PRIME MINISTER'S OFFICE
REGIONAL ADMINISTRATION AND LOCAL GOVERNMENT
ARUSHA REGIONAL MOCK 2026
FORM TWO – FOOD AND NUTRITION
MARKING SCHEME

1. SECTION A

A	(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)	
B	B	C	A	B	B	D	A	D	B	C	

1 mark @ = 10 marks.

2.

A	(i)	(ii)	(iii)	(iv)	(v)	
B	B	C	A	D	E.	

1 mark @ = 5 marks.

SECTION B

3. Stages of making tea.

(i) Warm up the teapot before making tea in it.
(ii) Put tea leaves and spices in the tea pot.
(iii) Boil water and pour it into the tea pot.
(iv) Cover the tea pot and allow the tea leaves to infuse for 3–5 minutes. A prolonged infusion may make tea bitter.
(v) Strain your tea into another warmed tea pot.
(vi) Pour it into a tea cup and add sugar, honey or lemon (optional).
(vii) Serve

2 marks @ = 10 marks

4. Ways to retain food nutrients during preparing and cooking.

(a) Wash before cutting this prevents from being washed away.

(b) Avoid soaking foods too long especially vegetables

(c) cut into large pieces, smaller pieces lose more nutrients.

(d) Use fresh food – nutrients decrease with long storage.

(e) Cook food for a short time – overcooking destroys nutrients.

(f) Use less water – excess water dissolves vitamins

(g) Avoid very high heat for long periods – cook with lids on to reduce nutrients Loss.

2 marks @ = 10 points.
Total = 10 marks

5. (a) (i) Hygiene and cleanliness – By using chopping board reduces contamination from bacteria and dust.

- Provides a stable surface, reducing the risk of the knife slipping ~~also~~ therefore helps prevent cuts and injuries.
- Prevent nutrient loss as it limits unnecessary exposure to dirt Helps avoid contamination that could spoil the nutrients.
- Helps to cut mangoes into neat, even pieces

1 mark @ = 2 marks.

5 (a) (iii) Putting knife in its sheath. Significance
- Prevents injuries so avoidance of accident
- Protects the blade from dust, dirt and germs
- Protect the blade from becoming blunt or damaged.
- Reduces rusting by limiting exposure to moisture and air.

1 mark @ = 2 marks.

(b) challenges obtained after chopping mangoes on the board.
(i) Mango are juicy make both fruit and board slipperly so it increases risk of cuts or injuries
(ii) Require good knife skills to avoid uneven size
(iii) Peeling difficulties can lead to wasted of fruit
(iv) It difficult to cut evenly due to the seed therefore someone may accidentally hit the seed while cutting

1 mark @ = 3 marks.

c. Ways of solving problems/challenges
(i) To use sharp knife.
(ii) Cut along sides of the seeds.
(iii) Use a spoon to scoop out soft flesh.
(iv) Place a damp cloth under the chop board to stop slipping.

1 mark @ = 3 marks.

Total 10 marks

6 (a) Vegetarians can obtain protein from the following sources

(i) Legumes e.g Beans, Lentils, chickpeas, whole wheat, almonds, groundnuts, etc

(ii) Soy products e.g Soya beans, Tofu, Soy milk

1 mark source
2 examples @ 0½
Total 3 marks.

(b) Factors to consider when choosing fruits and Vegetables for salads.
