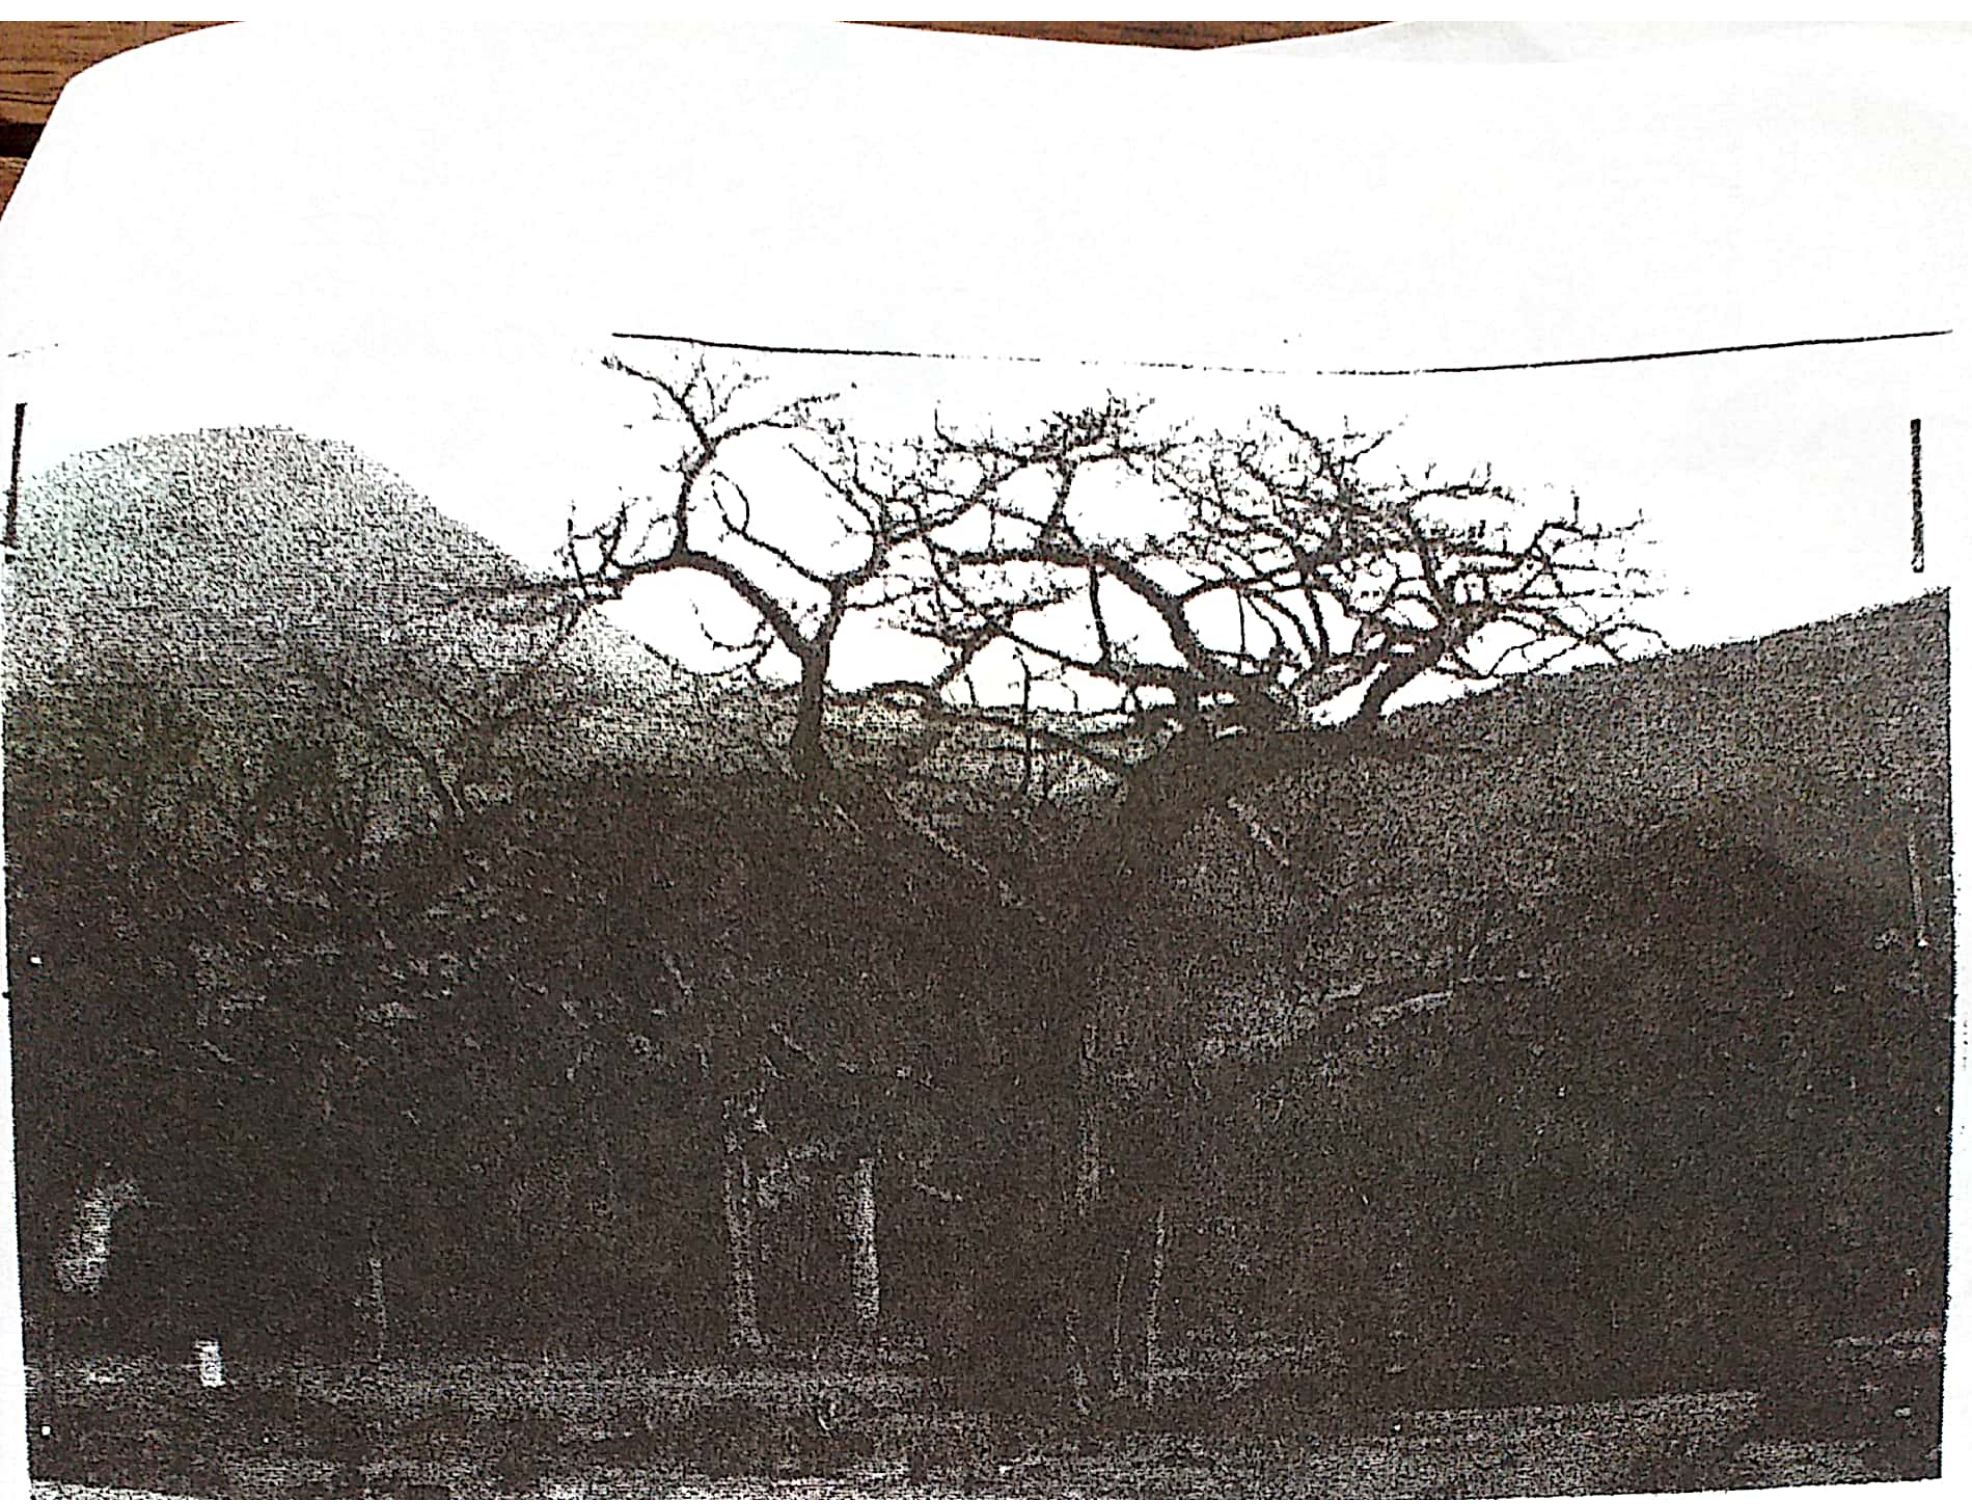

(c) Mention and explain uses of any three instruments which are used in method you mentioned in (a) above

6. (i) what is a research data?

(ii) Research is a backbone for any institution, elaborate this statement by five points.
(iii) Mention three differences between interview and questionnaire.

7. Study carefully the photograph below then answers the questions that follow: -

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

FORM IV MOCK EXAMINATION 2020 DODOMA REGION

022 **ENGLISH LANGUAGE**

(For Both School and Private Candidates)

Time: 3:00 Hrs. **Monday 3, August 2020 am**

Instructions:

1. This paper consists of Three (3) sections A, B and C with a total of **twelve (12)** questions
2. Answer **eleven (11)** questions only
3. Answer **all** questions in sections A and B; and any three questions from section C.
4. Write your examination number on every page of your answer sheet

Scanned with CamScanner

SECTION A, (15 MARKS)

Answer all questions

1. For each of the items (i) – (x) choose the most correct answer from among the given alternative and write its letter beside the item number in the answer sheets

i. Are you going to town this afternoon? "I don't think _____"

A to B it C that E so

ii. "Why have you appointed John to this post? "He was highly recommended _____ it.

A in B for C to D at

iii. Bisi is twenty years old; I think she is _____ to look after herself.

A quite too old B old enough

C rather so old D rather very old

iv. You are _____ to believe everything you are told

A too foolish B very foolish

C as foolish D foolish that

v. "How much does that book cost? " _____ that one"

A The same as B Same as

C The same D Same

vi. We _____ a lot of rain recently, so the ground is very muddy

A have been having B have

C were having D had been having

vii. When I came to this school five years ago, Mr. Ngonyani _____ here for fifteen years and he is still here now.

A was teaching B is teaching

C had been teaching D taught

viii. "If you get there in time, you will be given a good seat" In this sentence, the word "get" stands for:

A an action which will take place in the future

Scanned with CamScanner

B an action which always takes place

C an action taking place now

D an action which took place in the past

ix. Mr. Alex is taking us for Mathematics next term. The words "is taking" stand for

A an action now going on

B an action in the future

C an action which has been going on for sometime

D an action which will continue for some time from the present

x. Which of the underlined expressions means "Failed to understand"?

A I thought nothing of what he said

B I made nothing of what he said

C I heard nothing of what he said

D I had nothing to do with what he said

2. Match the descriptions of places in **List A** with the correct place names in **List B** by writing its letter beside the corresponding item number in the answer sheets provided.

LIST A	LIST B
i. An unmarried woman ii. A man with magic power. iii. People in the meeting iv. A place where serious patients are kept for great attention v. A place where artistic ,cultural, and historical things are kept	A. bachelor B. museum C. spinster D. Hospital E. wizard F. crowd G. Intensive Care Unit

SECTION B, (40 Marks)

Answer all Questions in this section

3. Re – arrange the highlighted letter in these sentences to form the correct word

Eg. Mary can **irwte** very good stories

Mary can **write** very good stories

i. I think **ctehni** fighting should have ended many years ago but it still happens in many parts of Africa.

ii. Glory was **irasped** for working hard

Scanned with CamScanner

iii. Nelson Kidason claimed to be an **ceytneswsi** to the accident

iv. Shortage of **saptreu** and water makes pastoral communities fight

4 Fill in the blanks with the right word.

i. My Uncle is a ..... He cooks in a restaurants

ii. My brother is a ..... He repairs broken down cars

iii. My father is a ..... He writes poems

iv. My sister is an ..... She owns a small business

5. Fill in the gaps with the appropriate article.

i. The earth moves round ..... Sun

ii. It was ..... honor for our school to be awarded the medal

iii. My friend is ..... European

iv. Pemba is ..... Island

6. Re – write according to the instruction given under each item.

i The higher they went, the colder it became.

(Re – write using double comparatives)

ii . She told me that her mother was sick

(Use "of" in the place of "that")

iii. She visited the British council. She wanted to borrow some texts

Re-write using "so as"

iv. I can't concentrate on my work for I am unwell; "Catherine said.

(Re – write as reported speech)

7. Pick out the words that have different sounds in the following groups

i. Come, hum ,son, calm, bun

ii. Gate, late said, state, cake

iii. Coat, boat, moat, goat, low

iv. Food, wood, fool, full

8 Read the passage below carefully then answer the questions that follow

Scanned with CamScanner

Have you ever asked yourself why people who engage in sports look healthy and have great strong bodies? Sports play a very important role in our daily lives. For those who care about their health, it is a need for them to engage in sports of their interest, sports include swimming, football, athletics, cycling, mountain and rock climbing, skiing among many others.

Most health officers and doctors encourage people to engage in sports activities for fun and ensure that they are physically and mentally fit. These activities keep us away from heart related diseases (heart attack, high blood pressure), diabetes obesity, and mental stress among others.

Sporting is a good way of relaxing the body. After a busy day at work, it is encouraged to engage in sports activities that you like most to wind down the day. This will help relaxing of the muscles while making them more supple and toned. In addition it strengthens bones and joints. People who engage in sports are stronger and in position to engage in more challenging activities than those who don't.

Sports provide environment that allow people to develop socially through socializing with others. At the end of the day friendships are established and deals are made. Other activities like draft and chess increase the efficiency and power of our mind to reason. If you compare a chess player and a non- player, a chess player can be very fast in terms of reasoning and decision-making. Health should be everyone's concern, as it keeps away amnesia as well as total memory loss during old age. Finally, sports help to boost our body posture and appearance. People who engage in sports regularly do burn more calories than those who do not, this means their bodies are in good shape and so they have self-esteem. Such people are happy and they exude confidence wherever they are.

Questions

a Suggest the suitable title for the passage.

b. State four benefits of sporting

i. .....

ii. .....

iii. .....

iv. .....

c .Give examples of any four diseases that can be prevented by engaging in sports activities

i. .....

ii. .....

iii. .....

iv. .....

Scanned with CamScanner

d. How playing draft and chess can be beneficial to you as a student?

e How would you advise those who do not engage in sports? Limit your response to one point

SECTION C, (45 Marks)

Answer three (3) questions from this section

9. Students pregnancy is a hot topic these days, write an essay on three (3) causes and three (3) solutions to student's pregnancy problems in Tanzania.

Write in not more than 250 words.

LIST OF READINGS FOR QUESTIONS 10-12

NOVELS AND SHORT STORIES.

A Wreath for Fr. Mayor	-	S.N Ndunguru, (1977), Mkuki na Nyota
Unanswered cries	-	Osman Conteh, Macmillan
Passed like a Shadow	-	B.M. Mapalal, (2006) AUP
Spared	-	S.N Ndunguru (2004), Mkuki na Nyota
Weep Not Child	-	Ngugi wa Thiong'o (1987); Heinemann
The Interview	-	P. Ngugi (2002). Macmillan

PLAYS:

Three suitors one Husband	-	O. Mbia (1994), Eyre Methuen
The Lion and the Jewel	-	W. Soyinka (1963), OUP
This Time Tomorrow	-	Ngugi wa Thiong'o (1972). Heinemann
The Black Hermit	-	Ngugi wa Thiong'o (1968), Heinemann

POETRY:

Song of Lawino and Ocol	-	O.P. Bitek (1979), EAPH
Growing up with poetry	-	D. Rubadiri (ed) (1989). Heinemann
Summons	-	R. Mabula (1960), TPH

10. Read the following poem then answer the questions that follow;

Africa my Africa

Africa of proud warriors in ancestral savannah

Africa of whom my grandmother, sings

On the banks of the distant river

I have never known you

But your blood flows in my veins

Scanned with CamScanner

Your beautiful black blood that irrigates the fields
The blood of your sweat
The sweat of your work
The work of your slavery
Africa tell me Africa
Is this your back that is unbent?
This back that never breaks under the weight of humiliation
This back trembling with red scars
And saying no to the whip under the mid day sun
But a grave voice answers me
Impetuous child that tree young and strong that tree over there
Splendidly alone a midst white and faced flowers
That is your Africa springing up a new springing up
Patiently obstinately
Whose fruit bit by acquires
The bitter taste of liberty.

Questions

i. What is the poem about?
ii. Suggest the title of the poem
iii. Comment on any three figures of speech used
iv. What does the symbol "that tree young and strong" suggest?
v. Mention any three themes from the poem
vi. What message do you get from the poem (give 2)

11. Some male leaders abuse power entrusted to them using it to win love. Referring to two plays you have read verify this statement by giving three points from each.

12. If you are given a chance to suggest some of themes in novels that are relevant in Tanzania today which ones would you suggest? Refer to two novels as you respond to the question by giving three points from each.

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

FORM IV MOCK EXAMINATION 2020 DODOMA REGION

032/1 CHEMISTRY 1

Time: 3 Hours Thursday, 6th August 2020 a.m.

Instructions

1. This paper consists of three sections A, B and C with total of **fourteen (14)** questions.
2. Answer **all** questions from section A and B and **one (1)** question from section C.
3. Except for diagrams that must be drawn in pencil, all writing should be done using a blue or black pen.
4. Calculators and cellular phones are **not** allowed in the examination room
5. Write you **Examination number** on every page of your answer sheets/booklet(s)
6. The following constants may be used:

   Atomic masses: H = 1, C = 12, N = 14, O = 16, Na = 23, S = 32, Cl = 35.5, Cu = 63.5 and Pb =207

   Avogadro's number = $6.02 \times 10^{23} mol^{-1}$

   GMV at s.t.p = 22.4 $dm^3 mol^{-1}$

   1 Faraday = 96500 Coulombs

   Standard temperature = 273 K

   1 litre = 1 dm^3 = 1000 cm^3

Scanned with CamScanner

SECTION A (15 Marks)

Answer **all** questions in this section

1. For each of the following items (i) – (x) choose the correct answer among the given alternatives and write its letter beside the item number in the answer sheet(s) provided

(i) Splints are among the first aid kit components. Which of the following sentences best describes its use?

A. Used for cutting bandages or piece of cloth
B. Used for holding pieces of bandages or cloth together
C. Used to support broken bones and is tied using bandages
D. Used for picking up and holding things
E. Used for cleaning wounds and make it heal faster

(ii) A simple proof that some chemical reactions take place in our bodies is that

A. We eat a balanced diet
B. Doctors tell us so in the hospitals
C. We occasionally fall sick
D. The food we eat or the drinks we take are quite different from the waste products from our bodies
E. There is no proof

(iii) The following reaction, $4NH_{3(g)} + 5O_{2(g)} \rightarrow 4NO_{(g)} + 6H_2O_{(g)}$, is an example of a

A. Decomposition reaction
B. Combination reaction
C. Redox reaction
D. Neutralization reaction
E. Esterification reaction

(iv) An aqueous solution turns red litmus solution blue. Excess addition of which of the following solution would reverse the change?

A. Baking powder
B. Lime
C. Aqueous ammonia
D. Vinegar
E. Quick lime

(v) Oils on treating with hydrogen in the presence of nickel catalyst form fats. This is an example of

A. Oxidation reaction
B. Addition reaction
C. Displacement reaction
D. Substitution reaction
E. Precipitation reaction

(vi) Three elements T, Q and R, are in the same period of the periodic table. The oxide of T is amphoteric, the oxide of Q is basic and the oxide of R is acidic. Which of the following shows the elements arranged in order of increasing atomic number?

A. T, Q, R
B. Q, T, R
C. Q, R, T
D. R, T, Q
E. T, R, Q

Scanned with CamScanner

(vii) What happens when dilute sulphuric acid is poured on copper plate?

A. Zinc sulphate formed
B. Zinc chloride formed
C. Copper sulphate formed
D. Copper chloride formed
E. None of the above

(viii) The oxidation state of chlorine in potassium chlorate is

A. + 1
B. + 7
C. + 5
D. – 1
E. + 6

(ix) Ammonia gas is collected by which method among the following?

A. Downward displacement of water
B. Upward delivery
C. Downward delivery
D. Upward displacement of air
E. Collected over water

(x) Ten gram of copper powder were placed in a sealed initiation tube containing air. The tube was heated very strongly for half an hour. At the end of the experiment

A. Water vapour appeared in the tube
B. Undergoes decomposition
C. The total mass of the tube and its contents decreased
D. Copper melted into a liquid copper form
E. Copper increased in mass and changed in colour

2. Match the items in **List A** with the responses in **List B** by writing the letter of the correct response beside the item number in the answer sheet or booklet provided.

List A		List B
(i)	When air is pumped into test tube contain lime water, lime water turns milky	A. Water is used for extinguishing B. Oxygen and water/moisture C. Presence of Oxygen D. Fire triangle E. Presence of carbon dioxide F. Rusting G. Galvanization H. Class B fire I. Nitrogen
(ii)	Condition for iron to rust	
(iii)	Oxygen, Heat and Fuel	
(iv)	Coating of Iron or steel with Zinc	
(v)	Flammable liquids like petrol, alcohol and kerosene	

Scanned with CamScanner

SECTION B (70 Marks)

Answer **all** questions in this section

3. (a) The table below shows two brands of bottled water for drinking and the concentration of different mineral ions in each brand. Study the table and answer the questions below it.

Composition in mg/Litre	Mineral	Na^+	Ca^{2+}	Mg^{2+}	Cl^-	NO_3^-	SO_4^{2-}	Fe^{2+}	F^-
	Uhai	40.0	3.05	4.15	14.18	0.48	10.0	0	1.76
	Dasani	22.32	2.69	0.11	6.50	1.0	8.0	0	0.45

(i) Which brand of water is more hard? Explain.

(ii) State the benefit of having calcium ions in water;

(iii) Tap water is usually treated before being used. State what is added to perform that function.

(b) Hydrogen and phosphorus are non-metallic elements

(i) Which one between the two atoms is more electropositive?

(ii) Show your work clearly, write the chemical formula and the name of the compound formed when the two atoms combine.

4. One of the methods used for the preparation of oxygen is by the decomposition of hydrogen peroxide as shown in the reaction equation below

$$2H_2O_{2(l)} \xrightarrow{MnO_2} 2H_2O_{(l)} + O_{2(g)}$$

(a) (i) What is the purpose of MnO_2 in the reaction?

(ii) What will happen to the rate of the reaction if MnO_2 is not used in the above reaction?

(b) Briefly explain how the gas produced from the chemical reaction above is tested

5. (a) State the main raw materials and process involved in the manufacture of each of the following products

(i) Wood charcoal

(ii) Coke

(iii) Lamp black

(iv) Animal charcoal

(b) Name two main products formed when

(i) Hot concentrated sulphuric acid is added to sugar cane

(ii) Hot concentrated sulphuric acid is added to ethanol

6. (a) Define the following terms

(i) Mole

(ii) Molar mass

Scanned with CamScanner

(b) 112 dm^3 of oxygen gas was collected at S.T.P when a sample of lead nitrate was completely decomposed by heat. Calculate the volume of nitrogen dioxide produced.

7. A gaseous compound consists of 86% carbon and 14% hydrogen by mass. At s.t.p., 3.2 dm^3 of the compound had mass of 6 g. Calculate its molecular formula

8. (a) Study the following reaction equation

$N_{2(g)} + 3H_{2(g)} \rightleftharpoons 2NH_{3(g)}$ $\Delta H = -46.2\ kJmol^{-1}$

Use Le-Chatelier's principle, suggest how you would use temperature and pressure to obtain the highest production of ammonia at equilibrium

(b) The formation of methanol from hydrogen and carbon monoxide can be represented by

$CO_{(g)} + 2H_{2(g)} \rightleftharpoons CH_3OH$ $\Delta H = 91\ kJmol^{-1}$

What mass of hydrogen would react to cause a heat change of 91 kJ

9. (a) Give the meaning of the following terms
   (i) Soil pH
   (ii) Liming
   (b) (i) Explain why sulphur and its compounds are removed from the fuel before they are burned
   (ii) By using a reaction equation explain how propane differs from propene

10. (a) Outline any three uses of carbon dioxide gas in animals and plants
   (b) Complete the following reactions
   (i) $CH_2{=}CH_2 + O_2 \longrightarrow ?$
   (ii) $CaC_2 + 2H_2O \longrightarrow ?$
   (iii) $CH_4 + Cl_2 \longrightarrow ?$
   (iv) $C_2H_5OH + O_2 \longrightarrow ?$

11. (a) (i) What is the aim of having fume chamber in the chemistry laboratory?
   (ii) Why laboratory doors are open outward?

(b) State the use of the following

Item		Use
(i)	Cotton wool	
(ii)	Petroleum jelly	
(iii)	Pain killers	
(iv)	Bandages	
(v)	Razor blade	

Scanned with CamScanner

12. (a) With examples list four types of oxides
    (b) Give any three types of salts

SECTION C (15 Marks)

Answer **only one** question in this section

13. Explain six (6) methods of preventing water pollution

14. In certain chemical plant that deals with the production of hydrogen gas, a certain chemist passes an electric current in series through copper (II) sulphate and sulphuric acid solutions. In both electrolytes, inert electrodes were used. If 8400 cm^3 of hydrogen gas at S.T.P were produced for several hours, what volume of oxygen gas would also be produced? What mass of copper was produced?

BIOLOGY 1

Time: 3 HOURS

Tuesday, 4 August 2020 a.m.

Instructions

1. This paper consists of sections A, B and C with a total of **fifteen (15)** questions.
2. Answer **all** questions in sections A and B and **TWO** questions from section C in which question 13 is compulsory
3. All writing should be in blue or black pen, except for diagrams which must be in pencil
4. Cellular phones and any unauthorized materials are **not** allowed in the examination room.
5. Write your examinations numbers on every page of your answer sheet(s).

Scanned with CamScanner

SECTION A (15 Marks)

Answer all questions in this section

1. For each of the items (i) -(x), choose the correct answer among the given alternatives and write its letter beside the item number in the answer booklet provided

(i) Which of the following is the most important difference between plants and animals?
A Growth B Movement C Nutrition
D Sensitivity E Development

(ii) The following are the branches of biology. Identify one which is not
A Microbiology B Ecology C Genetics
D Science E Mycology

(iii) Which of the following specialized cells in plant is responsible for the high concentration of chloroplast responsible for photosynthesis?
A Chlorophyll B Palisade C Guard cell
D Root hair cells E Xylems

(iv) The following are examples of water borne diseases:
A Malaria and Bilharzias B Diarrhea and malaria
C Yellow fever and Typhoid D Cholera and Typhoid
E Malaria and Typhoid

(v) Mutual interaction between two species is described by which of the following statement?
A Both lives as parasite B Both benefit and flourish
C One harmed and the other benefit D Both neither benefit nor harmed
E Non –of the above is correct

(vi) A very young tadpole breath by means of
A Spiracle B Gills C Segments
D Nostril E Skin

(vii) Salome gets an accident and found that she could hardly maintain her body equilibrium. Which one among the following structures of her body was probably damaged?
A Cochlea B Medullar Oblongata C Semi secular canal
D pituitary canal E Auditorium canal

(viii) Pancreases secrete pancreatic juice which contain the following enzymes
A Bile, Lipase and Trypsin B Trypsin, Bile and Amylase
C Amylase, Trypsin and mucus D Renin, Trypsin and amylase
E Trypsin, mucin and lipase

(ix) -------- is the force responsible for pulling of water to the top of the tall trees
A Capillarity pull B Transpiration pull C Osmotic pressure
D Turgor pressure E Mass flow rate

(x) -------- and --------- grows into shoot and root respectively during seed germination

Scanned with CamScanner

A Plumule and Epicotyl
B Plumule and radicle
C Radicle and Plumule
D Seed and Hilum
E Epicotyl and plumule

2. Match the responses in List A with responses in List B by writing the letters of the correct response beside the item number in the answer booklet provided.

LIST A	LIST B
(i) Maintenance of constant internal environment	A. Diabetes mellitus
(ii) Examination of Amino Acid	B. Nephron
(iii) Blood capillaries within Bowman's capsule	C. Kidney
(iv) Sugar in urine	D. Glomerulus
(v) Functional unit of a kidney	E. Liver
	F. Diabetes Insipidus
	G. Regulation
	H. Homeostasis
	I. Urination
	J. Excretion

SECTION B (60 Marks)

Answer **all** questions in this section

3 (a) Name the locomotory organs of the following organisms
(i) Amoeba (ii) Euglena (iii) Man (iv) Earthworm
(b) Differentiate between movements and locomotion.

4 (a) (i) What are the raw materials for photosynthesis
(ii) List one product of photosynthesis
(b) State how the ileum is adapted for absorption function.

5 (a) Give four forms and shapes of bacteria
(b) Outline four economic importance of useful bacteria.

6. (a) Briefly explain the meaning of the following biological terms
(i) Seed germination (ii) Epigeal germination
(iii) Meristerms (iv) Primary growth in plants
(b) State four significances of water during seed germination.

7. (a) How could the body remove or destroy a bacterium that lands

Scanned with CamScanner

(i) on the cornea (ii) on the Hand (iii) on the bronchus (iv) in the stomach

(b) Explain why it is

(i) Not health to sleep in a closed room with many potted plants

(ii) Dangerous to sleep in a poorly ventilated room with a charcoal burner on.

8. (a) Write short explanation of the following terms
   (i) Excretion (ii) Neurone
   (b) Animal brain has different part with different functions, discuss the function of the following parts
   (i) Motor neurons (ii) Relay neurons
   (iii) Sensory neurons (iv) Medulla oblongata

9. (a) Explain the meaning of the following terms in relation to coordination
   (i) Reflex action
   (ii) Reflex arc
   (b) Distinguish between simple and Conditioned reflect action. Give four points.

10 (a) (i) Define Immunity

(ii) Distinguish between natural active immunity and artificially active immunity

(b)Name four diseases which children are immunized

11. (a) Explain the meaning of the following terms:

(i) Excretion (ii) Deamination (iii) Detoxification (iv) Secretion

(b) The following are the main excretory products in man carbon dioxide, excess water and Urea

(i) Name the major organs through which each is excreted

(ii) Name two substances that the body would be deficient following heavy sweating

12. (a) Elaborate any three traditional and three modern methods of food processing and preservation.

(b) Show clearly the importance of Breast- feeding in children (Give 3 points)

Scanned with CamScanner

SECTION C, 3 QUESTIONS

13. (a) Briefly discuss the following theories of origin of life.

(i) Special creation

(ii) Chemical evolution theory

(b) Outline Lamack's Theory of evolution and explain with specific examples why biologists dispute the theory today.

(c) Outline the main differences between Lamack's and Darwin's theories of evolution.

14. (a) What are the four major differences between Deoxyribonucleic acid (DNA) Ribonucleic Acid (RNA).

(b) A pure breeding pea plant with smooth seeds was crossed with pure breeding pea plant with wrinkled seeds

(i) Show the result of F1 and F2 on selfing F1 .

(ii) Work out the phenotypic and genotypic ratio of F2.

15. Write an essay on the transportation in plants using the following guidelines

(a)Meaning of transportation

(b)The importance of transportation

(c)The adaptation of features which enable the plant to reduce water loss.

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

FORM IV MOCK EXAMINATION 2020 DODOMA REGION

041 BASIC MATHEMATICS

(For Both School and Private Candidates)

Time: 3 Hours **Wednesday, 5th August 2020 a.m.**

Instructions

1. This paper consists of sections A and B with a total of **fourteen (14)** questions.
2. Answer all questions in section A and B. Each question in section A carries **six (6) marks** while each question in section B carries **ten (10) marks**.
3. All necessary working and answers for each question must be shown clearly.
4. NECTA mathematical tables may be used.
5. Cellular phones, calculators and any unauthorised materials are **not** allowed in the examination room.
6. Write your **examination number** on every page of your answer booklet(s)

Scanned with CamScanner

SECTION A (60 Marks)

Answer all questions in this section.

1. (a) If $a = 0.\dot{2}\dot{5}$ and $b = 0.\dot{5}$, find the fraction $\frac{a}{b}$ in its simplest form.

(b) Round off:
(i) 0.002098 to two significant figures
(ii) 7.67 to the nearest whole number
(iii) 2.77 to one decimal place

2. (a) Solve the value of x if $\left(\frac{1}{16}\right)^{x+2}\left(\frac{1}{32}\right)^{-x} = 1$

(b) If $\log 2 = 0.3010$, without using mathematical tables, find the value of $\log 5$

3. (a) A box contains 4 white balls and 5 black balls. Two balls are selected at random without replacement. Find the probability that

(i) Both are white balls

(ii) The first is black and the second is the white ball

(b) In a class of 15 students who take either Mathematics or Biology, 12 studentstake Mathematics, 8 students take Biology. If each student takes either subjects find by using formula the number of students who take Biology but not Mathematics.

4. (a) The gradient of line L_1 is -2. Another line L_2 is perpendicular to L_1 and passes through point (-3, -2). What is the equation of L_2?

(b) The distance between (1,5) and (k+5, k+1) is 8. Find K, given that it is positive

5. (a)The area of the triangle ABC is 140 cm^2, AB = 20, AC = 14cm, find the angle BAC

(b) Triangle XYZ is similar to triangle ABC and XY = 8 cm. If the area of the triangle XYZ is 24 cm^2 and the area of the triangle ABC is 96 cm^2. Calculate the length of AB.

6.(a) How many grams are there in 0.00912 tones

(b) The compression l of spring is directly proportional to the thrust, T exerted on it. If the thrust of 4N produces a compression of 0.8 cm, find:
(i) The compression when the thrust is 5 N
(ii) The thrust when the compression is 0.5 cm

7. (a) Maulid has to share eighty books with his young sisters Arafa and Jamila. He decided that for every two books Jamila gets, Arafa gets three books and he gets five books. Find the number of books each gets

(b) Kijembe started the business on 16th March, 2020 with capital in cash 2,066,000/=
March 17 bought goods for cash for 1,000,000/=
19 bought Shelves for cash 110,000/=

Scanned with CamScanner

20 sold goods for cash 900,000/=
21 purchases goods for cash 800,000/=
22 sold goods for cash 1, 400,000/=
26 paid rent 300,000/=

Record the above transactions in Cash account ledger and extract a Trial balance.

8. (a). The product of a three terms of a geometric progression (GP) is 8000. If the first term is 4. Find the second term and third term

(b). Mahona invested a certain amount of money in a Savings Bank whose interest rate was 10% compounded annually. After two years he got 5000 shillings.

i. How much did he invest at the start?

ii. How much did he receives as Interest at the end of two years.

9. (a) Find the value of

$$\frac{\sin(150^0)\cos(315^0)}{\tan(300^0)}$$ Without using mathematical tables

(b) Calculate the angles of a triangle which has sides of lengths 4m, 5m and 7m

10.(a). Given that $x^2 - y^2 = 27$ and $x + y = 9$ find the value of xy

(b). Solve the equation $2x^2 - 3x - 5 = 0$ by completing the square.

SECTION B (40 Marks)

Answer all questions

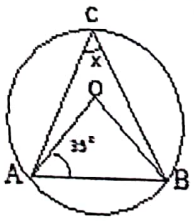

11. (a) The number of workers absent in 52 working days is given in a cumulative frequency table below

No.of absent	0 – 4	5 – 9	10 – 14	15 – 19	20 – 24	25 - 29
Cumulative frequency	5	13	30	45	48	52

Find (i) Percentage of workers who are absent at least for 20 days

(ii) Median

(b) Find the angle x in the figure below

Scanned with CamScanner

SECTION A (60 Marks)

Answer all questions in this section.

1. (a) If $a = 0.\dot{2}\dot{5}$ and $b = 0.\dot{5}$, find the fraction $\frac{a}{b}$ in its simplest form.

(b) Round off:
(i) 0.002098 to two significant figures
(ii) 7.67 to the nearest whole number
(iii) 2.77 to one decimal place

2. (a) Solve the value of x if $\left(\frac{1}{16}\right)^{x+3}\left(\frac{1}{32}\right)^{-x} = 1$

(b) If $\log 2 = 0.3010$, without using mathematical tables, find the value of $\log 5$

3. (a) A box contains 4 white balls and 5 black balls. Two balls are selected at random without replacement. Find the probability that

(i) Both are white balls

(ii) The first is black and the second is the white ball

(b) In a class of 15 students who take either Mathematics or Biology, 12 studentstake Mathematics, 8 students take Biology. If each student takes either subjects find by using formula the number of students who take Biology but not Mathematics.

4. (a) The gradient of line L_1 is -2. Another line L_2 is perpendicular to L_1 and passes through point (-3, -2). What is the equation of L_2?

(b) The distance between (1,5) and (k+5, k+1) is 8. Find K, given that it is positive

5. (a)The area of the triangle ABC is 140 cm^2, AB = 20, AC = 14cm, find the angle BAC

(b) Triangle XYZ is similar to triangle ABC and XY = 8 cm. If the area of the triangle XYZ is 24 cm^2 and the area of the triangle ABC is 96 cm^2. Calculate the length of AB.

6.(a) How many grams are there in 0.00912 tones

(b) The compression I of spring is directly proportional to the thrust, T exerted on it. If the thrust of 4N produces a compression of 0.8 cm, find:
(i) The compression when the thrust is 5 N
(ii) The thrust when the compression is 0.5 cm

7. (a) Maulid has to share eighty books with his young sisters Arafa and Jamila. He decided that for every two books Jamila gets, Arafa gets three books and he gets five books. Find the number of books each gets

(b) Kijembe started the business on 16th March, 2020 with capital in cash 2,066,000/=
March 17 bought goods for cash for 1,000,000/=
19 bought Shelves for cash 110,000/=

Scanned with CamScanner

12. (a)A ship sails from point A $(40°S, 30°W)$ due west along the same latitude topoint B for 1000km. Find the latitude and longitude of point B. Use R=6370km and $\pi = 3.14$ (give your answer in nearest degree)

(b) VABCD is a pyramid with VA=VB=VC=VD=5cm and ABCD is a square base of sides 4cm each. Assume that the centre of the base is at point N. Find

(i) The angle between VA and the base ABCD
(ii) The volume of the pyramid

13. (a)Find the value of t given that;

$\begin{pmatrix} 2t+2 & t \\ 4t-3 & t+3 \end{pmatrix}$ is a singular matrix

(b)Find the image of a line $x - 10y = 7$, when undergoes reflection at the line $x = y$ then translated at a factor $T = (-2, 2)$

14. (a). A function F is defined by the formula $f(x) = \sqrt{x}$ where x is a whole number

i. If $f(x) = 25$ find the value of x
ii. Find the value of $\frac{f(200)}{f(2)}$

(b). A craftsman wishes to decide how many of each type A and B charcoal stove he has to fabricate in order to maximize profit for this month. Unit profit for type A stove is shs. 1000 and Unit profit for type B is shs. 1500. Type A stove requires $1m^2$ of mild steel sheet per unit and type B requires $2m^2$. He has only 12 m^2 of mild steel available. He can fabricate a total of 8 stoves of either type per month. How many of each type should he fabricate?

Instructions

1. This paper consists of sections A, B and C with a total of eleven (11) questions
2. Answer all questions in sections A and B and two (02) questions from section C
3. Cell phones are not allowed in the examination room
4. Write your examination number on every page of your answer booklet(s)
5. Where necessary, the following constants may be used
   - Speed of sound in air = 340m/s
   - π or $(\pi) = 3.14$
   - Acceleration due to gravity, g = 10m/s^2 or 10N/kg

Scanned with CamScanner

SECTION A (15 Marks)

Answer all questions in this section.

1. For each of the items (i-x) choose the correct answer from among the given alternatives and write its letter beside the item number in the answer sheet(s) provided.

i Which pairs of instruments would you use to correctly measure the diameter of a small ball bearing?

A Measuring tape and Vernier caliper
B Slide rule and micrometer screw gauge
C Vernier caliper and sliderule
D Micrometer screw gauge and Vernier caliper
E Metre rule and micrometer screw gauge

ii Which phenomena is a result of the earth being exactly along the same line between the centre of the sun and the moon?

A Lunar eclipse B Penumbra
C Solar eclipse D Umbra
E reflection

iii A body moved upward a distance of 20m. Calculate the time taken to reach the maximum height

A 2s B 5s C 10s D 15s E 11s

iv The temperature of a certain liquid is measured to be 300k. What will be its temperature in degrees centigrade?

A273^0CB100^0CC 57^0CD 37^0CE 27^0C

v Which metals become strongly magnetized when subjected to a magnetic field?

A Nickel and copper B Zinc and aluminium
C Cobalt and ironD Aluminium and lead
E Iron and zinc

viThe mass of copper over the volume of copper is 8.9g/cm^3. What volume of 89g ofcopper?

A.10m^3B$10^{-5}cm^3$C1cm^3
D$10^{-5}m^3$E 100cm^3

vii A white shawl wrapped around a baby keeps the baby warm because the shawl

A Is a poor reflector B Is a poor radiator
C Has pockets of air trapped in it D Conducts heat to the baby
E Stops convectioncurrents

viii Two forces of 5N and 8N are acting at the same point and are inclined at an angle of $45^0$to each other. What will be their resultant force?

A 2N B 12N C 4N D 2N E 12N

ix The note from a plucked guitar will have a low pitch if the string is

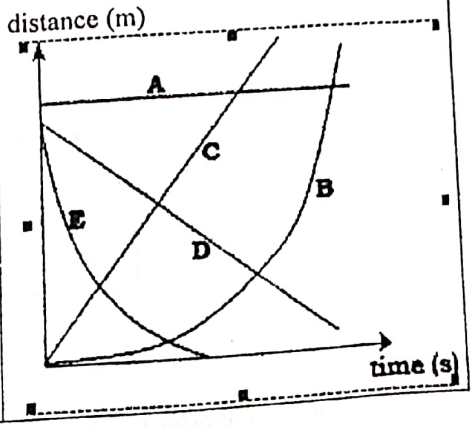

A Thick and long B Thick and slack C Thin and slack
D Thin and short E Thick and short

Scanned with CamScanner

x Which of the following device works on d.c. only?

A An electric bell
B A step-down transformer
C A transistor
D An induction coil
E A step-up transformer

2. Match the statements of the motion of bodies list A with the correct graph in list B by writing the letter of the correct response beside the item number. The response can be used more than one

LIST A	LIST B
i. Distance-time graph represent a motion of a stone released from rest from a tall building. ii. Distance-time graph represents a motion of a body moving with constant velocity iii. Velocity-time graph representing a motion of a car retarding uniformly after application of a brake. iv. Velocity-time graph for a body moving in a straight line with uniform velocity. v. Velocity time graph representing a motion of a body dropped freely vertical.	

SECTION B (60 Marks)

Answer **all** questions in this section.

3. (a) (i) What is meant by refraction of light?

(ii) Mention three points to be considered when drawing a ray diagram to show the formation of images on a concave mirror.

(b). (i) Briefly explain why pout of the road ahead of a person apparently looks as if it has a pool of water on a sunny day?

(ii) A pin is at the bottom of a vessel 16cm deep. When the vessel is filled with water the pin appears to rise when viewed from above. Find the height to which the pin appears to rise.

4. (a) Give two practical examples where impulse and momentum play an important role

(b)(i) Distinguish between elastic collision and inelastic collision.

(ii) A box of mass 50kg is raised vertically with a uniform acceleration "a" when a force of700 N is acting in a rope.Calculate the uniform acceleration

(c) (i) What are the similarities and differences between speed and velocity?

(ii) Sketch the diagram of a body which starts from rest and accelerate uniformly for sometimes to a constant velocity and then maintains this velocity for a certain period of time before decelerating uniformly to a stop.

Scanned with CamScanner

5 (a) Describe the four important features of a transformer that is designed so that as little energy as possible is wasted inside it (6 marks)

(b) Explain the four advantages of a.c. over d.c electricity (4 marks)

6 (a) The diagram below shows a circuit in which important components A and B are removed. Redraw a well labeledcircuit diagram for the circuit by replacing components A and B with their actual representations (5 marks)

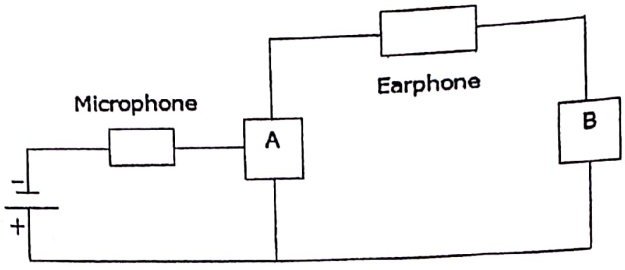

Figure 1

(b) In the production of x-rays what are the roles of low voltage and high voltage (5 marks)

7. (a) A duck remains floating at the same place as a wave passes by the water in a lake. Briefly explain why (5 marks)

(b) The beat frequency of two nearby equal frequencies is 6Hz. If one is loaded with wax the beat frequency becomes 4Hz. What is the frequency of the other note if the one note loaded is 250HZ? (5 marks)

8(a) (i) Distinguish between cathode rays and x-rays

(iii) With the help of diagram describe how x-rays are produced

(iv) What will be the speed of electrons emitted from the metal surface when 10J heat energy is required to cause them to escape from that's surface

(b) (i) Give the difference between nuclear reaction and chemical reaction

(ii) The half -life of a certain radioactive is 64 days. Explain the meaning of this statement.

(c) (i) A certain radioactive material has half -life of 2minutes. if the initial count rate is 256 per minute

(ii) How long does it take to reach a count rate of 32 per minutes?

(iii) What fraction of the original number of atoms is left undecayed?

Scanned with CamScanner

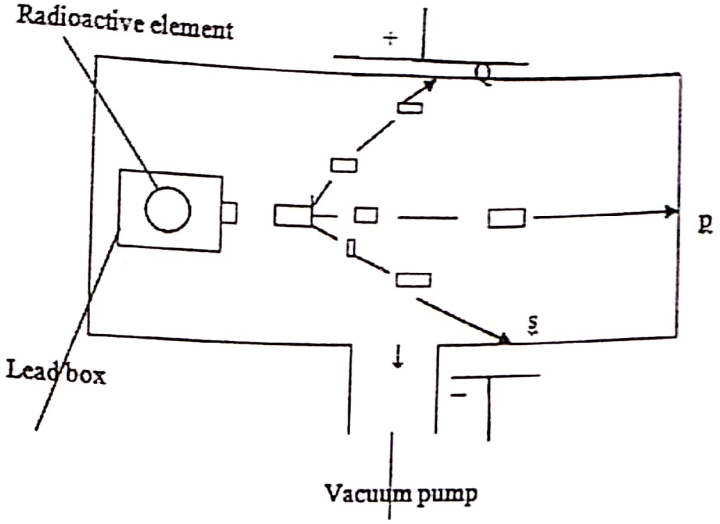

SECTION C (25 Marks)

Answer two (2) question from this section.

9(a). (i) What is meant by radioactive element

(ii) Name three instruments used to detect radiation from radioactive source.

(b) The figure below shows the deflection of radiations from a radioactive element by an electric field.

i. Identify the radiations Q, P and S giving reasons.

ii. Write three properties for each radiation.

(c) A sample containing 800g of iodine-131 undergo decaying process. How much the sample will remain undecayed after 40 days? (The half-life of iodine -131 is 8 days)

10. (a) (i) Give the difference between conductor, semiconductor and insulator using energy band concept

(ii) Explain the mechanism of doping and give the significance of doping

(iii) With the help of diagram distinguish transistor from diode

(b) Draw the circuit diagram of full wave rectifier using only two diodes

(c) Outline any two practical applications of electronics in our daily life

11. (a) Why is it advised to connect bulb in parallel arrangement during installation of electricity in most building? (5 marks)

(b) A dry cell can deliver a current of 0.15A when connected to a resistor. When another resistor is connected in series with the first the cell can only deliver a current of 0.08A through the combination. Calculate the e.m.f and internal resistance of the cell. (7.5marks)

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT

FORM IV MOCK EXAMINATION 2020 DODOMA REGION

024 LITERATURE IN ENGLISH

Time: 3:00 hours **Monday 10' August 2020 pm**

Instructions

1. This paper consists of section 'A',"B" and "C".
2. Read instructions under each section very carefully
3. Answer **all** questions from section "A" and "B" and three questions from section "C"
4. Cellular phones are not allowed in the examination room.
5. Write your examination number on every page of your answer sheet(s)

Scanned with CamScanner

SECTION A (15 Marks)

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter besides the number in the answer sheet given.

i. A term said to be the first form of literature because it began existing when human being started living together as a community with a common language for enhancing their communication.
A Drawings and painting B Written literature C. Oral literature
D . Philosophy E Synecdoche

ii. Which of the following element of literature does not belongs to a content?
A Philosophy B Theme C Message D Style E Conflict

iii. A device by which one element is thrown into opposition to another for the sake of emphasis or clarity is called
A Monologue B Euphemism C Contrast
D Allusion E Rhetorical question

iv. The use of other language different from the one employed in a literary work is refers as
A Pun B Metonymy C Allusion
D Analogy E Barbarism

v. One of the following aspects is **not** representing the role of literature in our society
A Pushing out B Educate C Criticizing
D Entertain E Liberate

vi. Peter scored 5% in literature subject and the teacher called him a cleverest student in class. What figure of speech can be used to express the attitude of teacher toward peter?
A Happiness B Wit C Sympathy
D Good E Irony

vii. It is a figure of speech in which either an inanimate object or an abstract concept is spoken of a thought it was endowed with life or with human attributes or feelings
A Litotes B Tautology C Personification
D Drama E Imagery

viii. A technique that is used to plot the events in a story where the last event may be at the beginning is called
A Narrator style B Descriptive style C Mixed order
D Flash back E Straight forward narration

ix. Which of the following is the type of drama aimed at entertainment?
A tragedy B Melo C Song D Comedy
E Melo – drama

x. Sociological novels, political novels, problem novels and propaganda novels are the type of novels that are called
A Thesis B Antithesis C Thesis novel
D Contrast E Ellipsis

Scanned with CamScanner

2. Match the descriptions in list A with the corresponding type of character in list B by writing the letter of the correct response beside the item number in the answer booklet provided.

A	B
(i)Protagonist	(a)Is a fictional representation of a person who caries realistic depiction psychologically
(ii)Biography	(b)Involves assessment and judgement of one's behavior
(iii)Character	(c)History of someone written by someone else
(iv)Exposition	(d)Is a story of someone's life written by himself
(v)Ballad	(e)Is a leading character in work of art
	(f)Is the beginning of the story
	(g)Is a narrative poetry with roots in oral tradition

SECTION B (40 Marks)

Answer **all** questions from this section

3. FORM AND CONTENT IN LITERATURE Answer all the questions from this section 3. Fill in the blank spaces provided with the correct literary term. (a) _____ An account of a tale or story. (b) _____ Re telling a story (c) _____The narrative re tales to what is taking place from the beginning to the end. (d) _____all knowing point of view (e) _____the central character tells the story his own words. (f) _____the end or middle part of the story is made or found at the beginning (g) _____ The time and place where a story is made. (h) _____ It is distinctive way in which a particular author writes. (i) _____ a style in which events in a story are narrated from the end (j) _____the most important and prominent character who often appears from the beginning to the end.

4. Read the following poem and answer the questions that follow:

A STRANGE WIND (Timothy Wangusa)

A strange wind is blowing,

dust fills our eyes;

We turn and walk the unintended way.

We press our sore eyes and reopen them

To expanded horizons, to a new day!

The narrow circle of our cherished experience breaks,

Our trusted gods dissolve and ghosts vanish,

Disembodied voices announce world news,

We see the hidden side of the moon,

Scanned with CamScanner

The dead man's eye transfers to the living,

The atom splits and the songbird croaks,

Economics opposes Charity,

Law protects nation shouts, and the big one brags,

Futile raids cease and global wars commence,

And the rude son strikes the father – a sword!

QUESTIONS

a. What do you think is the poem about?
b. How many stanzas are in this poem?
c. Comment on the type of poem.
d. What technique did the persona used in this verse "The dead man's eye transfers to the living,"
e. Comment on the tone or voice of the poem.
f. Identify **five (5)** major themes found in this poem.

5. Complete the following literary expression by writing a single word for each. (i) The musical drama in which the words are sung with an orchestra playing the music_____) (ii) Refers to an act of leaving out some words which the writer thinks that are less important or take large space_____) (iii) Refers to the person who speaks or narrates in a poem_____) (iv) Refers to the altitude of the writer_____) (v) Refers to the privilege which the poets are given to violet the grammatical rules of language_____) (vi) Refers to the use of the same or similar consonant sounds at the beginning of the consecutive words in a verse_____) (vii) Refers to a line in stanza_____) (viii) Refers to the pattern or movement of beats of stressed and unstressed syllables which imposes on words similar to the beats of music_____) (ix) Refers to the repetition of consonant sounds except it includes consonant sounds anywhere within the words_____) (x) Refers to the repetition of identical or similar vowel sounds in order to achieve an effect of music in the poem_____)

Scanned with CamScanner

6. Give short notes on the following literary terms.

(i) Hyperbole (ii) Euphemism (iii) Oxymoron (iv) Epigram (v) Irony

(vi) Personification (vii) Metaphor (viii) Litotes (ix) Dramatically irony (x) Archaism

SECTION C (45 Marks)

Answer **three (3)** questions from this section. Question **9** is compulsory.

LIST OF READINGS

Plays

The Lion and the Jewel	-	Soyinka, W.
The Trials of Brother Jero	-	Soyinka, W.
The Dilemma of a Ghost	-	Aido, A.A.
Kinjekitile	-	Ibrahim, H.
The Government Inspector	-	Gogol, N.

Novels

A Walk in the Night and Other Stories	-	La Guma, A.
Houseboy	-	Oyono, F.
The Old Man and the Medal	-	Oyono. F. The
Concubine	-	Amadi, E.

Poetry

Selected poetry institute of Education Growing up with poetry - David Rubadil

7. Development is the change from lower stage to higher stage but due to some cases development is hindered to some people. By referring to two plays you have read give **four points** from each to show how cultural issues are a hindrance to development in African societies.

8. Support the agreement that the title of the novel gives the view of what is happening in that particular society by giving **four points** from two novels of your choice.

9. Literary works bring to light a variety of issues pertaining to the society. Since the issues are derived from the society, they are always relevant to the society. Discuss by referring to two poems of your choice. (Give four points from each poem).

10. Choose two characters of your choice from two novels that you have read, name them and explain their positive contributions to their society.
