SEHEMU A (Alama 10)

UFAHAMU NA UFUPISHO

1. Soma kwa makini kifungu cha habari kifuatacho kisha jibu maswali yanayofuata.

Ustaarabu ni jambo jema ambalo hupendwa na kila mtu; katika jamii yenye utashi; hapa duniani. Kila jamii yenye ustaarabu mambo yake huendeshwa kwa kuzingatia kanuni na taratibu zinazoeleweka. Maamuzi na mafanikio mbalimbali miongoni mwa wanajamii hutolewa bila hamaki wala kukurupuka, kanuni na taratibu hizo huiongoza jamii kufikia upeo wake kimaendeleo kuanzia ngazi ya chini kabisa ambayo ni familia mpaka ngazi ya juu kabisa ambayo ni Taifa. Taratibu za kanuni hizo huwekewa kabisa chombo kimoja maalumu kinachoitwa katiba.

Katiba ni jumla ya sheria, kanuni na taratibu fulani zinazokubaliwa kuwekwa na jamii au taifa fulani kama dira ya maisha ya kila siku ya jamii au Taifa hilo. Taifa bila katiba ni sawa na behewa la gari moshi bila injini, hivyo katiba ina umuhimu wa kipekee katika Taifa lolote.

Katika nchi zenye utamaduni wa kidemokrasia, katiba huundwa kutokana na maoni ya wananchi wake kwa utaratibu maalum uliowekwa na Serikali; aghalabu maoni na mawazo yaliyotolewa na wananchi huwa ni chimbuko la katiba hiyo. Wananchi hujiona ni sehemu ya utawala kwa upande wa pili wa sarafu, nchi zenye utaratibu wa kiima. Katiba hutayarishwa na watawala kwa maslahi yao binafsi. Katiba hutumiwa kama sera kwa maslahi ya watawala maoni na mawazo ya wananchi katika kuandaa katiba.

Umuhimu wa katiba huonekana na kujiridhisha wazi wazi katika maisha ya kila siku ya wananchi ya nchi yeyote ile kwanza, katiba huelekeza wajibu wa kila mwanajamii kwa taifa lake na wajibu wa viongozi walio madarakani kwa wananchi au raia. Pili katiba huonesha na kuainisha haki ambazo kila raia anastahili kupata na pia za kufuata katika kudai na kupewa haki hizo, mbali na hayo, katiba hutoa utaratibu wa jinsi ya kupata viongozi wetu katika ngazi mbalimbali za kisiasa na kijamii. Pia uhuru wa mtu binafsi hulindwa na katiba. Isivyo katika nchi ambayo ina katiba inayokidhi matarajio ya wananchi wote ambao huwa mazuri na kamwe chombo hakiwezi kwenda mrama.

Aidha wananchi hawana budi kuelewa maana ya katiba ili waweze kutoa maoni na mapendekezo ya kuunda katiba mpya ili kuimarisha iliyopo. Ni muhali kwa mtu asiyejua maana ya katiba kutoa maoni kuhusu katiba. Wananchi hupaswa kuelimishwa kupitia semina, warsha na makongamano mbalimbali ili kujua katiba zao na kutoa maoni kuhusu uundaji wa katiba mpya.

Hata hivyo wananchi wengi hasa vijana hawajitumi katika kuzijua katiba za nchi zao za msingi, au kutoa maoni katika uundaji wa katiba mpya. Athari zake ni kutojua haki zao za msingi na kuburutwa kama mkokoteni na watawala katika mambo mbalimbali, vilevile hulalamikia mambo ambayo hawakutoa mawazo.

Isivyo basi ni vizuri kwa wananchi kutambua, kuthamini na kuheshimu uwepo wa katiba kama kiongozi mzuri katika kuonesha njia muafaka ya kujiletea maendeleo ya kisiasa, kijamii, kiuchumi na kiutamaduni hasa nchi husika.

MASWALI

(a) Toa maana ya maneno hapo chini kama yalivyotumika katika habari uliyosoma.
   (i) Utashi
   (ii) Hamaki
   (iii) Kiima
   (iv) Mrama

(b) Kwa mujibu wa habari uliyosoma taja mambo mazuri mawili yatokanayo na uwepo wa katiba katika nchi.

(c) Kwa nini mwandishi anasema katiba hutumiwa kama sera kwa maslahi ya watawala?

(d) Je, ni hofu gani aliyonayo mwandishi dhidi ya vijana kuhusu katiba?

(e) Andika kichwa cha habari uliyosoma kisichozidi maneno matano (5)

2. Fupisha habari uliyosoma katika swali la kwanza, kwa maneno yasiyopungua mia moja (100).

SEHEMU B (Alama 25)
SARUFI NA UTUMIZI WA LUGHA

3. (a) Eleza maana ya utohoaji.

   (b) Maneno yafuatayo yametoholewa kutoka lugha gani?
   (i) Picha
   (ii) Duara
   (iii) Shule
   (iv) Ikulu
   (v) Shati
   (vi) Wakili
   (vii) Bahasha
   (viii) Bendera

4. Chunguza sentensi zifuatazo kisha ziainishe.
   (a) Maisha ni safari ndefu
   (b) Yule aliyekuwa naye jana ndiye aliyekuibia leo.
   (c) Ningelikuja jana nisingelichelewa
   (d) Wanafunzi wangali wanaendelea kwenda kucheza mpira.
   (e) Alinunua madaftari lakini kitabu cha Kiswahili alipewa na mwalimu.

5. Mofimu huru zina hadhi ya neno, fafanua usemi huu kwa kutumia sentensi (5) tofauti.

6. (a) Rejesta ni nini?
   (b) Eleza mambo manne (4) yanayosababisha kutokea kwa rejesta.

7. Kwa kutumia mifano taja sababu tano za utata katika tungo.

SEHEMU C (Alama 10)
UANDISHI

8. Badili simu ifuatayo ya maandishi kuwa barua HALIMA SAID S L P 50 LIWALE NITAKUJA KWAKO MWEZI UJAO HELENA.

9. Taja mambo manne (4) ya kuzingatia katika kuandaa tangazo la biashara kwenye gazeti, kisha andaa tangazo kuhusu kupotelewa kwa mdogo wako ambaye jina lake ni AJUAYE JUAKALI.

SEHEMU D (Alama 10)
MAENDELEO YA KISWAHILI
Jibu swali la kumi (10)

10. Taasisi ya Elimu Tanzania na Taasisi ya Elimu ya watu wazima (TEWW) ni miongoni mwa asasi zilizoanza mara tu baada ya uhuru. Fafanua kazi tatu kwa kila moja katika kukua na kuenea kwa Kiswahili nchini Tanzania.

SEHEMU E (Alama 45)
FASIHI KWA UJUMLA

Jibu maswali matatu(3) kutoka katika sehemu hii. Swali la 15 ni la lazima

11. Fasihi simulizi ikihifadhiwa katika maandishi hupoteza uhai na uhalisia wake. Fafanua changamoto nne zinazoweza kujitokeza kwa kuhifadhiwa fasihi simulizi katika maandishi.
12. "Msanii ni kinda la jamii husika hivyo anayoandika huihusu jamii hiyo". Jadili kauli hii kwa kutumia hoja tatu kutoka katika kila diwani kati ya diwani mbili ulizosoma.
13. Migogoro ni suala lililojitokeza katika kazi mbalimbali za fasihi. Ukitumia riwaya mbili teule ulizosoma. Thibitisha kwa hoja tatu kutoka kila riwaya.
14. Waandishi wa kazi za fasihi wameonesha ustadi wa kutumia lugha katika utunzi wa kazi zao za fasihi. Onesha namna ukweli wa kauli hii unavyojidhihirisha katika tamthiliya mbili ulizosoma kwa hoja tatu kutoka kila tamthiliya.
15. (a) Nini maana ya ngonjera?
    (b) Andika ngonjera isiyopungua beti tano (5) kuhusu unyanyasaji wa kijinsia.

ORODHA YA VITABU TEULE

USHAIRI

WASAKATONGE	- M. S. Khatibu (DUP)
MALENGA WAPYA	- TAKILUKI (HP)
MASHAIRI YA CHEKACHEKA	- T. A. MVUNGI (EP&D. LTD)

RIWAYA

TAKADINI	- Ben Hanson (MBS)
WATOTO WA MAMA NTILIE	- E. Mbogo (HP)
JOKA LA MDIMU	- A.J. Safari (HP)

TAMTHILIYA

ORODHA	- Steven Reynold (MA)
NGOSWE PENZI KITOVU CHA UZEMBE	- E. Semzaba (ESC)
KILIO CHETU	- Medical Aid Foundation (TPH)

THE UNITED REPUBLIC OF TANZANIA

PRESIDENT'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
MOROGORO REGION
FORM FOUR MOCK EXAMINATIONS, 2019.

HISTORY

CODE: 012

TIME: 3HOURS **Wednesday 08 May, 2019 p**

INSTRUCTIONS

1. This paper consists of sections A, B and C.
2. Answer all questions in section A and B and three (3) questions from section C.
3. All drawings should be in pencil.
4. All writings should be in either blue or black pen.
5. Calculators, cellular phones and any unauthorized materials are NOT allowed in the examination room
6. Write your examination number on every page for your answer booklet(s)

SECTION A

Answer all questions in this section

1. For each of the items (i) – (x), choose the correct answer from among the given alternatives and write its letter beside the item number in the answer booklet provided.

(i) The cultural practices through which historical information can be obtained.
- A. Oral tradition, museums and archaeology
- B. Archaeology, funerals and oral tradition
- C. Superstitions, religion and riddles
- D. Archaeology, museums and archives
- E. Archaeology, funerals and riddles

(ii) The early man who started living in a communal life, domesticating animals and cultivating crops:
- A. Homo Habilis
- B. Zinjanthropus
- C. Homo erectus
- D. Homo Sapiens
- E. Austalopithecus

(iii) This is among the famous places for copper smelting in Africa
- A. Meroe
- B. Katanga
- C. Uvinza
- D. Tanga
- E. Bunyoro

(iv) The early traders from Far East and Middle East came in East Africa through the Indian ocean with the help of:
- A. Guide book known as periplus of the Erythraean sea
- B. Heavy weapons like guns
- C. Aid from their Home countries
- D. Monsoon winds
- E. Ocean currents

(v) One of the following wars demonstated unity and self determination among the Africans to liberate themselves from foreign domination in the early 20th century
- A. Mfecane
- B. Kaffir war
- C. Anglo – Boer war
- D. Afro – Boer war
- E. Maji maji war

(vi) One of the features of monopoly capitalism is
- A. Expansion of industrial production in the capitalist countries.
- B. Formation of big Africa monopolies
- C. Growth of small scale production in Europe
- D. Emergence of slave trade and slavery in Africa.
- E. Merging of bank capital and trade

(vii) The main purpose of building Uganda railway line was to:-
- A. Gain easy access to lake Victoria
- B. Provide cheap means of transport in East Africa
- C. Attract European settlers to Kenya
- D. Attack Hostile people and animals
- E. Compete with Germany railway builders

(viii) Among the following are weaknesses of Indirect rule EXCEPT:
A. Equal balances of development in the colonies
B. Turned African chiefs to puppets
C. The system created tribalism
D. Created social differences
E. It led to emergence of classes

(ix) One of the following best explains the reasons which made Mozambique to use force during her struggle for independence:-
A. It was under indirect rule policy
B. It was a settler colony
C. It adopted the open door policy
D. It was a mandated territory
E. It was a trusteeship territory

(x) The organization comprising of less developed countries in the world is called:
A. Non aligned movement
B. East African community
C. New partnership for African's Development
D. Organization of Africa unity
E. United Nations organization

2. Match the items in List A with the correct responses in List B by writing the letter of the corresponding response beside the item number in the answer booklet provided.

LIST A	LIST B
(i) The master and sevant act of 1906	A. Labour recruitment for plantations areas in Tanganyika.
(ii) SLABU	B. The introduction of new aspects in colonial economy to facilitate it.
(iii) Creation	C. Was the famous settler in Zimbabwe and Zambia settler economy
(iv) Labanese	D. Reffered to labour reserve areas in Tanganyika.
(v) Mono – culture	E. He was a colonial master in Zimbabwe and Zambia.
(vi) Cecil Rhodes	F. Was to force Africans to contribute their labour for ninety days per year to colonial economies in Kenya.
(vii) Northern Nigeria, Ghana and Uganda	G. Was only dealing with payments of wages to migrant labours in Tanganyika.
(viii) Njombe, Kigoma, Mbeya and Mtwara	H. It forced Africans to have the identity card "kipande" wherever they were in Kenya
(ix) Colonial processing and extractive industries.	I. Was one of the colonial economy features in plantation and settler economy.
(x) Witwatersrand	J. Was the establishment of taxation, money and hand hoe.
	K. Were the middlemen in colonial trade in West Africa.
	L. Was one of the colonial economy features in plantation, settler and mining economy.
	M. Was famous for gold production in South Africa.
	N. Were the middle men in colonial trade in East Africa
	O. Were popular for peasant economy during the colonial era.
	P. Was famous for diamond production in South Africa.
	Q. To substitute the goods in Africa which were formerly imported from abroad.
	R. Were popular areas for settler economy during the colonial period.
	S. To reduce balkness and weight of raw materials during colonial era

SECTION B

Answer all questions in this section

3. (a) Draw a sketch map of Africa and locate the following:
   (i) German East Africa
   (ii) Country in which Biafra war occurred
   (iii) The biggest Belgian colony in Africa
   (iv) A Portuguese colony of Mozambique
   (v) A country whose nationalist leader became her president and died in 1999
   (b) Outline five significances of Berlin conference.

4. (a) Arrange the following statements in chronological order by writing number 1 to 5 beside the item number in your answer booklet.
   (I) The peak of Mozambican nationalism movement was in 1962 when UDENAMO, UNAMI and MANU agreed to form a common party (FRELIMO)
   (II) After Mondlane's death, Samora Machel took over the leadership of FRELIMO.
   (III) By 1960, the Mozambican nationalists were getting inspirations from Kwame Nkuruma's archievements in Ghana, Julius Nyerere of Tanzania and the struggle for independence in Malawi and Zambia.
   (IV) The ensuring war ended when a coup in Lisbon in 1974 brought to power a new Portuguese government that pursued rapid decolonization.
   (V) By the end of the Second World War, a number of nationalists started to express their concerns about the brutal rule of the colonialists in Mozambique.

   (b) The items (i – v) consist of four sentences which form a complete historical meaning. One of the sentences (A – E) is incorrect. Identify the incorrect sentence and write its letter beside the item number.
   (i) 1. Jameson raid made the Boers fight against the British
   2. .....
   3. The intension of the raid was to overthrow the government of Paul Kruger in Transvaal.
   4. The raid aimed at supporting the Kitlanders who revolted against Kruger's government
   A. The raid was termed as the battle of Isandhlwana.
   B. Cecil Rhodes organized this raid
   C. The raid was organized by the George Goldie.
   D. It was supported by the British prime minister Mr. Gladstone
   E. The Boers were granted internal self government for domestic matters

   (ii) 1. During the British period, hospitals were concentrated in areas with dense labour force.
   2. These included the urban centres, settlers and company plantantions
   3. .....
   4. The same could be said for the health services offered along the major routes of migrant labourers
   A. They aimed at improving the standard of living of the Africans.
   B. The intention was to make the European inferior.
   C. They aimed at keeping colonial labourers fit for production.
   D. Africans wanted to justify the importance of their medicine.
   E. The British wanted to prevent the German from getting.

1. One of the factors for the rise of African nationalism was that, USA reinforced her open Door policy and supported decolonization process in Africa.
2. Pan Africanism in 1945, Manchester congress also demanded black's autonomy
3. The independence of Asian countries such as India and Pakistan fuelled the process of decolonization in Africa.
4. .....
   A. The African elites became politically conscious and formed political parties.
   B. Colonial intensive exploitation motivated Africans hatred and negative attitude against colonialism.
   C. Some Africans learnt from the world wars how to participate in struggles
   D. USSR supported decolonization process in Africa because of ideological reasons
   E. UNO was against decolonization and it strived for equality and human dignity.

)
1. Colonial education aimed at importing capitalist ideology to the recipients.
2. Its content was designed to produce the colonial relations of production.
3. .....
4. It provided only limited skills and emphasized obedience to the recipients.
   A. It aimed at serving the colonial state rather than indigenous people.
   B. It had more males enrolled than females.
   C. It was based on racial segregation.
   D. It had series of examination which were set abroad.
   E. It trained sons of chiefs so as to reproduce a royal European leadership.

)
1. In the course of time, the white settlers established themselves as stock farmer.
2. They farmed and at the same time kept cattle
3. Eventually, they were referred as Boers or Africaners.
4. .....
   A. Africaners developed their own language known as Africans
   B. Boers developed big cotton plantation and mining centres in the cape.
   C. They also spoke Spanish and Portuguese languages.
   D. They developed very big companies such as De Beer consolidated mines Ltd.
   E. Their arrival stimulated economic prosperity of the Xhosa and Khoikhoi

SECTION C

Answer only three (3) questions from this section

5. Explain six major changes in man's way of life during the late Stone Age in Africa.

6. How did the colonial government ensure constant supply of labour in their colonies in East Africa?

7. What were the measures taken by European powers to reduce the impact of great depression on the colonies.

8. With concrete examples, assess six contribution of ex – soldiers to the rise of nationalism in Africa.

9. Analyse six problems facing African countries that originated from their colonial heritage.

10. Examine six factors which determined the nature of Africans reaction against colonial invasion.

XX

SECTION C

Answer only three (3) questions from this section

5. Explain six major changes in man's way of life during the late Stone Age in Africa.

6. How did the colonial government ensure constant supply of labour in their colonies in East Africa?

7. What were the measures taken by European powers to reduce the impact of great depression on the colonies.

8. With concrete examples, assess six contribution of ex – soldiers to the rise of nationalism in Africa.

9. Analyse six problems facing African countries that originated from their colonial heritage.

10. Examine six factors which determined the nature of Africans reaction against colonial invasion.

SECTION A (20Marks)

Answer all questions in this section

1. For each of the items (i) – (x), choose the correct answer from the given alternatives and write its letter beside the item number.

(i) Given the commercial concentrated sulphuric acid of 98% and density of $1.84g/cm^3$, the volume of concentrated acid required to prepare 2 litres of 0.2M H_2SO_4 solution is:

A. $1840cm^3$
B. $18.02cm^3$
C. $21.80cm^3$
D. $2000cm^3$
E. $1.84cm^3$

(ii) Which of the following represents the reaction in which carbon burns in limited supply of air/oxygen

A. $PbO_{(s)} + C_{(s)} \xrightarrow{\Delta} Pb_{(s)} + C_{(s)}$
B. $C + O_{2(g)} \xrightarrow{\Delta} CO_{2(g)}$
C. $Fe_3O_{4(s)} + 4CO_{(g)} \xrightarrow{\Delta} 3Fe_{(s)} + 4CO_{2(g)}$
D. $2C_{(s)} + O_{2(g)} \xrightarrow{\Delta} 2CO_{(g)}$
E. $MgO_{(s)} + C_{(s)} \xrightarrow{\Delta} Mg_{(s)} + CO_{(g)}$

(iii) It is found that 2.8g of iron displaces 10.8g of silver from silver nitrate solution. Therefore the ratio of the number of reacting particles of iron to silver is:

A. 1:1
B. 2:3
C. 2:1
D. 1:2
E. 3:4

(iv) Which of the following series of species have the same number of electrons?

A. K, Ar, Cl^-
B. K^+, Ar, Cl
C. K^+, Ar, Cl^-
D. K, Ar, Cl
E. K, Ar^+, Cl

(v) Which of the following compounds is not an alkane?

A. C_2H_6
B. C_3H_6
C. C_4H_8Cl
D. C_5H_{12}
E. C_7H_{16}

(vi) Consider the reaction below:

$$N_{2(g)} + 3H_{2(g)} \rightleftharpoons 2NH_{3(g)} \quad \Delta H = -46.2kJ/mol$$

The reaction is

A. Endothermic
B. Exothermic
C. Additional reaction
D. Replacement reaction
E. Irreversible reaction

(vii) What is the name of the gas produced when dilute hydrochloric acid is dropped slowly on an egg's shell?

A. Hydrogen chloride
B. Sulphur dioxide
C. Hydrogen suphide
D. Carbon dioxide
E. Carbon monoxide

(viii) The most electronegative element in the periodic table is:

A. Chlorine
B. Oxygen
C. Nitrogen
D. Fluorine
E. Hydrogen

(ix) Which among the following is the method used to separate crude oil?

A. Simple distillation
B. Winnowing
C. Decantation
D. Evaporation
E. Fractional distillation

(x) A student whose hands are spilled out by an acid in the laboratory should ..... as First Aid.

A. Rinse the affected area by a dilute acid
B. Rinse the affected are by a piece of cloth or cotton wool
C. Wash the affected area by a strong base
D. Wash the affected area by running water
E. Wash the affected area by a concentrated alkaline solution.

2. Match the items in List A with the correspondence responses from List B

List A	List B
(i) Three factors upon which the masses of a substance liberated at an electrode during electrolysis depends	A. Electrolysis of copper (II) sulphate solution using carbon electrodes
(ii) The mass of a substance in gramme liberated at the electrode during electrolysis when the quantity of charge flowing through the electrolyte in one coulomb.	B. Concentration of ions, position of ion or atom in electro – chemical series and nature of electrodes.
(iii) The blue colour fades gradually and finally the solution becomes colourless.	C. Faraday's First law of electrolysis
(iv) An electrode through which the electrons enter the electrolyte and by which the current leaves the electrolyte	D. Faraday
(v) Quantity of electricity passed when one ampere flows in one second.	E. Amount of current, duration of current flow and number of charge on the ion.
(vi) An electrode through which electrons leave the electrolyte and by which the current enters the electrolyte.	F. Electrolysis of copper (II) sulphate using copper electrodes
(vii) Electrode (half) reaction in which the electrons are written on the right hand side.	G. Oxidation half reaction/ equation
(viii) In this series calcium is below sodium.	H. Reactivity series
(ix) Three factors affecting the discharge of ions during electrolysis	I. The quantity of electric charge carried by one mole of electrons.
(x) Faraday.	J. Mass, length and time
	K. Lower series
	L. Faraday's second law of electrolysis
	M. Electrochemical equivalent
	N. Ions
	O. Anode
	P. Extraction of oil from groundnuts
	Q. Chemical equivalent
	R. Cathode
	S. Reduction half reaction/ equation
	T. coulomb

(viii) The most electronegative element in the periodic table is:

A. Chlorine
B. Oxygen
C. Nitrogen
D. Fluorine
E. Hydrogen

(ix) Which among the following is the method used to separate crude oil?

A. Simple distillation
B. Winnowing
C. Decantation
D. Evaporation
E. Fractional distillation

(x) A student whose hands are spilled out by an acid in the laboratory should ..... as First Aid.

A. Rinse the affected area by a dilute acid
B. Rinse the affected are by a piece of cloth or cotton wool
C. Wash the affected area by a strong base
D. Wash the affected area by running water
E. Wash the affected area by a concentrated alkaline solution.

2. Match the items in List A with the correspondence responses from List B

List A	List B
(i) Three factors upon which the masses of a substance liberated at an electrode during electrolysis depends	A. Electrolysis of copper (II) sulphate solution using carbon electrodes

	K. Lower series
	L. Faraday's second law of electrolysis
	M. Electrochemical equivalent
	N. Ions
	O. Anode
	P. Extraction of oil from groundnuts
	Q. Chemical equivalent
	R. Cathode
	S. Reduction half reaction/ equation
	T. coulomb

SECTION B (54Marks)
Answer all questions in this section

3. (a) Explain the following chemical phenomena:
   (i) When hydrochloric acid is added to the lead oxide, the reaction starts then stops after a short time.
   (ii) When exhaled air is blown through lime water, the lime water turns milky
   (b) Explain the following reactions giving one example in each.
   (i) Decomposition reaction
   (ii) Single displacement reaction

4. Study the information in the table below and answer the questions that follow. The letters do not represent the actual symbols of the elements

ELEMENT	ATOMIC NUMBER
P	1
R	8
T	11
V	17
W	19

   (a) Write the electronic configuration of the probable ion of element V.
   (b) Which two elements have similar chemical properties? Explain.
   (c) What is the most likely formula of the oxide of element P?
   (d) In which group and period of the periodic table does element W belong?
   (e) Element W loses its outer most electrons more readily than element T. Explain.

5. (a) (i) Write two (2) compounds from which sodium metal is extracted.
   (ii) Give the main function of calcium chloride in the extraction of sodium.
   (iii) Why longer electrodes are used in the extraction of sodium from molten sodium chloride?
   (b) Draw a well labeled diagram of Down's cell.

6. (a) (i) Mention any three features of a good chemistry laboratory
   (ii) Briefly explain three reasons why basic laboratory apparatus are made of glass.
   (b) Account for the following:
   (i) Sodium is kept in paraffin oil.
   (ii) Anhydrous copper (II) sulphate becomes coloured when exposed to air for a long time.
   (iii) Carbon dioxide can be collected by downward delivery method.

7. (a) Explain what is meant by the following
   (i) A homologous series
   (ii) Unsaturated hydrocarbons

SECTION B (54Marks)

Answer all questions in this section

3. (a) Explain the following chemical phenomena:
   (i) When hydrochloric acid is added to the lead oxide, the reaction starts then stops after a short time.
   (ii) When exhaled air is blown through lime water, the lime water turns milky
   (b) Explain the following reactions giving one example in each.
   (i) Decomposition reaction
   (ii) Single displacement reaction

4. Study the information in the table below and answer the questions that follow. The letters do not represent the actual symbols of the elements

ELEMENT	ATOMIC NUMBER
P	1
R	8
T	11
V	17
W	19

   (a) Write the electronic configuration of the probable ion of element V.
   (b) Which two elements have similar chemical properties? Explain.
   (c) What is the most likely formula of the oxide of element P?
   (d) In which group and period of the periodic table does element W belong?
   (e) Element W loses its outer most electrons more readily than element T. Explain.

5. (a) (i) Write two (2) compounds from which sodium metal is extracted.
   (ii) Give the main function of calcium chloride in the extraction of sodium.
   (iii) Why longer electrodes are used in the extraction of sodium from molten sodium chloride?
   (b) Draw a well labeled diagram of Down's cell.

6. (a) (i) Mention any three features of a good chemistry laboratory
   (ii) Briefly explain three reasons why basic laboratory apparatus are made of glass.
   (b) Account for the following:
   (i) Sodium is kept in paraffin oil.
   (ii) Anhydrous copper (II) sulphate becomes coloured when exposed to air for a long time.
   (iii) Carbon dioxide can be collected by downward delivery method.

7. (a) Explain what is meant by the following
   (i) A homologous series
   (ii) Unsaturated hydrocarbons

(iii) Isomerism

(b) Write the open structures of the following;

(i) 2, 3 – dimethylbutane

(ii) 2, 3, 4 – trimethylhex – 2 – ene

(iii) Tetrachloromethane

8. (a) What is meant by the terms fuel?

(b) A certain mass of kerosene was burnt in a burner and raised the temperature of 2000cm^3 of water from 0°C *to* 24.5°C.

(i) Calculate the mass of water heated.

(ii) Determine the quantity of heat Q liberated by kerosene

9. (a) Give the meaning of the following

(i) Titration

(ii) End – point

(b) 25.17cm^3 of sulphuric acid reacted completely with 25.00cm^3 of sodium hydroxide of 0.1M. The experiment was done using methyl orange indicator.
Determine the

(i) Molar concentration

(ii) Mass concentration

10. (a) Define the following terms:

(i) Empirical formula

(ii) Molecular formula

(b) Determine the empirical formula of a substance that has the following composition by mass 49.5% manganese and 50.5% oxygen.

11. (a) Name the process that can be used to separate the following substances:

(i) Oil from seeds

(ii) Kerosene from water

(b) Write the names of the following processes of changing matter from one state to another

(i) Gas to liquid

(ii) Gas to solid

(iii) Solid to gas

(iii) Isomerism

(b) Write the open structures of the following;

(i) 2, 3 – dimethylbutane

(ii) 2, 3, 4 – trimethylhex – 2 – ene

(iii) Tetrachloromethane

8. (a) What is meant by the terms fuel?

(b) A certain mass of kerosene was burnt in a burner and raised the temperature of 2000cm^3 of water from 0°C *to* 24.5°C.

(i) Calculate the mass of water heated.

(ii) Determine the quantity of heat Q liberated by kerosene

9. (a) Give the meaning of the following

(i) Titration

(ii) End – point

(b) 25.17cm^3 of sulphuric acid reacted completely with 25.00cm^3 of sodium hydroxide of 0.1M. The experiment was done using methyl orange indicator.
Determine the

(i) Molar concentration

(ii) Mass concentration

10. (a) Define the following terms:

(i) Empirical formula

(ii) Molecular formula

(b) Determine the empirical formula of a substance that has the following composition by mass 49.5% manganese and 50.5% oxygen.

11. (a) Name the process that can be used to separate the following substances:

(i) Oil from seeds

(ii) Kerosene from water

(b) Write the names of the following processes of changing matter from one state to another

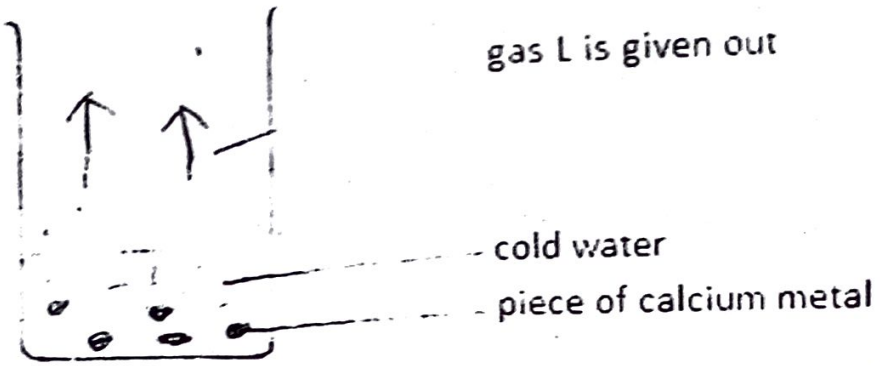

(i) Gas to liquid

(ii) Gas to solid

(iii) Solid to gas

SECTION C (26Marks)
Answer both questions in this section

12. Study the experiment below then answer the questions that follow:

(a) (i) Write the balanced chemical equation for the reaction which takes place in the beaker above

(ii) Name gas L

(b) (i) Write the balanced equation for the reaction which occurs between gas L and heated copper (II) oxide.

(ii) Mention the property of the gas L which caused the reaction in (b)(i).

(c) (i) Mention four (4) uses of gas L.

(ii) How can you test the gas L?

13. (a) (i) Define the terms terrestrial pollution.

(ii) Give three materials that contribute to terrestrial pollution .

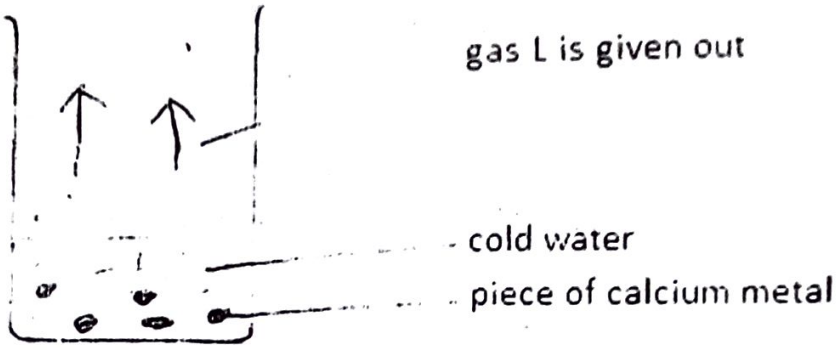

(b) (i) Does the depletion of ozone layer affect the life of living organisms? Why? Give four (4) points to support your answer.

(ii) Mention three (3) gases which cause acid rains.

XX

SECTION C (26Marks)
Answer both questions in this section

12. Study the experiment below then answer the questions that follow:

(a) (i) Write the balanced chemical equation for the reaction which takes place in the beaker above

(ii) Name gas L

(b) (i) Write the balanced equation for the reaction which occurs between gas L and heated copper (II) oxide.

(ii) Mention the property of the gas L which caused the reaction in (b)(i).

(c) (i) Mention four (4) uses of gas L.

(ii) How can you test the gas L?

13. (a) (i) Define the terms terrestrial pollution.

(ii) Give three materials that contribute to terrestrial pollution .

(b) (i) Does the depletion of ozone layer affect the life of living organisms? Why? Give four (4) points to support your answer.

(ii) Mention three (3) gases which cause acid rains.

THE UNITED REPUBLIC OF TANZANIA

PRESIDENT'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
MOROGORO REGION
FORM FOUR MOCK EXAMINATIONS, 2019.

ENGLISH LANGUAGE

CODE: 022

TIME: 3:00HOURS

Thursday 09th May, 2019 pm

INSTRCTIONS

1. This paper consists of section A, B, C and D, with a total of fourteen (14) questions.
2. Answer all questions in sections A and B; and section C and D as instructed under each section.
3. Cellular phones, calculators and any unauthorized materials are not allowed in the examination room.
4. Write your Examination Number on every page of your answer booklet(s).

SECTION A (10Marks)
COMPREHENSION AND SUMMARY

1. Read the passage below carefully then answer the questions that follow.

Half the world does not have enough food to eat. Each year, as a result, many millions die young, as surely as if shot by the guns of a tyrant. Many more are maimed for life by hunger, in body or in spirit.

We say to you, this suffering can and must be stopped. When all of us, whether we live with it or far away in the rich, well-fed countries, make up our minds to end this hunger...

The earth is ruled mainly by people out of touch with the young world. They know that men starve and die in millions. But they think it is more important to make guns, bombs, warships, rockets, to send us to fight one another, than to provide seed and water, schools and hospitals, so that we might feed and serve one another...

If you live in a poor country, demand adequate food for your fellows. Do not turn your backs on the land and people who provide the food; instead work with them for rural development. Plan with them, so that starting with what little they have, they themselves can develop in body and spirit.

If you are educated in special knowledge and skills, do not accept the old priorities. Know that science and technology, that can send men into space, need only to be released into the poor lands to work even greater miracles. See that your skills are used to help the needy.

If you are a young parent, resolve to end the suffering of children. Know, too, how to plan the size of your family, so that the progress of all is not compromised.

Let us all make plain to the rulers that the division of the world into rich and poor must end and that we know that efforts equivalent to the many billions of dollars wasted on armaments are needed to develop the world. Let them know, too, that if political or financial systems prevent a just distribution of food and wealth, those systems must be replaced.

Above all we must show our willingness to work for the world development, and demand that we be given the opportunity to do so. Mankind is one family in which each of us has a duty to help the other.

QUESTIONS:

(a) Choose the correct answer from the given alternatives and write its letter in the answer booklet provided.

(i) Young people in developing countries are asked to

A. Become educated and migrate to a developed country which can make use of their skills.
B. Help establish space research centres in their countries if they are educated.
C. Rise up against unjust politicians and kill them.
D. Improve the spiritual health of rural people by converting them to Christianity and Islam.
E. Use their ability to help their people.

(ii) Young parents are asked

A. Not to have any children because overpopulation prevents progress.
B. To have only the number of children that the society can support without hindering its advance.
C. To use all types of birth control to regulate the size of their families.
D. Not to have any more children than they have at present.
E. To take suffering children to doctors for medical attention.

(iii) Rulers, according to this passage must learn that

A. Food should be made available equitably and that spending on arms is a waste.
B. They risk their lives if they do not distribute wealth justly.
C. The world should be united into one state.
D. International barriers to trade should be removed.
E. All their political institutions should be replaced.

(iv) The most suitable title for this passage would be

A. The main causes of Pain and Evil.
B. The fight against Unjust Rulers
C. How starvation and guns of Tyrants kill many people each year.
D. The fight against hunger.
E. How ignorance and population growth prevent world progress.

(b) From the sentences in *italic*, mention two things that the writer is trying to advise the rulers:

(i) .....

(ii) .....

2. Read and summarise the following passage in five sentences in a single paragraph.

All matter, all things can be changed in two ways: chemically and physically. Both chemical and physical changes affect the state of matter. Physical changes are those that do not change the make – up or identify of the matter. For example, clay will

bend or flatten if squeezed, but it will still be clay. Changing the shape of clay is a physical change, and does not change the matter's identity. Chemical changes turn the matter into a new kind of matter with different properties. For example, when paper is burnt, it becomes ash and will never be paper again

SECTION B (20 marks)
PATTERNS AND VOCABULARY
Answer all questions

3. Re-write the following sentences according to the instructions given after each.
   (a) I did my homework yesterday. (supply the correct question tag for the sentence)
   (b) My father is a teacher. My mother is a teacher. (Join the sentences using *both.....and.....*)
   (c) Rose is tall like James. (Rewrite the sentence using *as.....as.....*)
   (d) She likes ugali more than rice. (Begin: She prefers.....)

4. Correct the wrongly spelt word in the sentences below.
   (a) I fill cold
   (b) I eight being looked down upon.
   (c) Their are many antelopes at the zoo.
   (d) I went to the shop to buy a march box.

5. Read the passage and then fill in the blanks with the correct family relationship name.

Halima and Hassan have three children: two daughters and a son. Their daughters' names are Rehema and Hadija and their son's name is Saidi. Hadija is married. Her husband is called Mohamed. Mohamed and Hadija have two children: a boy and a girl. Their daughter's name is Salama and their son's name is Shukran.

   (a) Hadija is ..... to Mohamed.
   (b) Salama is ..... to Saidi.
   (c) Shukran is ..... to Halima.
   (d) Rehema is ..... to Mohamed.

6. Write the correct forms of the words given in brackets to fill in the blank spaces.

Reuben (a)..... (drive) his car very fast. He (b)..... (be) not cautious on the road. Last week he (c)..... (knock) down a boy who was (d) ..... (come) from school.

7. Write one paragraph from Susan's diary.

Date	Monday 8th February 2019
8.00 am	Visit the library
12.00 noon	Lunch
12.30 p.m.	Journalism club meeting
4.30 p.m.	Play hockey in the field

SECTION C (30 MARKS)
LANGUAGE USE

Answer questions 8, 9 and two of the four given alternatives in question 10.

8. Rearrange the following five sentences into a logical sequence to make a meaningful paragraph by writing the corresponding letter in the answer booklet provided. Use the following format for your answers.

Sentence number	1	2	3	4	5
Letter					

A. Neither one said anything as Berta got on the bicycle and started to ride it around the yard.
B. Josie tried to keep a straight face, smiled, giggled, then laughed uncontrollably because she had never seen anyone riding a bicycle that had one square wheel.
C. Berta was so busy hammering at the damaged wheel that she did not hear her friend come into the yard.
D. As she did so, she became aware of Josie.
E. She gave the wheel a few more blows, put down the hammer and pick up the bicycle.

9. Match the expressions in **List A** with the correct word from **List B** by writing the corresponding letter beside the item number in the answer booklet(s) provided. Use the following format for your answers.

Number	i.	ii.	iii.	iv.	v.
Letter					

List A	List B
i. A ..... of people waited for the president. ii. The hospital ..... have gone on strike. iii. There was a ..... of newspaper at the corner of the room. iv. Pastoralists normally keep ..... of sheep. v. The chairs were arranged in a neat ..... at the back of the room.	A. Pride B. Pile C. Crowd D. Flock E. Clutter F. Stack G. Staff

10. Answer **two** questions from the four alternatives A, B, C, and D.

A. Write a composition of not less than 250 words with the title, **"Protecting the environment is a responsibility of all of us."** (Give eight points)

B. You have a class debate on the motion, *"Only weak-minded take drugs.* Prepare a speech of not less than 250 words to support the motion. (Give seven points)

C. Write a composition of not less than 250 words on a wedding you attended. (Give eight points)

D. Write an invitation card inviting your former primary school friend to attend your upcoming graduation ceremony.

SECTION D (40 Marks)
RESPONSE TO READING

Answer **two** questions from this section. **One** question should be selected from poetry and the other from novels and short stories or plays.

LIST OF READINGS

NOVELS AND SHORT STORIES

A Wreath for Fr. Mayer - S.N. Ndunguru (1977), MkukinaNyota

Unanswered Cries - Osman Conteh, Macmillan

Passed Like a Shadow - B.M Mapalala (2006), DUP

Spared - S.N. Ndunguru (2004), MkukinaNyota

Weep Not Child - NgugiwaThiong'o (1987); Heinemann

The Interview - P. Ngugi (2002), Macmillan

PLAYS

Three Suitors: One Husband	-	O. Mbia (1994), Eyre Methuen
The Lion and the Jewel	-	W. Soyinka (1963), OUP
This Time Tommorrow	-	NgugiwaThiong'o (1972), Heinemann
The Black Hermit	-	NgugiwaThiong'o (1968) Heinemann

POETRY

Songs of Lawino and Ocol	-	O. P'Bitek (1979), EAPH
Growing up with Poetry	-	D. Rubadiri(ed) (1989), Heinemann
Summons	-	R. Mabala (1980), TPH

11. Read the following poem and then answer the questions that follow

There are only white women around:
Awful fakes of white females
Reflecting an awful mass of ugliness:
And I want a lady
To mount the rostrum with
And declare to the world:
'black is beautiful!"

Yes,
I want a black beauty queen
With ebony thighs and huge hips
With skin sweating blackness
And a face dark as the night
And bare breasts bouncing
Vigour and energy.

But my eyes, oh my eye!
They don't see anything black;
It's only white skins and masks
Flashing past and slashing,
Destroying my sight so
I can't get what I want.

I cry and sing to them
The inbred tune of people
I shout to them in the black tongue
But no black sister hears me;
Only white masks I see.

I turn and weep upon myself
And then, only then I realise:
I am not black either.

Questions:

(a) What is the poem about?
(b) How many stanzas are in the poem?
(c) How many verses are in the poem?
(d) Who is the persona in the poem?
(e) Comment on the language used in the poem.
(f) Mention two possible themes in the poem
(g) Is the poem relevant to the society? Explain
(h) What is the mood of the persona?
(i) What do we learn from the poem?
(j) What type of poem is this?

12. Differentiate poetry from other readings like novels. Give eight points, four from each genre)

13. Women are pillars of their families in most African societies. Validate this contention referring to two plays you have done. Give four points from each reading.

14. "Most novelists tend to use their books' titles to reflect what is inside the book". Justify this statement using two novels you have done under this section, giving four points from each reading.
