SECTION C (45 Marks)

Answer **three (3)** questions from this section

6. By using six points, explain why, Europeans Succeeded to conquer Africa.
7. How Africa effected by 1930's Economic depression? Give six reasons.
8. With not more than six (6) reasons, explain why Africa is underdevelopment.
9. Use Zanzibar your case to explain **four (4)** voting qualifications imposed by colonial governments.

OFISI YA RAIS

TAWALA ZA MIKOA NA SERIKALI ZA MITAA - TAMISEMI

MKOA WA PWANI

MTIHANI WA UTAMILIFU KIDATO CHA NNE 2020

021 **KISWAHILI**

Muda: saa 3 **Jumatano, 12/08/ 2020 Asubuhi**

Maelekezo

1. Karatasi hii ina sehemu A, B, na C zenye jumla ya maswali **kumi na mbili (12)**
2. Jibu maswali yote katika sehemu A na B na maswali **matatu(3)** katika sehemu C.
3. Zingatia maagizo ya **kila sehemu** na ya **kila swali**.
4. Simu za mkononi na vitu vyote visivyoruhusiwa **havitakiwa** katika chumba cha mtihani.
5. Andika **Namba yako ya Mtihani** katika kila ukurasa wa kijitabu chako cha kujibia.

Mtihani huu una kurasa tano zenye maandishi

SEHEMU A (Alama 15)

Jibu maswali **yote** katika sehemu hii.

1. Chagua herufi ya jibu sahihi katika vipengele (i) - (x) kisha andika herufi ya jibu hilo katika kijitabu chako cha kujibia.

(i) Tarihi ni moja kati ya vipera vya hadithi ambavyo huelezea kuhusu;
   a) Asili ya vitu kama vile milima ,mito,wanyama n.k
   b) Kuonya kuhusu maisha ya watu
   c) Makosa na uovu wa watu na kueleza maadili yanayofaa
   d) Kuelezea matukio ya kihistoria.

(ii) Ni sentensi ipi ina vishazi tegemezi?
   (a) Nikisoma vema nitafaulu mitihani
   (b) Gari lililonunuliwa juzi limeungua
   (c) Mwalimu ana kitabu lakini mwanafunzi hana
   (d) Tujenge Taifa letu

(iii) Moja kati ya zifuatazo sio tabia ya vitenzi
   (a) Kuonesha njeo
   (b) Kuonesha nafsi
   (c) Kuonesha jina la mtenda
   (d) Kuonesha uyakinishi.

(iv) Ni sifa ipi haihusiani na sifa za misimu?
   (a) Kuhifadhi historia ya jamii
   (b) Kukuza lugha
   (c) Kuongeza watumiaji wa lugha
   (d) Kuibua hisia za wazungumzaji

(v) "Walipigana kufa na kupona" Aina ya sentensi hii ni
   (a) Ambatano
   (b) Changamano
   (c) Shurutia
   (d) Sahili

(vi) Maneno kama waziri Mkuu, batamaji, askari kanzu ni mifano ya maneno yaliyoundwa kwa njia gani?
   (a) Urudufishaji
   (b) Kubadili mpangilio wa herufi
   (c) Miambatano
   (d) Uambishaji

(vii) Mambo muhimu manne ambayo hayana budi kuzingatiwa pindi maana ya lugha inapotolewa ni:-
   (a) Sarufi, vitamkwa, sauti na nasibu
   (b) Fasihi sarufi, nasibu na mawasiliano

(c) Mfumo, sauti, nasibu na mawasiliano
(d) Sarufi, Mfumo, mawasiliano na Fasihi

(viii) Mwanzo wa barua ya kikazi hutambulishwa na maneno kama vile;
(a) Rejea habari tajwa ya hapo juu
(b) Wako mtiifu katika ujenzi wa Taifa
(c) Ndugu katibu, ndugu Mkuu wa shule
(d) Rejea barua yako ya tarehe.....

(ix) Miongoni mwa vitu vinavyotofautisha fasihi simulizi na fasihi andishi ni
(a) Maandalizi, uwasilishaji, jukwaa, mandhari, kalamu na mdomo
(b) Uwasilishaji, uhifadhi, umiliki na mandhari
(c) Maandalizi, mazungumzo, maandishi na uhifadhi
(d) Umiliki, mazungumzo, uhifadhi na maandishi

(x) "Mama Anna anakuja" tungo hii ni tata,utata wa tungo hii umesababishwa na;
(a) Msamiati "mama" kuwa na maana Zaidi ya moja
(b) Matumizi yasiyokuwa bayana ya viunganishi au vihusishi.
(c) Kutokuzingatia taratibu za uandishi
(d) Matumizi ya lugha ya kifasihi

2. **Oa**nisha maana za dhana za uandishi zilizo katika **orodha A**. Kwa kuchagua herufi **ya** dhana husika katika **orodha B**, Kisha andika herufi husika katika kijitabu chako **cha** kujibia.

ORODHA A	**ORODHA B**
i) Tashihisi ii) Prediketa iii) Urudufishaji iv) Ngeli za majina v) Fasihi simulizi	a) Ku b) Hapohapo c) Ngano za usuli,Tarihi, vigano d) Vitenzi/Kundi tenzi e) Fasihi andishi tokea karne ya 21 f) Upepo ulininong'oneza siri ya mafanikio yetu g) Kusajili jambo Fulani

SEHEMU B (Alama 40)

Jibu maswali **yote** katika sehemu hii

3. **Andika** methali zinazofanana na methali zifuatazo:-
i. Moja shika si kumi nenda rudi
ii. Mstahamilivu hula mbivu
iii. Maji yavumayo hayana neno
iv. Nazi mbozi harabu ya nzima.

4. Kwa kutumia hoja nne eleza bayana ni msaada gani anaweza kuupata mtumiaji wa lugha kutoka kwenye Kamusi?

5. A. Eleza maana ya viambishi.

   B. Onesha viambishi katika vitenzi vifuatavyo;

   i. Walipiganishwa
   ii. Anayechezewa
   iii. Aliyekulisha
   iv. Atakunywa

6. Taja mambo manne (4) yanayosababisha kutokea kwa lahaja.

7. Pamoja na mabaya waliyotutendea wakoloni lakini walisaidia kwa kiasi kikubwa kwenye maendeleo ya Kiswahili. Jadili kauli hii kwa kutoa hoja nne (4).

8. Soma kifungu cha habari kifuatacho kisha jibu maswali yanayofuata.

Juma ni kijana wa miaka 25 anayejishughulisha na udereva wa pikipiki maarufu kama bodaboda, mmoja kati ya abiria wake ni mwanafunzi wa Kidato cha pili katika Shule ya sekondari Mtendo iliyopo Wilaya ya Ilala jijini Dar es salaam, aliyejulikana kwa jina la Chau.

Vishawishi vya Juma kumlaghai na mbinu nyingi za udanganyifu, Chau amejikuta akiwa katika mahusiano ya kimapenzi na dereva wake.

Mapenzi ya wawili hawa, yalidumu kwa takribani miezi minne, tokea kufahamiana kwao. Siku moja Chau alipokuwa Shuleni, kulipigwa kengele ya dharura na wanafunzi wote wakakusanyika, ulikuwa ni wito wa kupima mimba kwa wanafunzi shuleni ambao ni utaratibu wa mara kwa mara Shuleni hapo.

Miongoni mwa wanafunzi sita waliokutwa na mimba shuleni hapo alikuwemo Chau. Wazazi wa Chau waliitwa na kuelezwa taarifa ya mtoto wao taarifa pia ilifikishwa polisi. Jeshi la Polisi baada ya mahojiano na vitisho, Chau akamtaja Juma kuwa ndiye aliyempa ujauzito.

Wakati Jeshi la Polisi wakitafakari namna ya kumpata Juma, Wazazi wa Juma na wazazi wa Chau walikutana wa kukubaliana kuyamaliza, wazazi wa Juma walitakiwa kulipa fedha taslimu Shilingi laki tatu ili kufuta kesi hiyo. Mama Chau na mama Juma walitafuta namna ya kumtorosha Juma ili Jeshi la Polisi lisifanikiwe kumkamata. Baada ya miezi tisa kupita na Jeshi la polisi kushindwa kumkamata Juma, Chau alijifungua siku ya Jumapili ila kwa bahati mbaya mama na mtoto wote walifariki kutokana na Chau kutokwa na damu nyingi wakati wa kujifungua.

MASWALI:-

(a) Pendekeza Kichwa cha habari hii kwa maneno yasiyozidi matatu.

(b) Kwanini, watuhumiwa wengi wanaowapa mimba wanafunzi hawakamatwi na kushitakiwa?

(c) Kwa maoni yako hatua gani zichukuliwe kudhibiti vitendo vya unyanyasaji wa kijinsia kwa wanafunzi wa kike?

(d) Taja athari hasa tano (5) zinazowakumba watoto.

SEHEMU C (Alama 45)

Jibu maswali **matatu (3)** tu kutoka katika sehemu hii.

9. Wewe ni mfanyabiashara mkubwa wa nguo za kike na za kiume (Kwa vijana). Andika tangazo la biashara kwa sababu umeleta mali mpya kutoka CHINA.

ORODHA YA VITABU KWA SWALI LA 10-12

RIWAYA

- **Takadini** - **Ben Henson (MBS)**
- **Watoto wa Mama N'tilie** - **E. Mbogo (H.P)**
- **Joka la Mdimu** - **A. J.Safari (H.P)**

TAMTHILIYA

- **Orodha** - **Steve Raynold (MA)**
- **Ngoswe Penzi kitovu cha Uzembe** - **E. Semzaba (ESC)**

- **Malenga wapya** - **TAKILUKI – (DUP)**
- **Mashairi ya chekacheka** - **T.A Mvungi (EP & D.LTD)**

10. "Washairi ni walimu" Jadili kauli hii kwa kutoa hoja tatu (3) kutoka katika vitabu viwili vya ushairi ulivyosoma.

11. "Nani kama mama" kwa kutoa hoja tatu (3) toka kila kitabu onesha ni kwa jinsi gani waandishi wa Riwaya mbili ulizosoma walivyoweza kujibu swali hili.

12. "Uhusiano uliopo kati ya msanii na Jamii yake ni kama nazi na tui" jadili kauli hii kwa kutumia tamthiliya mbili ulizosoma. Toa hoja sita (6).

REO Pwani F. IV Mock Exams 2020

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT - RALG

COAST REGION

FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

013 GEOGRAPHY

Time: 3 Hours **Wednesday August 12, 2020 p.m**

Instructions

1. This paper consists of sections A, Band C with a total of **ten (10)** questions.
2. Answer all questions in section A and B and any **two (2)** questions from section C.
3. Map extract of **Mkomazi (sheet 109/1)** is provided.
4. Credit will be given for the use of relevant sketch maps and diagrams.
5. Programmable calculators, Cellular phones and any unauthorized materials are **not** allowed in the examination room.
6. Write your **examination number** on every page of your answer booklet (s).

This paper consists of six printed pages

SECTION A (15 Marks)

Answer all questions in this section

1. For each of the items (i – x) Choose the correct answer from among the given alternatives and write its letters beside the item number in the answer booklet provided.

i. Meteors are pieces of hard matters falling from the outer space; when meteors do not completely disintegrate as they pass through the atmosphere, they reach the Earth's surface and are called meteorites. In Tanzania there are two known Meteorites

A. One is found in Mbozi district and that of Makambako in Njombe region
B. That of Malampaka in Kwimba district and Mbozi district in Songwe
C. The one at Msambiazi in Malampaka district and that of Maliru Mpakani
D. One found in Kiomboi district in Moshi and that of Kibo peak
E. One found in Malampaka district and that of songwe region.

ii. Town Z is six hours behind town T which is at 30°E. Which will be the meridian of town Z?

A. 30° E
B. 90° E
C. 30° W
D. 15° E
E. 60° W

iii. Shangali was a student in Tour guide course at Kilimani College in 2016. He was assigned a practical work of climbing Mount Kilimanjaro while carrying a thermometer; after reaching at the peak, Shangali was surprised to see negative readings on his thermometer. What did Shangali failed to understand in this phenomena?

A. Thermometer has the tendency of reading negative when someone holds it incorrectly.
B. Thermometer was not at zero point when he started recording temperature.
C. Temperature of a place influenced by many factors.
D. When someone climb the mountain temperature decrease by 0.06°C for every 1000M.
E. When someone going above sea level every 100M temperature decrease by 0.6° C

iv. In 2016 the people from Kagera region were wondering where that earthquake originated? As a geography student explain where does earthquake waves begin;

A. In the layer known as Conrad discontinuity
B. In the layer of Mohorovicic
C. In the layer of Guternburg discontinuity
D. In the layer called outer core
E. In the layer called Asthenosphere.

v. Mr. Zongo told his children to collect the plant remains like grasses from their previous farm and cover the banana plants in new cultivated farm. Which geography term will be suitable to apply here?

A. Leaching
B. Terracing
C. Bush fallowing
D. Mulching

vi. The large project of developing Stigler's Gorge for hydro electric power production falls under which category among the following?

A. Land reclamation
B. Sustainable use of water resources
C. River basin development
D. Drainage
E. Extraction of water resources

vii. From the knowledge of agriculture you have as a Form four student which crops among the following will be suitable in areas with acidic soil?

A. Tea and sugar cane
B. Cocoa and maize
C. Coffee and cotton
D. Wheat and rubber
E. Coffee and Tea

viii. Some villagers at Mkuranga district were debating why water is consumed but not vanished; only there will be some slight changes due to the population increase on its availability. Which good geographical term helps them to understand?

A. Evaporation
B. Transpiration
C. Evapo transpiration
D. Hydrological cycle
E. Precipitation

ix. Form four students at Kwediboma secondary school conducted a trip to Amboni caves in Tanga, One of the experts took pure water and pours it on the limestone rock and the rock did not dissolve but he poured the rain water on the rock hence the rock dissolved. Explain why?

A. Rain water is very active in carbonic acid.
B. The pure water did not contain enough heat to dissolve the rock.
C. Rain water contained weak carbonic acid.
D. The rocks were strong enough to resist against water which was pure.
E. The rocks were weak to resist against rain water.

x. River Rufiji, Wami, Ruvu, Kilombero and Great Ruaha; falls under which type of river?

A. Perennial rivers
B. Long and wide rivers
C. Intermittent rivers
D. Wet rivers
E. Dry rivers

2. Match the descriptions in **COLUMN A** with the corresponding feature in **COLUMN B** by writing the letter of the correct response beside the item number.

LIST A	**LIST B**
i. The pattern which is common in areas which are faulted	A. Parallel drainage pattern
ii. The plan or layout of the river with its tributaries	B. Annual pattern
	C. Drainage pattern
iii. In this pattern many tributaries joins the main river at acute angle	D. Drainage system
iv. The pattern which develops in the areas with alternate hard and soft rock.	E. Dendritic pattern
v. In this pattern the streams flow from the summit in all direction.	F. Radial Pattern
	G. Discordant system
	H. Trellised pattern
	I. Centripetal pattern
	J. Rectangular pattern

iv. In 2016 the people from Kagera region were wondering where that earthquake originated? As a geography student explain where does earthquake waves begin;

A. In the layer known as Conrad discontinuity
B. In the layer of Mohorovicic
C. In the layer of Guternburg discontinuity
D. In the layer called outer core
E. In the layer called Asthenosphere.

v. Mr. Zongo told his children to collect the plant remains like grasses from their previous farm and cover the banana plants in new cultivated farm. Which geography term will be suitable to apply here?

A. Leaching
B. Terracing
C. Bush fallowing
D. Mulching

vi. The large project of developing Stigler's Gorge for hydro electric power production falls under which category among the following?

A. Land reclamation
B. Sustainable use of water resources
C. River basin development
D. Drainage
E. Extraction of water resources

vii. From the knowledge of agriculture you have as a Form four student which crops among the following will be suitable in areas with acidic soil?

A. Tea and sugar cane
B. Cocoa and maize
C. Coffee and cotton
D. Wheat and rubber
E. Coffee and Tea

viii. Some villagers at Mkuranga district were debating why water is consumed but not vanished; only there will be some slight changes due to the population increase on its availability. Which good geographical term helps them to understand?

A. Evaporation
B. Transpiration
C. Evapo transpiration
D. Hydrological cycle
E. Precipitation

ix. Form four students at Kwediboma secondary school conducted a trip to Amboni caves in Tanga, One of the experts took pure water and pours it on the limestone rock and the rock did not dissolve but he poured the rain water on the rock hence the rock dissolved. Explain why?

A. Rain water is very active in carbonic acid.
B. The pure water did not contain enough heat to dissolve the rock.
C. Rain water contained weak carbonic acid.
D. The rocks were strong enough to resist against water which was pure.
E. The rocks were weak to resist against rain water.

x. River Rufiji, Wami, Ruvu, Kilombero and Great Ruaha; falls under which type of river?

A. Perennial rivers
B. Long and wide rivers
C. Intermittent rivers
D. Wet rivers
E. Dry rivers

2. Match the descriptions in **COLUMN A** with the corresponding feature in **COLUMN B** by writing the letter of the correct response beside the item number.

LIST A	**LIST B**
i. The pattern which is common in areas which are faulted	A. Parallel drainage pattern
ii. The plan or layout of the river with its tributaries	B. Annual pattern
	C. Drainage pattern
iii. In this pattern many tributaries joins the main river at acute angle	D. Drainage system
iv. The pattern which develops in the areas with alternate hard and soft rock.	E. Dendritic pattern
v. In this pattern the streams flow from the summit in all direction.	F. Radial Pattern
	G. Discordant system
	H. Trellised pattern
	I. Centripetal pattern
	J. Rectangular pattern

SECTION B (55 Marks)

Answer all questions in this section

3. Carefully study the map extract of **Mkomazi (sheet 109/1)** and then answer the questions that follow:
   a. State three (3) economic importance of dominant feature seen at west of Easting 94.
   b. Describe the vegetation of the mapped area.
   c. What do you know about spot height?
   d. Specify the type of map given.
   e. Identify two natural and two (2) supportive contents from the map given

4. Mchumia Juani is a retailer selling hand watches. He doesn't know if he is making profit or loss. Help him to know by;
   a. Presenting the following data on a profit and loss bar graph

Months	**January**	**February**	**March**	**April**	**May**	**June**
Sales	10	15	20	12	15	18

   b. Show two merits and two demerits of the method you used above (a)
   c. Comments on the sales.

5. (a). A surveyor has to do pilot study before actual survey. Mention three importance of reconnaissance.

   (b). Explain the reasons of the following
   i. The red and white colour paint on ranging poles.
   ii. The red piece of cloth on the arrow.
   iii. Where is the datum for Tanzania?

   (c). Show the type or method of survey used to;
   a) Locate boundaries of the towns.
   b) To measure natural and manmade features and present them on the map.
   c) Determine the height of point on the Earth's surface.
   d) To determine linear distance on the ground.

6. Kanju deserved poor performance of science subjects at Kisarawe district in 2019 and tried to convince the government on how to improve the performance by first conducting a research.
   a) Formulate good research problem from above explanation.

b) Formulate two alternative hypotheses and one null hypothesis from problem you have formulated.

c) If you conduct a research on "**Farming activities in Coast region**" focus on cashew nuts production. What type of design will you use and why?

d) Give the meaning of research proposal.

7. a) Photographs are said to be aid to map, since they add some details on it.
   i. What type of photograph is suitable for the task above?
   ii. Give two reasons why it is suitable.

   b) Quality of the photograph can be affected by number of factors. Outline at least five (5) factors.

   c) Identify three types of photographs based on angle and position of the camera.

SECTION C (30 Marks)

Answer any two (2) questions from this section

8. Population has a tendency of increasing inversely proportion to the resources; some demographer argued that Population growth has many positive effects than negative. Show the negative impact of rapid Population to the country like Tanzania. (**6 points**).

9. Inspite of having many tourism honey pots in Tanzania, the sector is still lagging behind and its contribution is low to the economy of the country. Suggest six (6) initiatives that government can take to improve the sector.

10. Elaborate five (5) problems associated with forest resources harvesting.

REO Pwani F. IV Mock Exams 2020

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT – RALG

COAST REGION

REGIONAL FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

022 ENGLISH LANGUAGE

Time: 3 Hours **Monday, 17th August, 2020 a.m**

Instructions

1. This paper consists of sections A, B and C with a total of **twelve (12)** questions.
2. Answer **all** questions in section A and B. and **three (3)** questions from section C.
3. Cellular phones and any unauthorized materials are **not** allowed in the examination room
4. Write your **Examination Number** on every page of your booklet (s)

This paper consists of five printed pages

SECTION A (15 Marks)

Answer **all** questions in this section

1. For each of the items (i) - (x), choose the most correct answer from among the given alternatives and write its letter beside the item number in the answer booklet provided.

i. I am creative, but my brother is……than I am

A. Creative
B. More creative
C. Most creative
D. Equally creative
E. Very creative

ii. As Java……7years,he will know what to do;

A. Is working here since
B. Has been working here for
C. Has been working here
D. Has been working here since
E. Was working here

iii. Each of them had brought……..best friend

A. His B. their C. his/her D. her. E. One's

iv. Where is Mr……..…wife staying?

A. Kazibures'
B. Kazibure's
C. Kazibures's
D. Kazibures
E. Kazibure

v. The train arrived after I…….for about 25 minutes

A. Waiting
B. Had waited
C. Have been waiting
D. Have waited
E. Was waiting

vi. When the police arrived, the thief……among

A. A. was gone
B. Was going
C. Had gone
D. Go
E. Goes

vii. I noticed this morning that some new haves……..…on the land next to uncle's house.

A. Building
B. Being build
C. Are being built
D. Are building
E. Have built

(c) Java is too clever to understand the book.
(Transform the sentence by using so.....that)

(d) He was occupied with important matters. He had no time to see us.
(Begin: Being occupied.....)

5. Imagine that your sister is going for shopping next Monday. use the following words in the box below to fill in the blanks space in the following passage.

Banana, Packet, Loaves, Soap

My sister is going to buy six bunches of **(a)**.....for my father. Then she will buy ten bars of **(b)**.....and three **(c)**.....of bread for the family. She will also buy a **(d)**.....of biscuits for my young sister. Finally, she will buy five kilos of sugar.

6. Dictionaries use abbreviations and symbols to save space.What do the following abbreviations and symbols stand for?
   (a) Abbr
   (b) [C]
   (c) (AME)
   (d) [N]

7. In each of these sentences one of the words is wrongly used. Identify the wrong and replace it with the right word to make the sentence meaningful.
   a) They wear here last month.
   b) Her mother needs some flower for porridge
   c) All people are needed accept you.
   d) Rachel prefers speaking in the coat before Judges.

8. Read the passage below carefully then answer the questions that follow.

Coronavirus disease (COVID -19) is an infectious disease caused by a newly discovered Corona Virus. Most of the people infected with the Covid-19 virus will experience mild to moderate respiratory illness and recover without requiring special treatment. Older people, and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease and cancer are more likely to develop serious illness.

The best way to prevent and slowdown transmission is to be well informed about the COVID-19 Virus, the disease,its causes and how it spreads. Protect yourself and other from infections by washing your hands or using an alcohol based, rub frequently and not touching your face.

The COVID -19 Virus spreads through droplets of saliva or discharge from the nose when an infected person coughs or sneezes, so it is important that you also practice respiratory etiquette (For example by coughing into a flexible elbow).

At this time, there are no specific vaccines or treatment for COVID -19. However, there are many ongoing clinical trials evaluating potential treatments. "WHO" Will continue to provide updated information as soon as clinical findings become available!

viii. "My leg is aching" What does the under underlined part of the word indicate in this sentence?

A. Daily routine
B. The simple present tense
C. Future activity
D. The past continuous tense
E. Ongoing activity

ix. The team played very well despite the facts that it was raining. What justifies that the given sentence is the past form?

A. The use of **__ing** in the word raining
B. The use of root **"play"** in played
C. The use of **"raining"** after the word was
D. The use of participle **__ed** in the word played
E. The use of the phrase **despite the fact that**

x. We have to study hard because the future is _____

A. Theirs B. Yours C. Ours D. My E. His

2. **Match** the expression in **LIST A** with the correct words or expression form **LIST B** by writing its **letter** beside the item number in the answer booklets (s) provided.

LIST A		**LIST B**
i.	Although she was very intelligent	**A.** Spinster
ii.	Inspite of their poverty	**B.** He drank beer
iii.	If I had known the answer	**C.** I would tell you're at once
iv.	A woman who has never got married	**D.** She would have failed her interview
v.	We have been in this school	**E.** They managed to buy ten bicycles
		F. She failed her interview
		G. For a long time
		H. I would have told at once
		I. In the year 2020

SECTION B (40 Marks)

Answer **all** questions in this Section

3. **Write** an appropriate question tag for each of the following statements.

(a) Asha has finished reading the newspaper
(b) They spoke to the Headmaster
(c) Mr. Chidera is good at English
(d) His Father teaches at the college

4. **Re**-write the following sentence according to the instructions given after each

(a) Whom do you want to see? (Rewrite into Indirect speech)

(b) We are waiting from her.
(Rewrite the sentence by using Present perfect continues tense)

Questions:

(a) Suggest the suitable title for the passage.
(b) Which group of people is more likely to develop serious illness?
(c) How is the disease –spread?
(d) According to the passage, how can we prevent ourselves from the disease? Limit your response to one point.

SECTION C (45)

Answer **three (3)** questions from this section.

9. Imagine that you have been elected a chairperson of Mwanakwetu Street. The street has a total number of 40 houses; it has a lot of problems that need to be solved. Write a speech to be presented in a meeting to address those problems in six points. (Not less than 250 words)

LIST OF READINGS FOR QUESTIONS 10 – 12

NOVELS AND SHORT STORIES:

• **A wreath for Fr. Mayer**	**S.N Ndunguru (1970) Mkuki na Nyota**
• **Unanswered cries**	**Osman Conteh**
• **Passed like a shadow**	**B.M Mapalala (2006), DUP**
• **Spared**	**S.N Ndunguru (2004), Mkuki na Nyota**
• **Weep Not Child**	**Ngugi wa Thiong'o (1987); Heinemann**
• **The Interview**	**P. Ngugi (2002), Macmillan**

PLAYS:

• **Three Suitors: One husband**	**Oyono Mbia (1994), Eyre Methleen**
• **The Lion and the Jewel**	**Wole Soyinka (1963), OUP**
• **This Time Tomorrow**	**Ngugi wa Thiong'o (1972); Heinemann**
• **The black Hermit**	**Ngugi wa Thiong'o (1968); Heinemann**

POETRY:

• **Songs of Lawino and O'col**	**Okot P. Bitek (1979), EAPH**
• **Growing up with poetry**	**David Rubadiri (ed) 1979, Heinemann**
• **Summons**	**Richard Mabala (1980), TPH**

10. Differentiate poetry from other readings like novel plays. **(Provide six points).**

11. With reference to two novels you have read under this section, explain how the behavior of **some** characters affects the welfare of the majority in the society. (**Provide three points (From each novel).**

12. The play wrights depict the experience of their own society and time but the issues tend to **be** universal. Justify his contention by using two plays that you have studied under this section (**For each play, provide three points**).

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT – RALG

COAST REGION

REGIONAL FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

041 BASIC MATHEMATICS

Time: 3 Hours **Thursday, 13th August 2020 a.m**

Instructions

1. This paper consists of section A and B.
2. Answer all questions in section A and B. each question in section A carries six (6) marks while each question in section B carries ten (10 marks).
3. All necessary working and answers foe each question must be shown clearly.
4. Cellular phones and any unauthorized materials are not allowed in the examination room.
5. Mathematical tables and non-programmable calculators may be used.
6. Write your examination number on every page of your answer booklet(s).

This paper consists of four printed pages

SECTION A (60 Marks)

Answer all questions in this section.

1. (a) In a class of 40 students, ¾ are boys. Two fifths of the girls wear mask. How many girls do not wear mask?
   (b) If x = 0.35 and y = 0.18 find x + y

2. (a) Evaluate log 900 given that log 2 = 0.3010, log 3 = 0.4771 and log 5 = 0.6990
   (b) Given that $a^{2n} = 2$, evaluate $5 - 6a^{6n}$

3. (a) In a class of 30 students, 20 students are taking physics, 12 are taking both chemistry and physics. How many students in the class take chemistry only if 8 students take neither physics nor chemistry?

   (b) A class has 12 boys and 4 girls. If three students are selected at random from the class, what is the probability that they are all (i) Boys (ii) Girls?

4. (a) Point P lies on the x-axis and it's equidistant from point A(8, 4) and B(6, 6). Find the coordinates of P.

   (b) Given vector $\underline{a} = \frac{1}{2}\,i + \frac{1}{3}\,j$, $\underline{b} = \frac{2}{3}i + \frac{1}{3}j$ and $\underline{c} = i + 6j$
   (i) Determine a unit vector in direction of vector $\underline{d}$ where $\underline{d} = 6a + 3\underline{b} - \underline{c}$
   (ii) Find the resultant of vectors.

5. (a) The area of triangle is 38 cm^2. After an enlargement the area is 9.5 cm^2. Find the sale factor of the enlargement.
   (b) Find the length of one side and perimeter of a regular polygon having 7 sides inscribed in a circle of radius of 10 cm.

6. (a) The price of jeans in USA is US dollar 67 and in London the same jeans costs Euro 47.50. if the exchange rate is 1 Euro is equivalent to 1.34 US dollars, work out the difference between the cost of the jeans in USA and in London. Give your answer in Euros.

   (b) The time (t days) required to build a house is inversely proportional to the number of builders (n), all working at the same rate. If there are 6 builders it takes 80 days to complete the house. How many builders must be employed to build the same house in just 16 days?

7. (a) A bicycle was bought at Tsh. 140,000/= and then sold at a loss of 12%. What was its selling price?

   (b) From the following data of Mr. Mushikwa (trader) prepare final accounts trading, profit and loss account for the year ended 31st march 2019.

Sales	2400
Purchase	700
Stock at start	1000
Stock at end	600
Rent	200
Wages	200
Rates	400
Insurance	100
Repairs	300

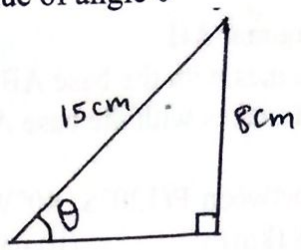

8. (a) If 6, x, y and 15 are consecutive terms of an A.P. Calculate the value of x and y. Hence, identify common difference.

(b) Find the sum of the first five terms of the series below;

$9 + 27 + 81 + \ldots\ldots\ldots$

9. (a) A 3 cm ladder has its foot 2 m from the base of vertical wall. How far up the wall does the ladder reach?

(b) In the figure below find the value of angle θ

10. (a) Use the quadratic formula to solve $x^2 - 2x - 24 = 0$

(b) If $a - b = \sqrt{13}$ and $a^2 + b^2 = 25$ find the value of ab.

SECTION B (40 Marks)

Answer all questions in this section

11. (a) The marks for basic mathematics of 100 students are distributed as shown below;

Marks	30-34	35-39	40-44	45-49	50-54	55-59	60-64	65-69
Number of students	4	6	10	14	X	20	14	6

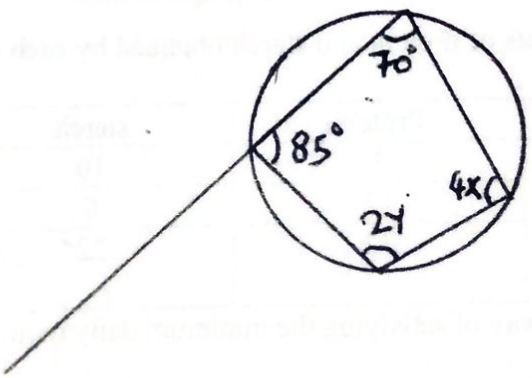

(i) Find the value of x

(ii) Calculate the mean mark

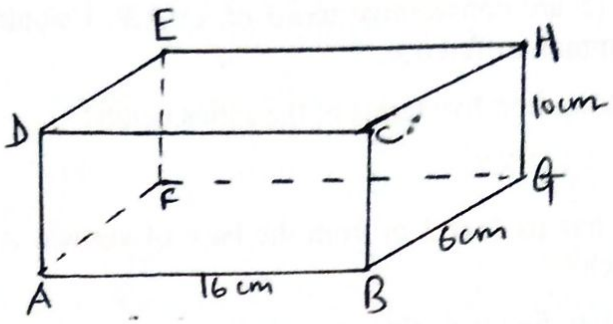

(iii) Draw the histogram to represent the data

(b) (i) Prove that "the opposite angles in cyclic quadrilateral are supplementary".

(ii) Determine the value of x and y in the figure below.

12. (a) The figure below show a rectangular box in which AB = 16 cm, HG = 10 cm and BG = 8 cm. find;

(i) The length AG
(ii) The length of diagonal AH
(iii) The angle AH makes with the base ABGF
(iv)The angle EABH makes with the base ABGF.

(b) Calculate the distance between P(120°S, 40°W) and Q (65°S, 40°W). Express your answer in; (i) kilometers (km) (ii) nautical miles (nm)

(c) Calculate the total surface area of a cone whose slanting height is 12 cm and has the base radius of 10 cm.

13. (a) (i) Given matrices $A = \begin{bmatrix} 3 & 1 \\ 5 & 4 \end{bmatrix}$ and $B = \begin{bmatrix} -2 & 4 \\ 0 & 6 \end{bmatrix}$, find $3A - \frac{1}{2}B$

(ii) Given that matrix $Q = \begin{bmatrix} 3x & 4 \\ -2 & 6 \end{bmatrix}$ and $|Q| = 5$, find the value of x

(b) Solve the following system of linear equations by using Cramer's rule.

$$\begin{cases} 3x + y = 14 \\ 2x - y = 1 \end{cases}$$

(c) The point (-4, 1) is first reflected along x-axis followed by rotation about the origin in 90° anticlockwise, find the coordinate of the final image.

14. (a) A function f is a quadratic one and it passes through (0, 2), (1, 6) and (-3,2). Find function f.

(b) Given the function $f(x) = 2|x|$, sketch the graph of f(x).

(c) The number of units of protein and starch obtained by each of two foods A and B are shown below;

	Protein	starch	Cost per bag
A	8	10	Tsh. 400/=
B	12	6	Tsh. 500/=
Minimum daily requirement	32	22	

What is the cheapest way of satisfying the minimum daily requirements?

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT – RALG

COAST REGION

REGIONAL FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

031/1 **PHYSICS 1**

Time: 3 Hours **Tuesday, 18th August 2020 a.m**

Instructions

1. This paper consists of section A, B and C with a total of **eleven (11)** questions.
2. Answer all questions in section A and B and **two (2)** questions from section C.
3. Cellular phones and any unauthorized materials are not allowed in the examination room.
4. Non-programmable calculators may be used.
5. Write your examination number on every page of your answer booklet(s).
6. Where necessary the following constants may be used:
   - (i) Acceleration due to gravity, $g = 10m/s^2$
   - (ii) Density of water = $1.0g/cm^3$
   - (iii) Pie, $\pi = 3.14$
   - (iv) Speed of light in air = $3 \times 10^8 m/s$
   - (v) Speed of sound in air = 340m/s
   - (vi) Latent heat of fusion of ice = $3.3 \times 10^5 J/kg$

This paper consists of five printed pages

SECTION A (15 Marks)

Answer all questions in this section.

1. For each of the items (i) –(x) choose the correct answer from among the given alternatives and write its letter beside the item number in the answer book provided.

(i) A student wishes to find the volume of irregular stone. Which resources are needed;

A. Metre rule, measuring cylinder and thread
B. Measuring cylinder only
C. Metre rule and measuring cylinder
D. Measuring cylinder, water and thread
E. Measuring cylinder and water

(ii) Which of the following quantities are measured in the same S.I unit?

A. Work, energy and power
B. Energy and power
C. Energy and work
D. Mass, length and time
E. Mass, energy and work

(iii) Pressure in liquids depends on the following;

A. Density of mercury
B. Depth of liquid
C. Density of water
D. Height of water
E. Force and area

(iv) When a thermometer is calibrated the fixed points are marked. What are the fixed points;

A. All the marks on the temperature which cannot be removed
B. All the temperatures at which evaporation occurs
C. The lowest and highest temperatures shown on the thermometer
D. All the marks of the temperature scale
E. Two temperatures of known values which are easily reproduced

(v) An object has a mass of 150g and a volume of 200cm^3. If placed in water, how much of its volume will be submerged?

A. 50 cm^3
B. 150 cm^3
C. 200 cm^3
D. 75 cm^3
E. 100 cm^3

(vi) Density changes are responsible for which of thermal energy transfer?

A. Conduction only
B. Conduction and convection
C. Convection only

D. Radiation only
E. Conduction, convection and radiation

(vii) Which of the following materials becomes negatively charged when rubbed with cloth?
A. Cellulose
B. Perspex
C. Glass
D. Polythene
E. Wood

(viii) A body of mass 10kg is placed on an inclined plane sloping at 30°. The normal reaction to the body will be;
A. 50 N
B. 57.74 N
C. 86.6 N
D. 43.3 N
E. 100 N

(ix) When a simple cell is in use the hydrogen bubbles are formed around a copper plate. This cell defect is called;
A. Local action
B. Polarization
C. Amalgamation
D. Hydrogenation
E. Electrolysis

(x) Asteroids which manage to reach the earth surface are called;
A. Stars
B. Meteors
C. Meteorites
D. Constellations
E. Comets

2. Match the items in list A with the corresponding item in list B by writing the letter of the correct response beside the item number in the answer booklet provided.

LIST A		LIST B
(i)	Average increase in global temperature	**A.** Greenhouse effect
(ii)	Infra-red rays being unable to pass back into space through the atmosphere	**B.** Epicenter **C.** Global warming
(iii)	Detects and measures earthquakes	**D.** Hypocenter
(iv)	The point where earthquake originate	**E.** Seismometer
(v)	Made up of large sections of crusts called tectonic plates	**F.** Ionosphere **G.** Lithosphere

SECTION B (60 Marks)

Answer **ALL** questions from this section

3. (a) Briefly explain why hydrometer
   (i) Is weighed with lead shots **(2.5 marks)**
   (ii) Has a narrow stem **(2.5 marks)**

   (b) A balloon has a capacity of $20cm^3$ and is filled with hydrogen. The balloon fabric and the container have a mass of 2.5kg. What mass of cargo can be lifted by the balloon? (Density of hydrogen = $0.089kg/m^3$ and density of air is $1.29\ kg/m^3$) **(5 marks)**

4. (a) An engine can pump 30000 litres of water to a vertical height of 45 metres in 10 minutes. Calculate the work done by the engine and its power. **(5 marks)**

   (b) The valve of a cylinder containing 12kg of compressed gas is opened and the cylinder empties in 1 min 30 sec. if the gas issues from the exit nozzle with an average velocity of 25m/s, find the force exerted on the cylinder. **(5 marks)**

5. (a) State the conditions of equilibrium when a body is acted upon by a number of parallel forces. A uniform metal tube of length 5m and mass 9kg is suspended horizontally by two vertical wires attached at 50cm and 150cm respectively from the ends of a tube. Find the tension in each wire. **(5 marks)**

   (b) Is it possible for the two forces of 8N and 3N to produce a resultant of 5N? Explain. **(5 marks)**

6. (a) The specific heat capacity of water is 4200J/kg°C, what does this statement mean? Find the amount of heat required to change 1 kg of ice at 0°C to water at the same temperature.

   (b) A convex lens is used to produce an image of an object on the screen. The object is 100 cm from the lens. If the image produced is four times the size of the object, calculate the object distance from the lens.

7. (a) An electric iron is labeled 240V, 1000W. What does this mean? Find the total cost of running simultaneously a refrigerator rated 400W and a radio set rated 60W for 5 hours if electricity costs Tsh. 300 per KWh.

   (b) A cell supplies a current of 0.6A through a 2Ω coil and a current of 0.2A through a 7Ω coil. Calculate the e.m.f and internal resistance of the cell.

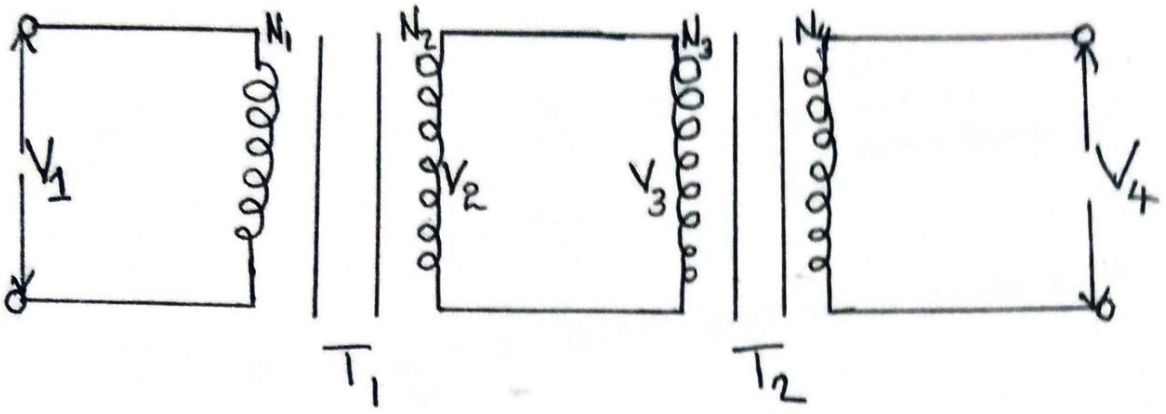

8. (a) The half life of Uranium X_1 is 24 days. Calculate the mass remained unchanged of 0.64g of the substance after 120 days. Use graphical method.

   (b) Show the three main parts of cathode ray oscilloscope (CRO) in a well-labeled diagram.

SECTION C (25 Marks)

Answer two (2) questions from this section

9. (a) Two transformers T_1 and T_2 are connected as shown below.

Given that $N_1 = 10$ turns, $N_2 = 200$ turns, $N_3 = 100$ turns, $N_4 = 50$ turns and $V_1 = 240$ V. what is the value of V_4?

(b) (i) Explain why primary and secondary coils of induction are wound on each other.

(ii) Tanzania National Electric Supply Company (TANESCO) wishes to transfer electricity from a power plant to the city. Why high voltage is preferred to transfer electricity than low voltage?

10. (a) (i) Explain why a person picks up the phone and bring it near the ear.

(ii) A turning fork produces a beat frequency of 5Hz with a 415Hz sound wave. When placed near sound wave oscillating at 426 Hz a beat frequency of 6Hz is generated. What is the possible frequency of the turning fork?

(b) (i) State one application of echo sounding.

(ii) A boy standing 100 m from the foot of a wall claps his hands and the echo reaches him 0.5 seconds later. Calculate the velocity of sound in air using these observations.

11. (a) (i) How does intrinsic semiconductor differ from extrinsic semiconductor?

(ii) Differentiate donor impurity from acceptor impurity giving one example in each.

(b) The table below shows base current (I_b) and collector currents (I_c) as registered by common emitter amplifier.

$I_c \times 10^{-3}$ A	10	20	40	80	160
$I_b \times 10^{-6}$ A	20	40	80	160	320

(i) Draw the graph of I_c against I_b.

(ii) Use your graph to calculate the current gain of this transistor.

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT – RALG

COAST REGION

REGIONAL FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

032/1 **CHEMISTRY 1**

Time: 3 Hours **Friday, 14th August 2020 a.m**

Instructions

1. This paper consists of section A, B and C with a total of **fourteen (14)** questions.
2. Answer all questions in section A and B and only **ONE (1)** question from section C.
3. Cellular phones and any unauthorized materials are not allowed in the examination room.
4. Write your examination number on every page of your answer booklet(s)
5. Where necessary the following constants may be used:

   Atomic masses:

   H=1, O=16, N=14, S=32, C=12, Na=23, Pb=207, Al=27, Mg=24, Ca=40, K=39, Cu=63.5, Zn=65

   Avogadros number = 6.02×10^{23}

   G.M.V at S.T.P = 22.4 dm^3

   1 Faraday = 96,500 coulombs

   1 litre = 1 dm^3 = 1000 cm^3

This paper consists of six pages

SECTION A (15 Marks)

Answer all questions in this section.

1. For each of the items (i) –(x) choose the correct answer from among the given alternatives and write its letter beside the item number in the answer book provided.

(i) An industrial preparation of ethane from higher alkane is represented as shown in the chemical equation below;

$$C_{13}H_{28(l)} \xrightarrow{800°C,\ 70\ atm} C_2H_{4(g)} + C_3H_{6(g)} + C_8H_{18(l)}$$

The process represented by above equation is called;

A. Sublimation
B. Cracking
C. Distillation
D. Synthesis
E. Ethenelyzation

(ii) In ammonia gas, hydrogen and nitrogen atoms are held together by;

A. Covalent bond
B. Weak force of attraction
C. Ionic bond
D. Covalent
E. Ionization bond

(iii) The volume occupied by 8.4g of nitrogen gas at S.T.P is;

A. 22.4 dm^3
B. 22400 dm^3
C. 13.44 dm^3
D. 6720 dm^3
E. 67.20 dm^3

(iv) When an atom looses an electron it becomes;

A. Molecules
B. Isotopes
C. Cation
D. Proton
E. Anion

(v) A quantity of electricity is measured in;

A. Ampere
B. Watts
C. Coulombs
D. Seconds
E. Joules

(vi) Any substance produced and released into the environment that cause ugly to it is called;

A. Waste
B. Pollutants
C. Pollution
D. Polluter
E. Sewage

(vii) The existence of two or more atoms with the same atomic number but different mass number is called;
A. Isotopy
B. Isotopes
C. Allotropes
D. Isobars
E. Allotropy

(viii) How can you obtain iron fillings from the mixture of solid iodine and iron fillings;
A. evaporation
B. fractional distillation
C. chromatography
D. decantation
E. sublimation

(ix) The primary macro elements needed by plants for proper growth and development are;
A. N, S and Ca
B. P, N and C
C. N, P and K
D. K, P and S
E. N. Mg and Mn

(x) A piece of land has a soil with pH of 6.2, this indicates that the soil is;
A. High acidic
B. Strong basic
C. Both acidic and neutral
D. Slightly acidic
E. Slightly basic

2. Match the items in list A with the corresponding item in list B by writing the letter of the correct response beside the item number in the answer booklet provided.

LIST A		LIST B
(i)	Hydrogen sulphide	**A.** Calcium disulphide
(ii)	Fountain experiment	**B.** Sodium thiosulphate
(iii)	An example of colloidal sulphur	**C.** Sodium sulphate
(iv)	Used for making painter ink	**D.** Smell of rotten egg
(v)	It decolorized acidified potassium permanganate	**E.** Choking smell
		F. Lamp black
		G. Production of ammonia
		H. Sulphur dioxide
		I. Solubility of ammonia
		J. Carbon dioxide

SECTION B (70 Marks)

Answer all questions in this section

3. (a) The chemical analysis shows that the empirical formula of a compound "Q" is CH_2O and has a relative molar mass of 60.
(i) Write down the molecular formula of the compound.

(ii) Write the balanced chemical equation when compound Q reacts with sodium metal, sodium hydroxide and methanol.

(b) Draw the open structure of compound Q above.

4. (a) (i) Name any two (2) examples of industrial gaseous fuel.
(ii) List down four (4) environmental effects of using fire wood as source of energy.

(b) Give one reason for each of the following;
(i) Hydrogen gas is used in production of oxy-hydrogen flame.
(ii) Oxygen gas is collected over water during its preparation.
(iii) Water is referred as universal solvent.
(iv) Chlorine is added to water during urban water treatment.

5. (a) What do you understand by the following terms;
(i) Analyte
(ii) Stoichiometry

(b) 5.0g of impure Zinc metal was reacted with 25 cm^3 of 5M hydrochloric acid. Calculate the percentage purity of the zinc metal.

6. (a) Briefly explain the three conditions for the chemical reaction to be at equilibrium.

(b) Consider the chemical reaction below;

$$2SO_{2(g)} + O_{2(g)} \rightleftharpoons 2SO_{3(g)} \quad \Delta H = -102KJ/mol$$

What will happen to the position of equilibrium if;
(i) Pressure of the system is increased
(ii) Temperature of the system is increased.
(iii) Some amount of sulphur dioxide gas is removed.
(iv) Some amount of oxygen gas is added to the system.

7. (a) With the help of one example, give the meaning of the following;
(i) An electrolyte
(ii) A non-electrolyte

(b) The decomposition of an electrolyte by an electric current is called electrolysis. Name the ions that move to the;
(i) Negative electrode (cathode) during electrolysis
(ii) Positive electrode (anode) during electrolysis

(c) A solution of 1M copper (II) chloride was electrolyzed using graphite electrodes. Write the reaction which took place at the;
(i) Anode
(ii) Cathode

8. (a) What do you understand by the following terms;
(i) Soil PH
(ii) Leaching
(iii) Soil fertility

(b) Explain any four (4) means in which a farmer can use so as to improve the fertility of the soil of his/her farm.

9. Assume you have visited a laboratory of Vikindu secondary school located in Pwani region and noted that in the school's laboratory the only materials available are;

Chemicals:

MANGANESE (IV) OXIDE
WATER AND POTASSIUM CHLORATE

Apparatus:

RETORT STAND, DELIVERY TUBES, TEST TUBES, BEEHIVE STAND, BUNSEN BURNER, TROUGH AND RUBBER STOPPER.

(a) As a form four student, what can you prepare from the materials above?

(b) Draw a diagram to show how you can set your apparatus for that preparation.

(c) Mention five (5) uses of the prepared item in (a) above.

10. (a) Write the structural formula of the following organic compounds;
(i) 2,4-dimethylhexane
(ii) 1,2-dichloropropane
(iii) Pent-2-ene

(b) Write any four isomers of pentene and for each isomer give its IUPAC name.

11. A piece of marble (calcium carbonate) was placed in a beaker containing an excess of dilute hydrochloric acid and standing on a direct reading balance. The mass of the beaker and its contents was recorded every 2 minutes.

Time (minutes)	0	2	4	6	8	10	12
Mass (g)	126.44	126.31	126.19	126.09	126.03	126.00	126.00

(a) Why was there a loss of mass?
(b) Write an equation for the reaction.
(c) State two (2) different ways in which the reaction could have been made more rapid.
(d) Why did the mass remain constant after 10 minutes?
(e) Write the name and formula of each of the two ions remaining in the final solution.
(f) The solution was then evaporated to dryness in the same beaker and mass of the beaker and remaining solid was 97.63g. Next day, the mass was 98.63g. Explain what occurred to cause this change and name the phenomenon.

12. (a) By using a balanced chemical equation, show how you can soften the following hard water.
(i) Permanent hard water by using washing soda.
(ii) Temporary hard water by boiling

(b) Write down any two (2) advantages of the following;
(i) Hard water
(ii) Water treatment and purification
(iii) Change of state of matter

SECTION C (15 Marks)

Answer **any one (1)** question from this section.

13. (a) Iron and Aluminium both are found in similar oxides; Fe_2O_3 and Al_2O_3 but different methods for extraction are used. Explain why the methods for extraction are different.

    (b) By using diagram describe the extraction of iron from the haematite ore by writing only the chemical equations for the reaction involved in the extraction.

14. Explain four (4) causes of water pollution and suggest four (4) ways to prevent it.

REO Pwani F. IV Mock Exams 2020

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT – RALG

COAST REGION

REGIONAL FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

033/1 **BIOLOGY 1**

Time: 3 Hours **Monday, 17th August 2020 p.m**

Instructions

1. This paper consists of section A, B and C with a total of **fifteen (15)** questions.
2. Answer **all** questions in section A and B and **two (2)** questions from section C of which question **13 is compulsory.**
3. All writings should be in blue or blank pen except for diagrams that must be drawn in pencil.
4. Cellular phones and any unauthorized materials are not allowed in the examination room.
5. Write your examination number on every page of your answer booklet(s).

This paper consists of five printed pages

SECTION A (15 Marks)

Answer all questions in this section.

1. For each of the items (i) –(x) choose the correct answer from among the given alternatives and write its letter beside the item number in the answer book provided.

(i) Why is it advised to build an incinerator in every hospital and health centre;
   A. For disposing liquid wastes
   B. For disposing plastic wastes
   C. For disposing gaseous wastes
   D. For disposing hazardous wastes

(ii) Mr. Nguvumali was claiming that his child has bow legs, knocked knees and old shaped skull, what kinds of nutrients is his child lacks;
   A. Protein
   B. Carbohydrates
   C. Vitamin A
   D. Vitamin D

(iii) A patient has been diagnosed with low level of blood sugar. Which hormone would you recommend to regulate the victim's sugar;
   A. Insulin
   B. Antidiuretic
   C. Glucagon
   D. Aldosteron

(iv) The ecological unit which is composed of organisms and their physical environment is the;
   A. Population
   B. Niche
   C. Ecosystem
   D. Community

(v) Which of the following is an example of tropic movement?
   A. Photonasty
   B. Chemonasty
   C. Thigmotropism
   D. Hydronasty

(vi) Which part of been seed is responsible for allowing water to enter the seed;
   A. Micropyle
   B. Testa
   C. Radical
   D. Seed leaf

(vii) The best way a student can avoid sexually transmitted diseases is;
   A. Have only one sexual partner
   B. Abstain from sexual intercourse
   C. Use condom
   D. Use contraceptive pills

(viii) The following is trapped by the chlorophylls during photosynthesis process;
   A. Temperature
   B. Water
   C. Carbon dioxide
   D. Light

(ix) The following are the effective ways of reducing waste except;
A. Buying cloth or woven shopping bags
B. Buying plastic bags every time you go for shopping
C. Using cloth instead of paper to clean windows
D. Using recycled materials

(x) In human, meiosis occurs during the production of;
A. Gametes
B. Ovaries
C. Testes
D. Sperms

2. Match the items in list A with the corresponding item in list B by writing the letter of the correct response beside the item number in the answer booklet provided.

LIST A		LIST B
(i)	Transport medium in human being.	A. Plasma
(ii)	Red pigment with iron found in red blood cells	B. Blood vessels
(iii)	Liquid portion of blood	C. Blood
(iv)	A bottle of perfume opened at one corner of the room is soon smelt at the opposite corner	D. Myoglobin
(v)	The circulation of the blood between the heart and lungs	E. Haemoglobin
		F. Osmosis
		G. Diffusion
		H. Pulmonary circulation
		I. Systemic circulation.

SECTION B (60 Marks)

Answer all questions in this section.

3. In biology laboratory there is an instrument used to magnify tiny objects which are not seen by our naked eyes. Draw it and label the parts that perform the following functions;
(i) Fitted with magnifying lenses and magnifies the objects under observation.
(ii) Magnifies the image of the specimen.
(iii) An aperture that regulates the amount of light passing through the condenser to illuminate the specimen under observation.
(iv) A part on which the object to be observed is placed.
(v) It reflects light through the condenser to the object.
(vi) Supports the entire microscope.

4. Imagine you are a medical doctor and you have received a patient whose investigation has diagnosed is constipation. Suggest to the patient two (2) possible causes and two (2) control measures for constipation.

5. (a) What do you understand by the term classification?
(b) Give out three (3) differences of the types of classification.
(c) Why do we study classification? Give two reasons.

6. (a) What does the following terms mean;
(i) Incomplete dominancy
(ii) Codominance

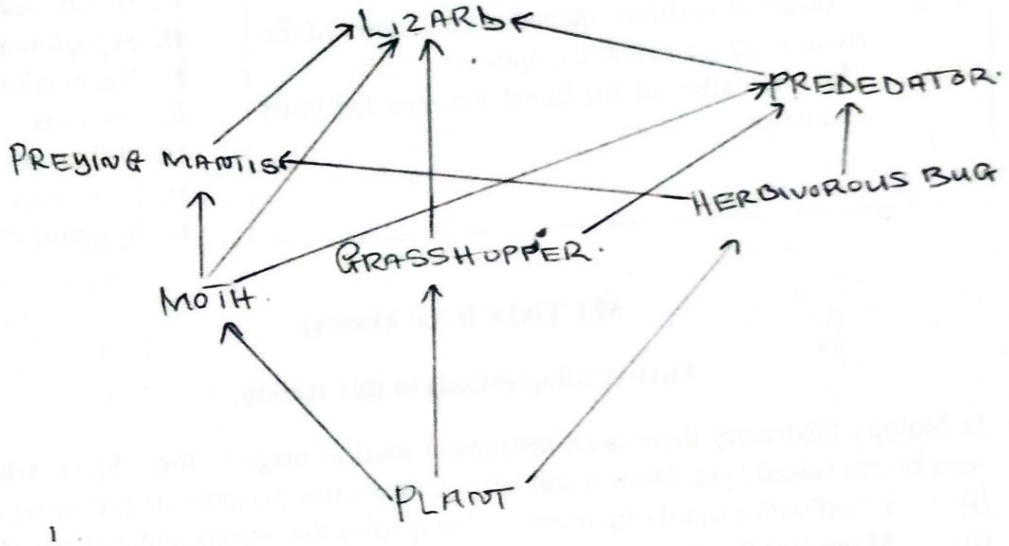

(b) A woman of blood group A claims that a man of blood group AB is the father of her child. A blood test reveals that the child's blood group is O. is it possible that the woman's claim is correct? Give reasons by illustrating to support your answer.

7. Explain the biological significance of the following;
   (i) Branched tracheal system in insects
   (ii) Stomata are located in the lower part of the leaf.
   (iii) Plants shed off leaves during dry season.
   (iv) It is advised to irrigate your plants in early morning or late evening.

8. It has been pointed out that bottle feeding can substitute breast feeding. However, there are advantages for breast feeding. State four (4).

9. Briefly explain Lamarckism theories of organic evolution.

10. The diagram below represents a feeding habit in which energy is passed from one organism to another.

(a) (i) What is the name of the relationship represented in figure above?
   (ii) Which organism is the primary source of energy?
   (iii) What does the sequence plant ⟶ lizard represent?

(b) Which organisms are;
   (i) Primary consumers
   (ii) Secondary consumers

11. (a) What factors bring about changes of osmotic regulation?
   (b) Name the organs which are much involved in osmoregulation.

12. It has been observed that waste is increasing daily in the community. Suggest three (3) ways of eliminating waste in the community and its three (3) consequences for poor disposal.

SECTION C (25 Marks)

Answer only two (2) questions from this section. Question 13 is compulsory.

13. On 6th march 2020 Minister of healthy Honorable Ummy Mwalimu announce the occurrence of killing disease called Corona (**Covid 19**) in our country. Many Tanzanians were confused because all schools, colleges and universities were closed. As you are educated person educate majority on the causes, symptoms and preventive measures of Corona disease. **(15 marks)**

14. Many people believe that all bacteria are harmful. As biologist explain six (6) importances of bacteria.

15. (a) Define eukaryotic cell.
    (b) Briefly explain the differences between a chick cell and an onion cell.

REGIONAL FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

061 COMMERCE

Time: 3 Hours **Tuesday, 18th August 2020 p.m**

Instructions

1. This paper consists of section A, B and C.
2. Answer all questions in section A and B and two (2) questions from section C.
3. Calculators, Cellular phones and any unauthorized materials are not allowed in the examination room.
4. Write your examination number on every page of your answer booklet(s).

This paper consists of four printed pages

SECTION A (20 Marks)
Answer all questions in this section.

1. For each of the items (i) – (x) choose the correct answer from among the given alternatives and write its letter beside the item number in the answer book provided.

(i) One of the privileges enjoyed by private companies is that;
A. There is no need for a memorandum of association
B. There is no need for registration
C. There is no need for preparing statutory reports and holding statutory meetings
D. Its shares are sold to the general public

(ii) Management of stock in a warehouse is known as;
A. Stock control
B. Stock evaluation
C. Stock taking
D. Stock administration

(iii) The means of transmitting information electronically is called;
A. Telecommunication
B. Satellite
C. E-mail
D. Website

(iv) By using the theory of demand, which factor influences the buying decision of customers?
A. Number of procedures
B. Cost of production
C. Level of technology
D. Availability of capital

(v) Businessmen who do not have permanent business premises are known as;
A. Itinerant traders
B. Gamblers
C. Brokers
D. Retailers

(vi) Ms. Chinga's total sales during the year 2017 was 160,000/= if her gross profit was 20% of sales, what was the cost of goods during the year?
A. 32,000/=
B. 192,000/=
C. 128,000/=
D. 160,000/=

(vii) Are goods attract customers who are well off;
A. Producer goods
B. Customer goods
C. Giffen goods
D. Richer goods

(viii) Why Tanzania Revenue Authority (TRA) insists on the of Electronic Fiscal Device (EFD) machine;
A. Enables the government to obtain income from selling EFD machine
B. It reduces the tax burden to all tax payers

C. It enable customers to pay tax to businessmen
D. It transmit sales analysis and stock control to tax authority system automatically

(ix) How does advertising become a burden to the users of the product;
A. It increases production
B. It reduces quality of the product
C. It increases the selling or final price
D. It increases the turnover

(x) Mwamvua traders' daily sales volume is 3 tons, minimum stock is 10 tons and delivery time is 2 weeks. What will be his order point?
A. 52 tons
B. 16 tons
C. 143 tons
D. 60 tons

(xi) A person who coordinates all productive resources and bears the business risk is called;
A. A business director
B. An entrepreneurship
C. An entrepreneur
D. Customer

(xii) A change in total cost due to additional unit of output;
A. Mark up cost
B. Marginal cost
C. Production cost
D. Fixed cost

(xiii) The effect of increase in supply is reflected by;
A. A shift of supply curve to the right
B. A shift of supply curve to the left
C. Downward movement along the supply curve
D. An upward movement along the supply curve

(xiv) Which are places where ships are waiting for cargo?
A. Terminals
B. Overseas
C. Docks
D. Customs

(xv) Main feature of deferred payment;
A. The property remain the property of seller up to the last installment
B. The product become the property of buyer as soon as the first installment is made
C. The property remain in between the buyer and the seller
D. The property becomes the property of buyer after the last installment.

2. Match the items in list A with the corresponding item in list B by writing the letter of the correct response beside the item number in the answer booklet provided.

LIST A		LIST B
(i)	A cheque on which the name, amount or signature on it is incorrect	A. Forged cheque B. Open cheque

(ii)	The person who receives the cash when a cheque is accepted by a bank	C. Endorsement D. Post dated cheque E. Inflation F. Deflation G. Payee H. Drawee I. Drawer
(iii)	The transfer of the rights of the cheque from one person to another	
(iv)	A cheque which has no two parallel lines across its face	
(v)	The cheque presented before the written on it (maturity)	

SECTION B (50 Marks)
Answer all questions.

3. Distinguish between the following concepts;
   (a) Tax evasion and tax avoidance
   (b) Nominal partner and real partner
   (c) Direct production and indirect production
   (d) Market and marketing
   (e) Internet and intranet

4. An entrepreneur so as to be successful should be an innovator. Briefly explain the functions of an entrepreneur.

5. Given the following information;
   (a) Stock 01/01/2012 .....800 Tshs.
   (b) Stock 31/12/2012 .....1200 Tshs.
   (c) Purchases .....10,000 Tshs.
   (d) A uniform fraction of $^1/_6$ margin is applied, find;
      a) A mark up
      b) Cost price
      c) Gross profit
      d) Sales figure

6. Differentiate between partnership and joint stock companies.

7. Explain circumstances where wholesaler can be eliminated in chain of distribution. (5 points)

SECTION C (30 Marks)
Answer two (2) questions from this section.

8. Mr. Kipara a businessman in Katavi always complains of the government deductions from his monthly salary as a tax; he does not understand why the government does so. Explain to him the type of tax imposed on him, graphically explain the system used by the government and give three (3) pros and three (3) cons of the type of tax imposed to Mr. Kipara.

9. Explain how electronic communication can be useful in business activities.

10. Many Tanzanian traders import goods and raw materials from China but due to eruption of Corona disease (Covid 19) the government decided to control importations from China. Give five (5) ways that the government may use to restrict traders in importing goods from abroad.

PRESIDENT'S OFFICE

REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT – RALG

COAST REGION

REGIONAL FORM FOUR SECONDARY EDUCATION MOCK EXAMINATION 2020

062 BOOK KEEPING

Time: 3 hours Wednesday, 19th August 2020 p.m

Instructions

1. This paper consists of section A, B and C with a total of **nine (9)** questions.
2. Answer **all** questions in section A and B and **two (2)** questions from section C.
3. Except for diagrams that must be drawn in pencil, all writing should be in blue or black ink.
4. Calculators, Cellular phones and any unauthorized materials are not allowed in the examination room.
5. Write your examination number on every page of your answer booklet(s).

This paper consists of six printed pages

SECTION A (15 Marks)

Answer all questions in this section.

1. For each of the items (i) –(x) choose the correct answer from among the given alternatives and write its letter beside the item number in the answer book provided.

(i) Which of the following is not a source document;
- A. Remittance advice notes
- B. Sales journal
- C. Cash sales slip
- D. Payment vouchers

(ii) Where there is no partnership agreement then profit and loses;
- A. Must be shared in the same proportion as capital
- B. Must be shared equally after adjusting for interest on capital
- C. Must be shared equally
- D. None of the above

(iii) A credit balance brought down on rent account means;
- A. We have paid too little in rent
- B. We hence paid too much rent
- C. We owe that rent at that date
- D. We accrue that rent at the previous date

(iv) Error are corrected via the journal because;
- A. It provides a good record explaining the double entry record
- B. It saves the book keeping time
- C. It serves entering them in the ledger
- D. It is much easier to do so

(v) A cheque which is denied payment by the bank is known as;
- A. Honored cheque
- B. Dishonored cheque
- C. Bank accepted cheque
- D. Uncredited cheque

(vi) The class of account which represents revenue account is;
- A. Asset account
- B. Real account
- C. Personal account
- D. Nominal account

(vii) A credit balance of Tsh. 500,000/= in the cash column of the cash book means;
- A. The book keeper made a mistake
- B. We have spent more than we have received
- C. The book keeper has stolen Tsh. 500,000/=
- D. We have spent less than we have received

(viii) The difference of sum of fixed asset and current assets is called;
- A. Capital owned
- B. Circulating capital
- C. Capital employed
- D. Working capital

(ix) It is operated by the pay master general in the central bank;
A. Government account
B. Accounting officer
C. Authorized council account
D. Controller and audit general

(x) At the end of the financial year, bad debts accounts is closed and transfer to the;
A. Balance sheet
B. Trading account
C. Account of expected bad debts.
D. Profit and loss account

(xi) Income and expenditure account is;
A. Real account
B. Nominal account
C. Personal account
D. None of the above

(xii) Which of the following is not factor may cause capital to change;
A. Circulating capital
B. Profit
C. Loses
D. Drawings

(xiii) A person appointed by the ministry of finance to control the issue of public money;
A. Accounting officer
B. Paymaster general
C. An authorized officer
D. Warrant holder

(xiv) Refers to the additional payment to an agent who guarantees the debts incurred by customers;
A. Pro-forma commission
B. Credit notes
C. Del-credere commission
D. Consignors gain

(xv) Which of the following is not an asset;
A. Building and land
B. Loan from Matata and account payable
C. Inventories and cash balance
D. Account receivable and bank balance

2. Match the items in list A with the corresponding item in list B by writing the letter of the correct response beside the item number in the answer booklet provided.

COLUMN A		COLUMN B
(i)	It contains debtors personal account	A. Authorized officers
(ii)	Are persons appointed by the accounting officers to incur and control public expenditure	B. Accounting officers
(iii)	It contains real and nominal accounts	C. Pro-forma invoice
(iv)	Document sent to customer who is required to pay for goods before they are delivered	D. An invoice
(v)	An authority letter used by the accounting	E. Warrant of fund
		F. General journal
		G. Sales ledger

officer for specific expenditure.	**H.** Cash book **I.** Warrant holder

SECTION B (50 Marks)
Answer all questions in this section

3. Define the following terms;
   (i) Consignors
   (ii) Ambit of vote
   (iii) Budget
   (iv) Partnership deed
   (v) W.I.P

4. Complete the following bank statement.

Date	Detail	DR	CR	Balance
1/1	Balance b/d			20,000
5/1	Cheque	10,000		.....
7/1	Cheque		15,000	.....
9/1	Wamoja		7,000	32,000
11/1	Bank charges	500		.....
12/1	Standing order	1500		.....
15/1	Credit transfer		2500	.....
31/1	Balance c/d			.....

5. (a) Accrued transport at the beginning of the month was Tsh. 120,000. At the end of the month Tsh. 345,000 was transferred to profit and loss account and Tsh. 5,000 was prepaid. Tsh. 160,000 of transport was accrued but not yet paid during the month. Without using T account compute the amount of transport paid during the year.

   (b) Mpoto is a trader who sells all of his goods at 20% above cost. His books give the following information at 31 December 2018;

   Stock 1 January 2018 19,400
   Stock 31 December 26,660
   Sales for year 155,880

   You are required to calculate rate of stock turnover.

6. (a) Fill the empty space.

S/N	Fixed assets	Current assets	Lon term liability	Current liability	Working capital	Capital owned	Capital employed
1	20,000	12,500	2,500	5,000	**(a).....**	**(b).....**	**(c).....**
2	**(d).....**	23,200	**(e).....**	12,200	23,200	21,000	31,000

   (b) The following are the fixed and current assets which were in the balance sheet of Mr. Pendahaki as at 28th February 2005.

Furniture	15,000
Stock	400,000
Debtors	250,000
Motorcar	25,000
Cash at bank	500,000

Land	20,000
Cash in hand	100,000
Premises	10,000

Required:
Arrange the flowing transaction in their types according to their values.

SECTION C (30 Marks)

Answer two (2) questions from this section

7.

CASH BOOK

DR		CR	
Melina and sons	14,690	Balance b/d	7,610
Balance c/d	5,540	Joan and John	12,620
	20,230		**20,230**

All transactions in the cash book are banked. On investigation it was discovered;

(i) A cheque for Tsh. 220 for sundries had been entered in the cash book as receipt instead of as payment.

(ii) Cheque received total 7,620 had been enteredin the cash book and paid into the bank but had not been credited by the bank until 3 November.

(iii) A cheque drawn amounting to Tsh. 2,670 had not been presented to the bank for payment.

(iv) Bank charges of Tsh. 1,360 entered on the bank statement have not been entered in the cash book.

(v) A cheque received from J. Mass for Tsh. 800 had been returned by the bank and marked "NO" fund available. No adjustment has been made in the cash book.

Required:

(i) Prepare adjusted cash book.
(ii) Prepare bank reconciliation statement starting with balance as per adjusted cash book.
