KINONDONI MUSLIM SECONDARY

BIOLOGY

INSTRUCTIONS:

- **This paper consists of three sections**
- **Answer all questions from section A and B and one question in section C.**

SECTION A (30 Marks)

1. Questions (i) –(x) are multiple choice items. Write down the correct letter of the answer in each case.

   (i) If the magnifying power of the eye piece lens of a compound/light microscope is x10 and the total magnification of a specimen under observation is x400. What is the magnifying power of objective lens?

   A. X10
   B. X4000
   C. X50
   D. X40

   (ii) Which of these pairs do not match

   A. Tongue – sugar
   B. Eye – eye shadow
   C. Ear – music
   D. Nose – perfume

   (iii) Puberty is accompanied by many changes both in boys and girls. Which of the following is NOT a changes in girls during puberty?

   A. Hip broadens
   B. Menstruation begins
   C. Hairs grows in the armpits and pubic areas
   D. Milk production begins

   (iv) The immunity acquired through vaccination where by a vaccine contains dead or weakened pathogen is called:

   A. Natural passive immunity
   B. Natural active immunity
   C. Artificial active immunity
   D. Artificial passive immunity

   (v) Which of the following type of experiment contains all conditions under investigation?

KINONDONI MUSLIM SECONDARY

A. Control experiment
B. Scientific experiment
C. Test experiment
D. When using a microscope

(vi) The basic importance of all laboratory rules is to:

A. Avoid dirt in the laboratory
B. Avoid microorganism in the laboratory
C. Reduce or stop accidents in the laboratory
D. Avoid improper use chemicals in the laboratory

(vii) Which of the following is not a precaution to consider when handling a light microscope?

A. Use two hands when carrying a light microscope
B. Use hot water to clean a microscope
C. Do not touch the mirror or lens
D. After use, clean the microscope and store it in a safe place

(viii) Which one of the following is not a treatment for a person who got snakebite?

A. Calm the person and have tem lie or sit down
B. Mobilize the bitten area to slow down the spread of venom
C. Wash the wound using soap and water
D. Do not apply ice, try to remove venom from the wound

(ix) Which of the following includes types of household waste?

A. Papers, leftover food and old clothes
B. Old clothes, amputated organs and broken glass
C. Waste water, construction waste and old clothes
D. Blood, soiled dressing and broken glass

(x) A car uses petrol and gives out a smoke-in living things, these are equivalent to:

A. movement and respiration
B. Locomotion and Nutrition
C. Nutrition and Excretion
D. Eating and Running
E. Eating and Breathing

ANSWERS:

(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)

KINONDONI MUSLIM SECONDARY

2. The following statements are either true or false. Write **TRUE** if the statement is true and **FALSE** if the statement is false on the space provided.

(i) Breath into plastic bag when you have a chocking……

(ii) A scientific experiment is incomplete if a control experiment is omitted……..

(iii) Compost heaps are made from layers of vegetable matters……

(iv) Condenser concentrates light on the stage, which is reflected by diaphragm ……

(v) Personal hygiene also includes good grooming……..

(vi) Anatomy deals with external physical structures of the body……

(vii) Infection and disease are two words meaning the same……..

(viii) Good manner is behavior that is socially appreciated……..

(ix) Unicellular organisms include bacteria, viruses and all protozoans…….

(x) You should immediately run into water to save a drowning person……..

3. Match the item in list A with the correct item in list B by writing its letter below the numbers of the corresponding item in list A in the table provided.

LIST A	LIST B

KINONDONI MUSLIM SECONDARY

(i) To be physically, mentally and socially unwell being. (ii) Factor that affects immunity (iii) It provides instant response but it is short term (iv) The invasion of the body by a disease-causing microorganism. (v) A disease that occurs over a wide geographical area. (vi) Type of vaccine (vii) Infantile paralysis (viii) General term used to mean a period of not being in good health. (ix) Genetic disorder (x) Vector of malaria	A. Albinism B. Rickets C. Anopheles D. Plasmodium E. Healthy state F. Unhealthy state G. Voxoid vaccine H. Toxoid I. Disease J. Illness K. Artificial passive immunity L. Artificial active immunity M. Complete treatment N. Extreme stress O. Polio P. Measles Q. Antigen R. Infection S. Endemic T. pandemic

ANWERS:

(i)	(ii)	(iii)	(iv)	(v)	(vi)	(vii)	(viii)	(ix)	(x)

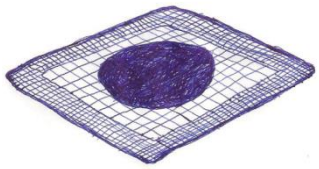

SECTION B (50 Marks)

4. (a) What do you understand the term “laboratory rules”?

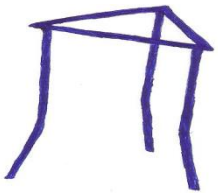

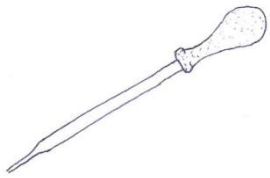

……

……

(b) Write down the name of the apparatus and state its functions

	Apparatus	Name	Function
i)			

KINONDONI MUSLIM SECONDARY

ii)		
iii)		
iv)		

c) List down four (4) laboratory rules and state the significance of each

(i) .....

.....

(ii) .....

.....

(iii) .....

.....

(iv) .....

.....

5. a) Define the term "First Aid"

b) Explain the uses of the following First Aid components

(i) Scissor (ii) Adhesive bandage (iii) Antiseptic

c) During the school football tournament, you have been assigned as the one who will give the first aid to the injured players. When a player falls and have a foot cramp. What are you going to do as first aid?

.....

.....

.....

.....

.....

KINONDONI MUSLIM SECONDARY

……

6. a) Define the term waste.

……

……

b) Mention the basic principles of waste disposal.

(i) ……

(ii) ……

(iii) ……

c) Briefly outline five (5) methods of waste disposal at home.

……

……

……

……

……

……

……

……

7. a) Give out the meaning of the following terms

(i) Experiment……

……

(ii) Dependent variable……

……

(iii) Independent variable……

……

b) In descending order, mention five scientific methods

(i) ……

(ii) ……

(iii) ……

(iv) ……

(v) ……

c) What scientist is supposed to do when a hypothesis is rejected ?

……

……

KINONDONI MUSLIM SECONDARY

8. a) (i) Define mycology

……

(ii) Which branch of biology deals with cells? ……

……

b) Distinguish between the following:-

(i) Nutrition and Respiration ……

……

……

(ii) Movement and Locomotion ……

……

……

(iii) Irritability and Sensitivity ……

……

……

c) "You are doing biology exam now" how does it benefits in your daily life. (Four points)

(i) ……

(ii) ……

(iii) ……

(iv) ……

SECTION C (20 Marks)

9. Write an essay on personal hygiene using the following guidelines:
- Meaning of personal hygiene
- Principles of personal hygiene
- Requirements of personal hygiene
- Importance of personal hygiene

10. Write an essay about malaria using the following guidelines
- Cause and transmission
- Symptoms
- Effects
- Prevention

KINONDONI MUSLIM SECONDARY

PHYSICS

INSTRUCTIONS:

1. This paper consists of sections A, B, and C.
2. Answer **ALL** questions in all sections.
3. If necessary use the following constants:
   - Force of gravity; g = 10 N/kg
   - Acceleration due to gravity, g = $10m/s^2$
   - Density of water = 1000 kg/m^3 = 1 g/cm^3.

SECTION A (20 marks)
Answer ALL questions from this section

1. For each of the following items, choose the correct answer among the given alternatives and write its letter beside the item number.

   (i) A quantity which can cause change in the speed or direction of a moving body is
   A. Mass
   B. Density
   C. Weight
   D. Force

   (ii) A support force exerted upon a body which is in contact with another stable body is called
   A. Torsion force
   B. Gravitation force
   C. Frictional force
   D. Normal force

   (iii) A material which does not recover its shape when a force is removed from it is known as
   A. Plastic material
   B. Elastic material
   C. Elastic limit
   D. Deformation

   (iv) The ability of a liquid surface to act as a stretched elastic skin is called
   A. Stretching force
   B. Capillarity
   C. Surface tension
   D. Elastic body

   (v) The weight of 200g mass is
   A. 0.2 N
   B. 0.02 N
   C. 2.0 N
   D. 0.002 N

   (vi) The force of attraction between the molecules of the same substance is called
   A. Cohesive force
   B. Adhesive force
   C. Gravitational force
   D. Strong force

KIWONDONI MUSLIM SECONDARY

(vii) An object weighs 60N in air and 40N in water, then its relative density is

A. 0.3
B. 3.0
C. 0.3 N
D. 3.0 N

(viii) Which of the following quantities is the same for a body on Earth and on the Moon?

A. Density
B. Weight
C. Mass
D. None

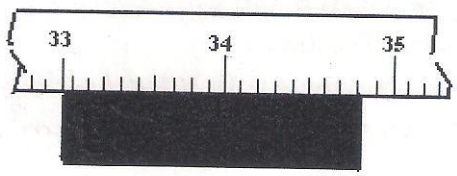

(ix) Which of the following expression represents the volume of a cylinder?

A. πr^2
B. $\pi r^2 h$
C. $\frac{1}{3}\pi r^2 h$
D. $\frac{4}{3}\pi r^3$

(x) An organized way of testing hypothesis is

A. Measurement
B. Experiment
C. Observation
D. Theory

(xi) The figure below shows a metre rule being used to measure the length of a wood.

The length of the wood is approximately

A. 1.8 cm
B. 2.8 cm
C. 34.8 cm
D. 1.8 mm

(xii) A boat has a mass of 1000 tonnes and it is floating in a sea water. Therefore, the amount of water displaced is

A. 10000 tonnes
B. 1000 N
C. 1000 kg
D. 1000 tonnes

(xiii) Which of the following is not a derived unit?

A. Kilogram
B. Newton

KINONI MUSLIM SECONDARY

C. Pascal
D. Newton per kilogram

(xiv) One of the following is not an example of a force
A. Torsional
B. Repulsive
C. Newton
D. Gravity

(xv) Archimedes principle deals with
A. Floating body
B. Motion of a body
C. Apparent weight of a body
D. Real weight of a body

(xvi) Which is true about Pascal's principle?
A. Pressure is equally transmitted in a liquid
B. Pressure is the force per unit area
C. Pressure in liquid depends on the depth
D. Pascal is the unit of pressure

(xvii) Which phenomenon is taking place when kerosene rises up a wick?
A. Capillarity
B. Osmosis
C. Cohesion
D. Evaporation

(xviii) Which of the following is observed when a tea bag is dipped into a cup of hot water?
A. Osmosis
B. Diffusion
C. Cohesion
D. Adhesion

(xix) A pressure exerted by a body increases as
A. Its area increases
B. Its density decreases
C. Its area decreases
D. Its unit is N/m^2

(xx) Which of the following statements is false?
A. Mercury particles have high cohesive force
B. Soap and other detergents reduce a surface tension of water
C. The adhesion of water molecules make it wetglass
D. Any body floating in water its density is higher than a density of water.

KINONDONI MUSLIM SECONDARY

ANSWERS:

i	ii	iii	iv	v	vi	vii	viii	ix	x	xi	xii	xiii	xiv	xv	xvi	xvii	xviii	xix	xx

SECTION B (40 Marks)

2. Match the items in list A with correct responses in list B by writing the letters of the correct responses besides the item number.

LIST A	LIST B
(i) It is always slows things down	A. Force
(ii) Force of gravity	B. Upthrust
(iii) Molecules move from a low to a high concentration	C. Cohesion
(iv) Force of attraction between molecules of different substances	D. Osmosis
(v) Change the shape and size of a body	E. Fundamental force
(vi) Apparent loss in weight	F. Friction force
(vii) Produced on solid object when it is twisted	G. Depth and density
(viii) Factors on which the pressure exerted by a liquid depends	H. Adhesion
	I. Torsion force
	J. diffusion

LIST A	i	ii	iii	iv	v	vi	vii	viii
LIST B								

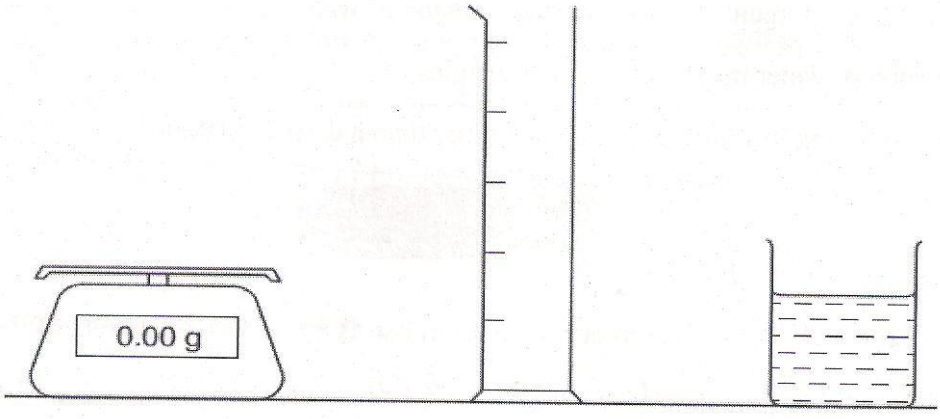

3. Fill in the blanks with appropriate words.

(i) The four fundamental forces are _____, _____, _____ and _____.

(ii) Laboratory is a working room for _____ where they carry out their _____.

(iii) When a body is totally or partially immersed in a fluid it experiences an _____ which is equal to the _____ of the fluid displaced. (08 marks)

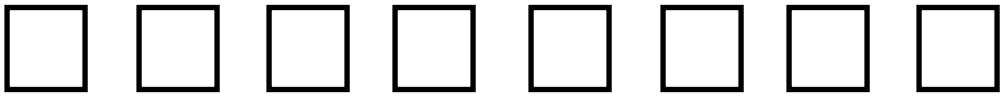

4. Mai uses her apparatus to measure the density of water. The sentences below describe her experiment for measuring the density of the water, but they are not in the correct order. Use the letters to write the correct order in the boxes provided. (08 marks)

A Pour 50 cm^3 water into the measuring cylinder.
B Divide the mass of the water by 50.
C Remove the empty measuring cylinder from the scales.
D Place the empty measuring cylinder on the scales.
E Subtract the mass of the measuring cylinder from mass of the measuring cylinder and water.

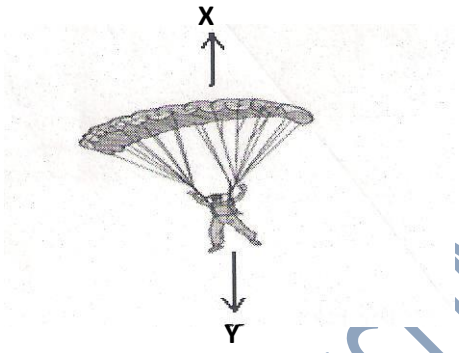

KIN MUSLIM SECONDARY

F Note the mass of the empty measuring cylinder.
G Note the mass of the measuring cylinder and the water.
H Place the measuring cylinder and water on the scales.

5. (a) What do you understand by the term
   (i) Air resistance (2 marks)
   (ii) Gravitational force (2 marks)
   (iii) Viscous force (2 marks)

   (b) A skydiver jumps from a plane and falls towards the Earth before his parachute opens.

   One the diagram above, name the force (2 marks)
   (i) X _____
   (ii) Y _____

6. (a) (i) Define pressure (1 mark)
   (ii) State the SI unit of pressure (1 mark)

   (b) Explain why dams are constructed thicker at the bottom than at the top (2 marks)

   (c) Name four laboratory rules applied to a person using it. (4 marks)

SECTION C (40 Marks)

7. (a) (i) State Hooke's law. (2 marks)
   (ii) Identity two applications of elasticity (2 marks)

   (b) Distinguish between
   (i) Elastic material and plastic material (2 marks)
   (ii) Elastic limit and plastic deformation (2 marks)

KINONDONI MUSLIM SECONDARY

(c) The spring stretched from 10cm to 22cm when a force 4N is applied. If it obeys Hook's law, what its total length when a force of 6N is applied? (2 marks)

8. (a) (i) Define matter. (1 mark)
(ii) List three states of matter and give two examples from each. (3 marks)

(b) Differentiate between solids, liquids and gases in terms of
(i) Forces between the particles
(ii) Distances between the particles (6 marks)
(iii) Movement of molecules.

9. (a) Define the following terms:
(i) Upthrust (1 mark)
(ii) Real weight (1 mark)
(iii) Apparent weight (1 mark)
(iv) Apparent loss in weight (1 mark)

(b) A body weighs 1.2 N in air and 0.9 N when completely immersed in water. Calculate
(i) The density of the body (3 marks)
(ii) The relative density of the body (3 marks)

10. (a) State two applications of Density and Relative Density. (3 marks)

(b) A glass block of density 2500kg/m^3 measures 20cm x 10cm x 50cm. Determine,
(i) Volume of the block in cubic meter (m^3) (1 mark)
(ii) Mass of the block (2 marks)
(iii) Weight of the block (1 mark)
(v) Relative density of the block (3 marks)

KINONDONI MUSLIM SECONDARY

CHEMISTRY

INSTRUCTIONS:

1. Answer ALL questions in the space provided for each question.
2. All writing must be done in black or blue pen except for drawings which must be in pencil.

SECTION A: (15 marks)

1. Write down the letter corresponding to the most correct answer in the space provided for each question.

   (i) Sets of apparatus suitable for measuring volume of solutions
   - A. Burette, pipette and beaker
   - B. Measuring cylinder, burette and pipette
   - C. Burette, pipette and conical flask
   - D. Burette, round bottomed flask and pipette.

   (ii) To enable you to make accurate observations, most apparatus are made of
   - A. Metal
   - B. Plastic
   - C. Porcelain
   - D. Colourless glass

   (iii) Which of the following is made of same kind of atoms?
   - A. Compound
   - B. Element
   - C. Mixture
   - D. Solution

   (iv) Which group among the following elements are metals
   - A. Calcium, magnesium and sodium
   - B. Hydrogen, calcium and nitrogen
   - C. Calcium, carbon and magnesium
   - D. Chlorine, oxygen and nitrogen.

   (v) The apparatus which is most suitable of the separation of immiscible liquids is a
   - A. Filter funnel
   - B. Filter paper
   - C. Separating funnel
   - D. Dropping funnel

   (vi) Flammable chemicals are the ones which can
   - A. Explode easily
   - B. Burn your skin
   - C. Catch fire easily
   - D. React easily

   (vii) All chemical are

KINONDONI MUSLIM SECONDARY

A. Toxic
B. Potential poison
C. Completely safe
D. Elements

(viii) The choice of the source of heat depends on the
A. Colour of the flame
B. Quantity of heat produced
C. Substance to be burned or boiled
D. Types and shape of flame

(ix) Factor in the experiment that changes its value when the value of the other variables change
A. Controlled variable
B. Manipulated variable
C. Dependent variable
D. Independent variable

(x) Which of the following is used to apply on burns?
A. Water
B. Soap
C. Iodine tincture
D. Petroleum Jelly

i	ii	iii	iv	v	vi	vii	viii	ix	x

SECTION B: (12 marks)

2. Match the items in list A with the response in list B by writing the letter of correct responses beside the items number.

LIST A	LIST B
(i) Hypothesis	A. Summery of the result
(ii) Experiment	B. Does not affect problem you want to investigate
(iii) Data collection	C. Test facts systematic
(iv) Scientific procedure	D. Comparing the results obtained
(v) Analysis	E. Affect problem you want to investigate
(vi) Variable	F. Test theory systematic
(vii) Drawing conclusion	G. Unplanned piece of work
(viii) Project work	H. Best possible answer to the question
	I. Record what you have observed
	J. To test possible answer
	K. Planned piece of work
	L. Possible experiment

i	ii	iii	iv	v	vi	vii	viii

SECTION B: (73 marks)

Answer ALL questions from this section

3. (a) What do you understand by the following terms

KINONDONI MUSLIM SECONDARY

(i) Firs Aid_____

_____

(ii) Firs Aid Kit_____

_____

(b) Name four components which can be found in a First Aid Kit.

(i) _____

(ii) _____

(iii) _____

(iv) _____

(c) Why is it important to provide first Aid to the injured person? Give four reasons

(i) _____

(ii) _____

(iii) _____

(iv) _____

4. (a) What do you understand by the term element? (12 marks)

_____

_____

_____

_____

(b) Give any four properties of element

(i) _____

(ii) _____

(iii) _____

(iv) _____

(c) Write a chemical symbol for each of the following elements

(i) Iron_____

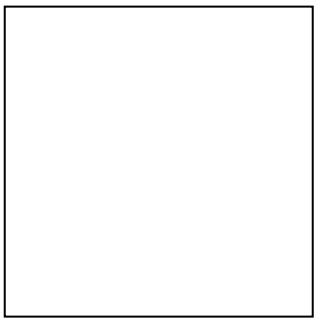

(ii) Silver_____

(iii) Gold_____ (12 marks)

(iv) Sodium _____

5. (a) Draw and give one function for each of the following laboratory apparatus:

(i) Crucible

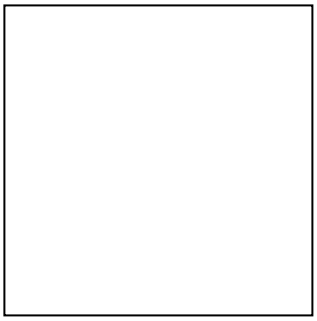

Function _____

_____

(ii) Dropper

KINONDONI MUSLIM SECONDARY

Function _____
_____

(iii) Gas jar

Function _____
_____

(iv) Test tube

Function _____
_____

(b) Define the following terms
(i) Laboratory_____
_____

(ii) Apparatus _____
_____

(12 marks)

KINONDONI MUSLIM SECONDARY

6. (a) Define the following terms

(i) Chemistry _____

_____

(ii) AlChemist_____

_____

(iii) Chemist _____

_____

(b) How does the study of chemistry influence human life and society? Give three examples.

(i) _____

_____

(ii) _____

_____

(iii) _____

_____ (12 marks)

7. (a) What do you understand by the following warn sign

(i) Explosive_____

_____

(ii) Corrosive_____

_____

(iii) Harmful__ _____

_____

(iv) Toxic _____

_____

(b) Draw the warning sign for each of the following

(i) Corrosive	(ii) Toxic
(iii) Explosive	

KINONDONI MUSLIM SECONDARY

	(iv) Harmful

8. (a) Define the following terms.

(i) Heat _____

_____

(ii) Flame _____

_____

(b) Name different types of Bunsen burner that may be found in the labor atory.

(i) _____

(ii) _____

(c) List four characteristics of

(i) Luminous flame.

_____

_____

_____

_____

(ii) Non – luminous flame.

_____

_____

_____

_____

(d) Describe the process of lighting Bunsen burner.

(i) _____

(ii) _____

(iii) _____

(iv) _____

(v) _____

(12 marks)

KINONDONI MUSLIM SECONDARY

BASIC MATHEMATICS

INSTRUCTIONS:

i) Answer all the questions in SECTION A and SECTION B showing all the necessary steps.

ii) Use the spaces provided to show your work. **Work in rough papers won't be marked.**

iii) Every question is 3 marks in SECTION A and 8 marks in SECTION B.

KHONDONI MUSLIM SECONDARY

SECTION A (60 MARKS)

1. Express 25.36 in the form $\frac{a}{b}$, where a and b are integers in their lowest terms and b is not equal to zero.

2. Evaluate;

a) $\frac{\frac{6}{4} \times \frac{16}{12} - \frac{4}{5}}{\frac{24}{36} \div \frac{6}{9} + \frac{1}{2}}$

b) $-70 \div 5 + 4 - [4 - 7 \times 2 - 3^2] - 1$

3. a) Find the greatest number which divides 36, 40 and 60 without remainder.

KINONDONI MUSLIM SECONDARY

b) Write 780 as the product of its prime factors

4. The sum of the two digit natural numbers *abc* and c*ba* is 545 and b = 2. Find the value of $a + b + c$

KINONDONI MUSLIM SECONDARY

5. Arrange the following numbers in ascending order;

$\frac{4}{5}$,25 % , 0.5 , $0.\dot{5}$

6. a) Find 35hg 23dag 20g – 27hg 17g 8dg

b) Fill the gaps by converting;

1-) 140m =……..km

2-) 12.5dam =……..dm

3-) 40l =……cm^3

KINONDONI MUSLIM SECONDARY

7. Evaluate $\frac{0.005}{0.5}+\frac{22.5}{2.25}-0.01$

KINONDONI MUSLIM SECONDARY

8. In a school, there is a menu that have already prepared for students. According to the menu, every 5 days mango fruit is provided for lunch, every 4 days fish, and every 9 days mixed salad. If today all the three types of food given above are all in the today's menu, after how many days they will the three types of food again be found together in the menu?

9. A bus is leaving the bus station at 5.37 a.m. and it takes 7 hours 48 minutes to reach its destination. What will be the time when it arrive its destination?

10. Round off ;

a) 246.63691 to three decimal place

b) 0.9071 to two significant figures

c) 1056.43 to one significant figures

KINONDONI MUSLIM SECONDARY

11. Sum of the current ages of two brothers is 32. If the elder brother is 6 years older than the young one, then find their ages respectively.

KINONDONI MUSLIM SECONDARY

12. In a class, the number of students is 40. If it is increased by 30% for the next year then find the number of the class in the next year .

13. Simplify $(\frac{x}{3}+\frac{3x}{2})\div\frac{24}{22x}+3$

14. Simplify the expression; 7m – 9n + 5p – 0.4m + 10n – 4.5p

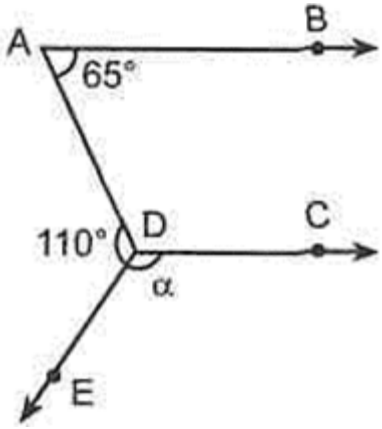

KINONDONI MUSLIM SECONDARY

15. Complete the following statements; a-) -5ay + 2by – 7cy = y(……)

b-) mx + ny – nx + my = x(……) +y (……..)

KINONDONI MUSLIM SECONDARY

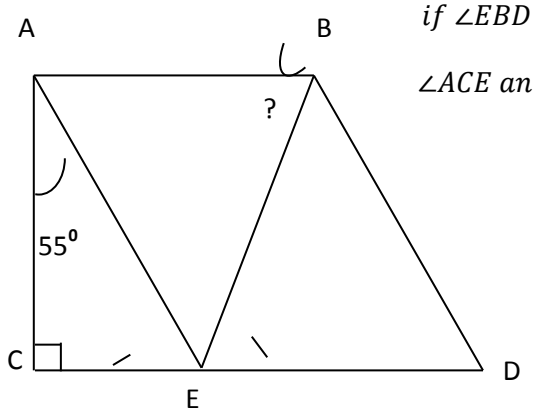

16.

$AB \parallel DC \quad \propto = ?$

17. If $2a+90^0$ and 110^0-3a are complementary angles, then find the value of a.

KINONDONI MUSLIM SECONDARY

18. 

if $\angle EBD$ *an equilateral triangle,* $AE = BE$ *and* $\angle ACE$ *an isosceles triangle. then find* $\angle ABE = ?$

19. $10x + 3 < 2\frac{1}{2}x - 12$ *, solve the* x *in that inequalities.*

KINONDONI MUSLIM SECONDARY

20. The sum of three consecutive odd numbers is 96. Find the biggest number?

KINONDONI MUSLIM SECONDARY

SECTION B

21. The sum of exterior angles of a polygon is 1800^0 less than the sum of its interior angles. How many sides does this polygon has?

22. Solve the pair of simultaneous equation by elimination method; $2x - 3y = 4$

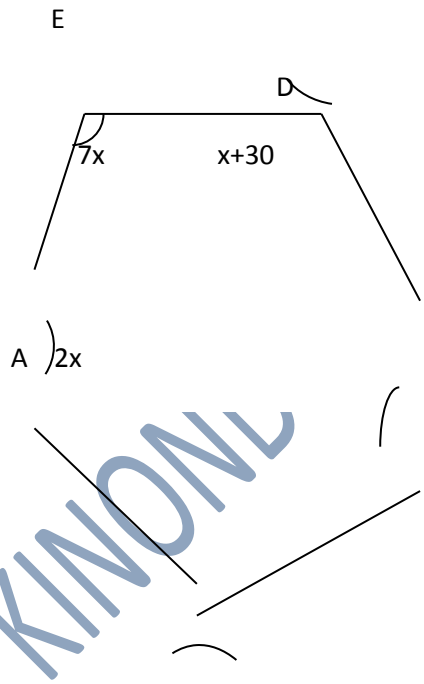

$3x + 4y = 5$

23. Solve the pair of simultaneous equation by substitution method; $\frac{x}{3} + 2y = 10$

$x - 3y = 6$

KINONDONI MUSLIM SECONDARY

24. Find the size of angle x in the following figure.

25. The number of girls in a class is 15 less than two-fifth of the whole class. If there are 30 boys, then what is the number of the students in the class

GEOGRAPHY

INSTRUCTIONS:

1. This paper consists of sections A and B.
2. Answer ALL questions in both sections.
3. All answers must be written in black or blue ink EXCEPT diagrams which must be in pencil.
4. ALL answers must be written in the space provided.

SECTION A:

1. For each of the following items choose the correct answer from the given alternatives and write its letter in the box provided below:-

(i) What causes the difference between the length of day and night?

A. Longitudes
B. Revolution
C. Rotation [ ]
D. The earth's orbit

(ii) Pangani town at the sea level has a temperature of 32^0C, what is the temperature of Ruaha 1500meters above sea level?

A. 0.6^0C
B. 9^0C
C. 21^0C [ ]
D. 23^0C

(iii) A weather instrument which is not kept in the Stevenson screen is:

A. Maximum thermometer
B. Minimum thermometer
C. Barometer [ ]
D. Wet bulb thermometer

(iv) Identify the incorrect association in the following pairs

A. Fold mountains and Himalayas
B. Block mountains and Ruwenzori
C. Volcanic mountains and Uluguru [ ]
D. Residual mountains and Ahagar

(v) The atmosphere is said to be humid only when:

A. It is saturated with water vapour
B. It is unsaturated with water vapour [ ]
C. It does not contain water vapour
D. It contains water vapour

(vi) The angular distance measured in degrees North and South of the equator is known as:

A. Latitude
B. Longitude
C. Altitude [ ]
D. Greenwich meridian.

KINONDONI MUSLIM SECONDARY

(vii) Find the longitude of a place when its local time, is 7:40 am when it is 10:00 am at a meridian
50^0E?
A. 35^0E
B. 15^0E
C. 65^0W [ ]
D. 15^0W

(viii) An area where a river system collects its rain water is called:
A. Watershed
B. Catchment area
C. Tributary [ ]
D. Distributary

(ix) Fold mountains are formed by:
A. Sinking of the earth's crust
B. Wrinkling of the earth's crust
C. Downwarping of the earth's crust [ ]
D. Faulting of the earth's crust.

(x) The time recorded along the same meridian is called:
A. Standard time
B. Local mean time
C. Time zone [ ]
D. Greenwich time.

2. Match each item in the list A with a response in list B by writing its letter below the number of the corresponding item in the table below:

LIST A	LIST B
(i) International date line	A. Cyclonic rain
(ii) The streams at the river mouth	B. Climate
(iii) Equatorial low pressure belt	C. Tributaries
(iv) The raised part of the ocean floor	D. Run off
(v) Formed when large masses of air with different physical properties meet.	E. Drainage
(vi) The conditions of the atmosphere which occur at a specific place and period of time.	F. Convectional rain
(vii) Weather station instruments shelter	G. Moo eclipse
(viii) Removal of water from the land surface.	H. Ocean deep
(ix) The side of the mountain facing away from the wind direction.	I. Distributaries
(x) When the moon passes between sun and the earth.	J. Stevenson Screen
	K. 180^0 East and West
	L. Doldrums
	M. Ridge
	N. Weather
	O. Solar eclipse
	P. Leeward side
	Q. Meteorological station
	R. Windward side

ANSWERS:

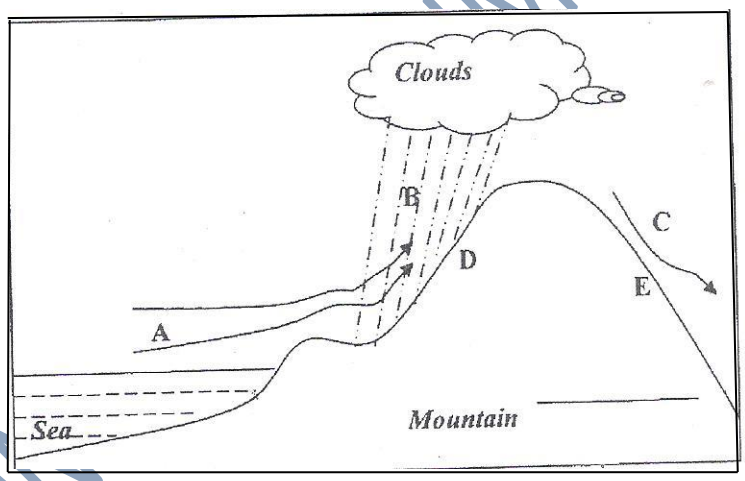

LIST A	i	ii	iii	iv	v	vi	vii	viii	ix	x

3. The following statements are either correct or not correct. Write **TRUE** if the statement is correct or **FALSE** if the statement is not correct.
   (i) The sun rotates from East to West._____
   (ii) The only continent that is crossed by both tropic of Cancer and Capricorn is America._____
   (iii) Lakes Kyoga, Victoria, Tanganyika and Chad are among the rift valley lakes._____
   (iv) Use of solar energy can accelerate environmental degradation. _____
   (v) The amount of salt is not the same at all places in oceans._____
   (vi) Trenches and ocean deeps are the same relief features of the river basin._____
   (vii) When there is a big difference in readings between the two thermometers, then humidity is low._____
   (viii) Pressure decreases with increase in height _____
   (ix) Cyclonic rainfall is most common in highland regions._____
   (x) There is more landmass in the Southern hemisphere than in the Northern hemisphere._____

SECTION B:

4. (a) Study the diagram below carefully then label features A – E.

   (i) Name the type of rainfall labeled B and the area where it usually occurs _____
   (ii) A stands for _____
   (iii) C stands for_____
   (iv) D stands for _____
   (v) E stands for _____

   (b) Five factors which can affect the temperature of a place.
   (i) _____
   (ii) _____
   (iii) _____
   (iv) _____
   (v) _____

KNOT SECONDARY

5. (a) Study carefully the climatic data given for station K then answer the following questions:

Month	J	F	M	A	M	J	J	A	S	O	N	D
Temperature in (^{0}C)	25	25	24	24	24	24	22	26	28	22	20	20
Rainfall in (mm)	240	180	181	190	184	170	174	190	185	200	150	120

(i) Give the annual range of temperature for the station

_____

_____

(ii) Calculate the total annual rainfall for the station.

_____

_____

(iii) Calculate the mean annual temperature.

_____

_____

(iv) Identify a wettest month._____

(v) Identify a month which is hottest._____

(b) Convert the following temperature

(i) 40^{0}C_____^{0}F

KISWAHILI

MAAGIZO

- Mtihani huu una sehemu A, B, C na D.
- Jibu maswali yote kutoka kila sehemu.
- Soma maelezo ya kila sehemu na kila swali.
- Majibu yote yaandikwe kwenye karatasi ya maswali.

SEHEMU A (ALAMA 20) - UFAHAMU

1. Soma kifungu cha habari kisha jibu maswali yatakayofuata.

Kijana mmoja alitoka mjini kwenda kijijini na wakati wa jioni alikuwa akiwasimulia vijana wenzake mambo yalivyo huko mjini. Bali aliwasimulia uzuri wa sayansi na teknolojia ilivyo hasa mambo ya luninga, magari mazuri na starehe kadha wa kadha. Moja ya hadithi zake akawahadithia jinsi kijana mmoja alivyojinyonga ndani ya video.

Katika kundi la vijana waliokuwa wakimsikiliza alikuwepo kijana mmoja ambaye maongezi hayo yalimwingia vizuri sana akaona naye ajaribu kujinyonga mara tu afikapo nyumbani kwake.

Basi jioni akachukua kamba ya katani akaingia ndani na kuitengeneza vizuri ili iweze kushika vizuri shingoni. Wakati huo mke wake alikuwa jikoni, basi hapo ndipo akapata mwanya. Kazi ikaanza akasimama juu ya stoli, akaingiza kichwa kwenye kitanzi kisha akapiga teke mambo yakawiva, mara maumivu yakaanza, yakazidi, akawaza aikate ile kamba kwa kisu, kumbe kisu chenyewe alikigeuza kusikokuwa na makali, katika harakati za kukigeuza kisu ili kielekee kwenye makali, kisu kikadondoka chini. Ikawa patashika na nguo kuchanika. Maumivu yakazidi na macho yalimtoka pima.

Bahati nzuri mkewe alikwishamaliza mapishi jikoni ghafla alimuona sebuleni muhibu wake yuko kwenye tafarani akiwayawaya huku miguu ikining'inia. Bahati nzuri mkewe alichukua kile kisu akakata kamba haraka, jamaa likadondoka chini puu! Kama gunia la chumvi, akamshukuru mkewe kwa msaada wake na kuapa kwamba hatorudia tena kuiga mambo bila ya kuyafanyia uchunguzi.

Maswali

(i) Kijana hakufanikiwa kujinyonga kwa sababu
   (a) kamba ilikatika
   (b) mke wake alitokea
   (c) hakupata vijana wa kumsaidia
   (d) alitambua kuwa kujiua ni kubaya.

(ii) Mwandishi anatueleza kuwa kijana alitaka kujinyonga kwa kutumia
   (a) kamba ya katani
   (b) kanga ya mkewe
   (c) kisu alichokuwa nacho mkononi
   (d) stuli aliyoipata pale chini

(iii) Kijana huyu alitaka kujinyonga kwa sababu ya:-
   (a) Hali ngumu ya maisha
   (b) Baada ya kusikia hadithi ya kijana aliyejinyonga kwenye luninga
   (c) Kukorofishana na mkewe
   (d) Ushamba

KINONDONI MUSLIM SECONDARY

(iv) Neno “akapata mwanya” lina maana ya:-
(a) Alipata fursa
(b) Aling’oka meno
(c) Alipata taabu
(d) Alilalamika mno

(v) Kijana aliyewasimulia wenzake hadithi za maisha ya mjini alikuwa anaishi wapi?
(a) Kijijini
(b) Mkoani
(c) Mjini
(d) Hakuwa na makazi maalum

(vi) Kichwa cha habari kinachofaa kwa habari hii ni:-
(a) Maisha ya tabu
(b) Mambo ya vijana
(c) Kijana wa mjini
(d) Kuiga hakufai

(vii) Msimuliaji aliwavutia wenzake juu ya:-
(a) Uzuri wa sayansi na teknolojia
(b) Maisha ya kisasa
(c) Maisha ya starehe
(d) Maisha ya mjini

(viii) Kwanini kisu alichokuwa nacho kijana aliyetaka kujinyonga kilidondoka?
(a) kwa kuwa kisu kilimwona hafai kusaidiwa
(b) kwa sababu alitaka kudondoka
(c) kwa sababu alikuwa na pupa ya kukigeuza
(d) kwa sababu alining’inia

(ix) Habari hii inatufundisha kuwa:-
(a) kisu kikigeuzwa hakikati kamba
(b) luninga hazifai kwa watu
(c) tusipende kuwasikiliza vijana wanaotoka mjini
(d) tusipende kuiga mambo bila ya kuyafanyia uchunguzi

(x) Mwandishi anaposema “Maongezi haya yalimwingia vizuri” ana maana:-
(a) Aliyaelewa vizuri
(b) Yalimchoma
(c) Hakuyaelewa
(d) Hamna jibu

SEHEMU B (ALAMA 20) - UTUMIZI WA LUGHA YA USAHIHI WA MAANDISHI

2. (a) Lugha ina dhima nyingi katika jamii. Taja dhima tano tu.
(i) _____
(ii) _____
(iii) _____

ENGLISH LANGUAGE

INSTRUCTIONS:

1. This paper consists of sections A, B,C and D.
2. Answer ALL questions in the spaces provided.

SECTION A

COMPREHENTION AND SUMMARY (25 MARKS)

1. Read the following passage carefully and answer the questions that follow

Ali arrived at Azimio Town Bus station for the first time at around 3:30pm. He was new to the town and was going to Azimio College where he was due to start two years' of teacher training. He had a lot about the town. He remembered to have been told to be careful when crossing the roads to avoid being hit by speeding cars. He was not worried about rough drivers or their cars. His main concern was about conmen. A friend had warned him to be careful when seeking to people he did not know. The friend had told him that it was easy to lose his money in a very strange circumstances. Ali was therefore very careful. He did not want to be a victim of thefty.

Ali lifted his suitcase and tried to walk some few steps. It was very heavy. He saw young boys selling ground nuts and a variety of cookies . " shall I ask them? No, I won't. They might be dangerous people ," he told himself. He moved closer to a food stall. There were people eating and chatting , No one seemed to notice his presence.He stood there for a while and then decided to ignore the chatting people

"I will ask a taxi driver to show me the direction ," he told himself. A taxi driver knows many places. "Excuse me, sir. Can you direct me to Azimio Teachers' College please?" Ali said." Why don't you take a taxi? The college is very far from here. You can't reach there on foot," said the taxi driver. "I don't have money for taxi. A friend of mine told me the that the college is a walking distance from the bus station," said Ali."No, it is not. The college is located very far from the town centre; about 20 kilometers roughly.You can take commuter bus number 16 near the zebra crossing. You will get off at the stadium, on Kambarage Road. Turn right and go straight. You will see a mosque on your right hand side and continue walking until you reach the college," the taxi driver said."Thank you very much," said Ali as he took the bus number 16. He followed the driver's instructions and arrived at Azimio College in half an hour later.

QUESTIONS

(a) i) Where was Ali going?

_____

KINONDONI MUSLIM SECONDARY

ii) Why was he careful when asking for the direction?

_____

iii) Do you think the taxi driver was the right person to give Ali the direction? Why?

_____, _____

iv) What lesson can we learn from the passage?

_____

v) Write the suitable title for the passage.

_____

(b) For each of the statements which follow write TRUE for a correct statement or FALSE for incorrect ones.

i) Ali was going to study Form 1. _____

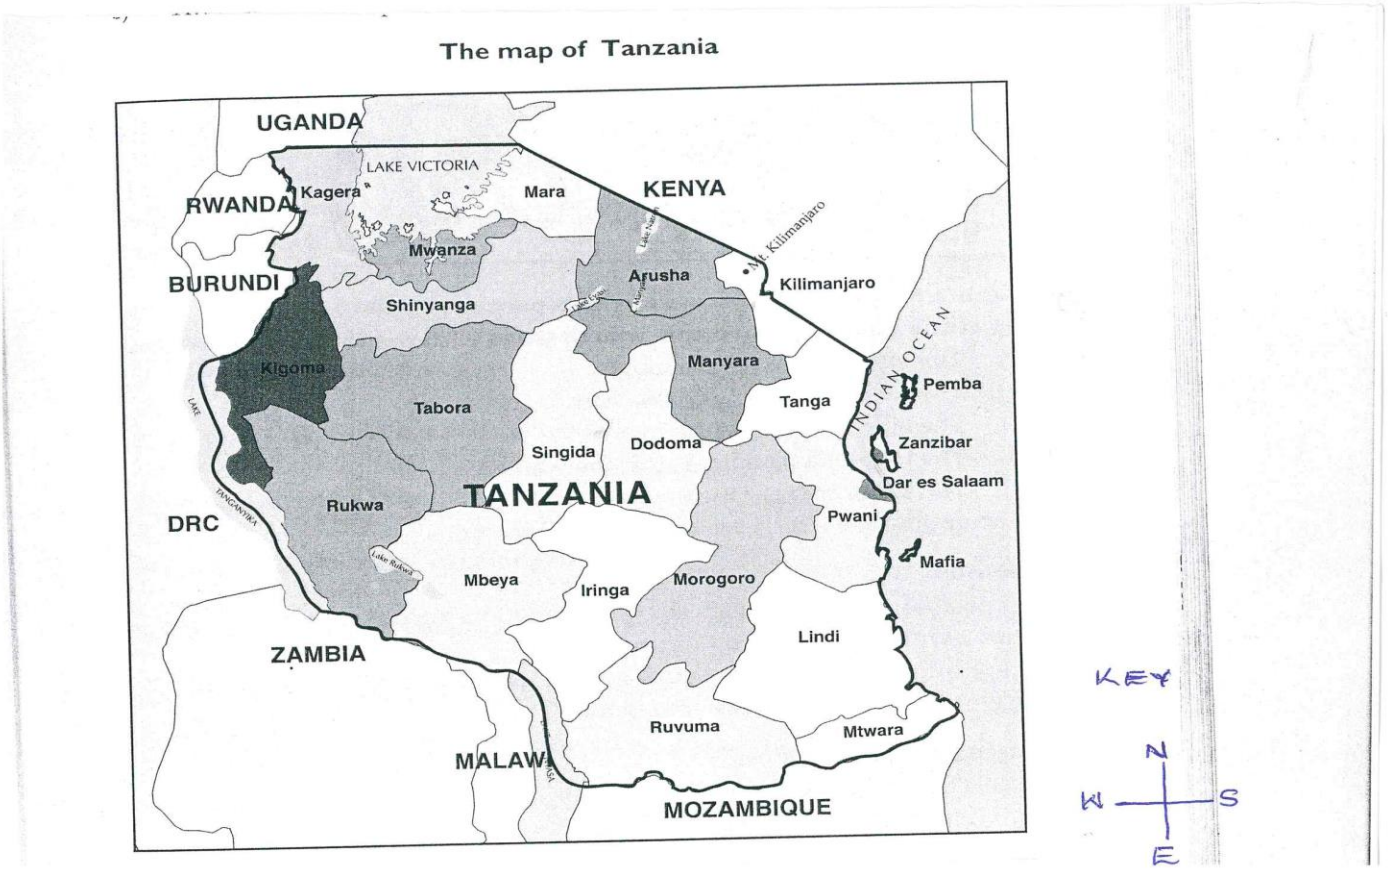

ii) Ali was directed by a taxi driver to reach the college. _____

iii) Ali went on foot from town to college. _____

iv) Ali had visited Azimo Collage before. _____

v) Ali was accompanied by his father to the college. _____

2. Use the map of Tanzania below to answer the following questions:

QUESTIONS

SECONDARY

i) What borders Tanzania in the east?

_____

ii) Which countries border Tanzania in the west?

_____

iii) Name the direction of Lake Tanganyika from Dar es salaam.

_____

iv) Which direction is Lake Victoria from Lake Malawi?

_____

v) Name two countries in the north of Tanzania.

_____

SECTION B
LANGUAGE USE (20 MARKS)

3. Match the sentences column A with those in column B to make correct sentence by writing the correct letter in B below the corresponding items in A

A	B
i) Although she was sick.	A) But he can be very irritable.

    (x) The presidential flag has no coat of arms. _____

SECTION B

14. Read the following passage and then answer the questions that follow:

For although political and social stability is necessary to any real national or personal freedom, so too is change in our circumstances. At present our national freedom of ten exists on paper only, for our country is so poor, and so weak relative to other nations, that we do not play our rightful part in the human community. Decisions on matters which vitally concern us can be and often are made without any reference to us. And this is understandable. Even defending our national integrity against the intervention of foreign powers stains us the utmost. A very great change in our economic well-being is necessary before we can meet these responsibilities of national freedom.

Nor is it only in national terms that real freedom is under mined by our poverty. What freedom has our subsistence farmer? He scratches a bare living from the soil provided the rains do not fail, his children work at his side without schooling, medical care, or even good feeding.

Certainly he has freedom to note and to speak as he wishes. But these freedoms are much real to him than his freedom to be exploited. Only as his poverty is reduced will his existing political freedom become properly meaningful and his right to human dignity become a fact of human dignity.
